VICTORY CAPITAL MANAGEMENT INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Victory Capital Management Inc. (the "Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established, effective August 1, 2013, as a defined contribution plan covering all individuals who were employed by the Company on August 1, 2013. The Plan covers all other employees beginning employment after August 1, 2013, who have completed one year of service, as defined in the Plan document. The Plan excludes from participation all employees covered by a collective bargaining agreement, non-resident aliens, leased employees, directors, independent contractors, and temporary employees who work less than 1,000 hours of service in a year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2015, the Plan was amended and restated to comply with the requirements of the Pension Protection Act of 2006 and other legislative and regulatory changes.

Effective October 31, 2014, the Company acquired Munder Capital Management Inc. ("Munder"). As a result of the acquisition, the Munder Capital Management 401(k) Plan merged into the Plan. As a result of the merger, \$38,639,687 of assets were transferred into the Plan on December 4, 2014.

Administration

The Plan is administered by the Company. Wilmington Trust Retirement and Institutional Services Company (the "Trustee") serves as the Plan's trustee. Effective April 13, 2015, Wilmington Trust Retirement and Institutional Services was acquired by Broadridge Financial Services. JEM Resource Partners serves as the Plan's recordkeeper.

Automatic Enrollment

All eligible employees, hired on or after August 1, 2013, are automatically enrolled in the Plan, and are deemed to have elected a deferral rate of 3% of their pre-tax annual compensation. After each additional year of service, as defined in the Plan document, the deferral rate is automatically increased by 1%, until reaching 6% after three years of service. An employee may affirmatively elect not to participate in the Plan or elect a different deferral rate.

Contributions

Each year, participants may contribute, through payroll deductions each pay period, pre-tax contributions in any amount, not to exceed the limitation (\$18,000 and \$17,500 in 2015 and 2014, respectively) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Participants may make catch-up contributions, which are pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2015 and 2014 cannot exceed \$6,000 and \$5,500,

respectively. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor matching contribution equal to 100% of the participant's pre-tax contribution, not to exceed 6% of the participant's compensation. For the years ended December 31, 2015 and 2014, the Company made safe harbor contributions totaling \$2,336,712 and \$1,169,223, respectively. The Company's safe harbor matching contributions are invested directly in the various investment options, as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of Plan earnings. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately 100% vested in their voluntary contributions and Company safe harbor matching contributions and earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of a) \$50,000, reduced by the highest outstanding loan balance during the previous twelve month period or b) 50% of the participant's vested account balance. Notes receivable repayment terms may not exceed five years unless for the purchase of a primary residence. The notes receivable are secured by the participant's vested account balance and bear interest at a rate equal to the prime rate plus 2%. Principal and interest payments are made by means of payroll withholdings according to the terms of the promissory note. Each participant is allowed to have two outstanding loans at a time. Notes receivable from participants at December 31, 2015 and 2014 totaled \$281,111 and \$275,303, respectively. Interest rates on outstanding loans at December 31, 2015 and 2014 ranged from 3.25% to 5.25% per year.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or attainment of age 59 ½, a participant (or his or her designated beneficiary in the event of death) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or to have the account balance distributed in installments. In-service withdrawals are allowed by the Plan after the participant has attained age 59 ½. Elective participant deferrals and safe harbor matching contributions are available for in-service withdrawals. Prior to age 59 ½, and subject to guidelines set forth in the IRC, a participant may request a hardship withdrawal. However, safe harbor matching contributions are not available for hardship distributions.

VICTORY CAPITAL MANAGEMENT INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS, Continued

1. Description of Plan, continued

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. Trustee and administrative fees paid by the Company on behalf of the Plan were \$12,271 and \$14,364, for the years ended December 31, 2015 and 2014, respectively.

Expense Offset Arrangements

Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net depreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Benefit payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016 on a retrospective basis. Early adoption is permitted; ASU No. 2015-07 is not applicable to the plan.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, to reduce the complexity in employee benefit plan accounting.

Part I - Fully Benefit-Responsive Investment Contracts: Eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Further, *Part I* clarifies the definition of fully benefit-responsive investment contracts to only include direct contracts between the Plan and the issuer of the contract. Indirect investments in fully benefit-responsive investment contracts (such as through stable value common or collective trusts) should no longer be reflected as fully benefit-responsive investment contracts.

Part II - Plan Investment Disclosures: Eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. *Part II* also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

Part III - Measurement Date Practical Expedient: Reduces complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

ASU No. 2015-12 is effective for fiscal years beginning on or after December 15, 2015. *Parts I* and *II* are effective on a retrospective basis, and *Part III* is effective on a prospective basis. Early adoption is permitted. Plan management has elected to adopt *Part II*. The adoption of *Part II* in 2015 (with retrospective application to 2014), resulted in: 1) the elimination of the footnote disclosing individual investments that represent 5 percent or more of net assets available for benefits and 2) the simplification of disclosures in the fair value measurement footnote. The adoption of *Part II* had no impact on the Plan's net assets available for benefits and the changes in net assets available for benefits. *Parts I* and *III* are not applicable to the Plan.

3. Fair Value Measurements

FASB Accounting Standards Codification Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

3. Fair Value Measurements, continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, given the nature of the Plan's assets and liabilities, the Plan uses the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at amortized cost, which approximates fair value.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan administrator believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2015 and 2014:

	<u>Investments at Fair Value as of December 31, 2015</u>

4. Information Certified by the Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Tax Status

The Plan adopted by the Company is a volume submitter ("VS") plan that is designed to comply with provisions of the Internal Revenue Code ("IRC") Economic Growth and Tax Reconciliation Act of 2001 ("EGTRRA"). Such VS plans are pre-approved by the Internal Revenue Service ("IRS") by reference to the Cumulative List of Changes in Plan Qualification Requirements (the "Cumulative List") provided under EGTRRA. Accordingly, the Plan was eligible for a six-year remedial amendment cycle. Because the Plan is a VS plan, the Company is not authorized to amend the Plan except to comply with changes in the Cumulative List. The Plan received a favorable determination letter from the IRS on March 31, 2014. Management of the Company and the Plan administrator believe the Plan complies with and is being operated in accordance with the applicable requirements of the IRC.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA.

7. Party-In-Interest Transactions

Certain Plan investments are in accounts issued by the Company, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

8. Delinquent Participant Contributions

Participant contributions totaling \$805 were withheld from participants' pay during 2015 but were not remitted to the Plan within the time frame required by the DOL under Plan asset rules. On January 8, 2016, the Company remitted to the Plan such delinquent participant contributions plus earnings.

9. Subsequent Events

Effective January 1, 2016, the Plan was amended to change the definition of compensation and to recognize a participant's service with Compass Efficient Model Portfolios, L.L.C., a business acquired by the Company during 2015.

Plan management has evaluated all subsequent events through October 14, 2016, which is the date the financial statements were available to be issued, and has concluded that there are no other significant events to be reported.
