Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee,
the Master Trust Investment Committee and Participants of
Precision Castparts Corp. Retirement Plan
Portland, Oregon

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Precision Castparts Corp. Retirement Plan (the "Plan"), as of December 31, 2015 and 2014, and for the years then ended, listed in the foregoing Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon and Fidelity Management Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PRECISION CASTPARTS CORP. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

1. DESCRIPTION OF THE PLAN

The following brief description of the Precision Castparts Corp. ("PCC") Retirement Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan agreement for more complete information.

General—The Plan is a non-contributory defined benefit plan covering eligible employees of PCC and certain subsidiaries (the "Company"). An Administrative Committee have been appointed to control and manage the operation and administration of the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is also administered by the Master Trust Investment Committee.

Effective April 1, 1982, the Plan was amended to combine the 1977 Pension Plan and the Employees' Prior Profit Sharing Plan. The benefits provided under the prior plans are continued under the Plan.

Effective April 1, 1995, the Company established a master trust arrangement (the "Master Trust with the Bank of New York Mellon") to hold and invest amounts under the PCC Retirement Plan. Each participating retirement plan has an undivided interest in the Master Trust with the Bank of New York Mellon. Accordingly, the financial statements of the Plan have been prepared to show the Plan's share of the Master Trust with the Bank of New York Mellon assets and net investment income.

The assets of the Employees' Prior Profit Sharing Plan are not included in the Master Trust with the Bank of New York Mellon. These assets are held at Fidelity Management Trust Company ("Fidelity") in a Master Trust arrangement (the "Master Trust with Fidelity") and were frozen on February 3, 1988, such that no participants would accrue any additional benefits under the Plan after that date. Accordingly, the financial statements of the Plan have been prepared to show the Plan's share of the prior profit sharing plan assets held by Fidelity and net investment income (loss).

Plan Amendments—The Plan was amended in 2014 to make certain editorial changes required by the Internal Revenue Service. A new determination letter was received by the Plan on July 25, 2014.

Eligibility and Vesting—Employees of the Company and certain subsidiaries who were hired prior to July 1, 2012 are eligible to participate in the Plan, unless a collective bargaining unit that does not provide for participation covers them. Employees begin vesting immediately and become 100% vested after five years of service. Each year of vested service requires 1,000 hours of work in a fiscal year. All Participants with an accrued benefit became 100% vested upon shareholder approval of PCC's merger with Berkshire Hathaway on November 19, 2015.

Effective July 1, 2012, the Company amended the Plan to generally close participation to employees hired on or after July 1, 2012. Participants who terminate employment and then return to active service are included with active participants but accrue no additional benefits. The Company has the right to alter, amend or terminate the Plan at any time.

Retirement Benefits—Participants are entitled to annual pension benefits beginning at normal retirement age 65, calculated as detailed in the Plan agreement. The Plan permits early retirement at any date after age 55, with 10 or more years of service. Participants may elect to receive their pension benefits in the form of a single life annuity, contingent annuity with payments continued to the participant's spouse in full, contingent annuity with payments continued to the spouse at 50%, contingent annuity with payments continued to the spouse at 75%, cash settlement for amounts up to \$25,000, or a life annuity with five years certain. If participants terminate for any reason other than retirement, they will be entitled only to their vested, accrued benefits, which will begin with the first month following their normal retirement or early retirement date.

Death and Disability Benefits—If a vested participant dies before normal or early retirement age, a death benefit equal to the actuarial equivalent of 50% of the value of the participant's accumulated retirement benefits is paid to the participant's beneficiary in the form of a straight life annuity. Active participants who become totally disabled will continue to accrue service years while disabled until normal or early retirement age. Benefits shall be determined on the basis of years of service, and final average pay is calculated as if the pay rate was frozen at the date of disability.

Plan Administration—The Plan is administered by an Administrative Committee and an Investment Committee comprised of members who are appointed by the Chief Executive Officer of PCC.

Administrative Expenses—Most legal, audit, administrative and custodial expenses are paid by the Plan. Those not paid by the Plan are paid by the Company. No expenses are paid by the Plan to employees of the Plan Sponsor or affiliates who perform services on behalf of the Plan.

During 2014, certain expenses were inadvertantly paid from the Wyman-Gordon Company Retirement Plan that were related to the Plan. This was corrected in July 2015, and was recorded as a liability in the Statement of Net Assets Available for Benefits for the plan year ended December 31, 2014.

2. SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting—The accompanying financial statements are prepared on the accrual basis of accounting, and in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates—The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition—Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties—The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is reasonably possible that changes in these estimates and assumptions will occur in the near term and the effect of such changes could be material to the financial statements.

Actuarial Present Value of Accumulated Plan Benefits—Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their highest five consecutive years of credited service through the date for which the benefit information is presented (the valuation date).

Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is estimated by independent actuaries based upon the latest actuarial determination, as of January 1, 2015. The amount is determined by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2015, were as follows:

Discount rate	7.75 %
Mortality	The RP-2014 Mortality Tables with Blue Collar adjustment, projected with Scale BB to 2023. (adopted January 1, 2015)
Actuarial method	Unit credit actuarial cost method
Asset valuation	Market value

Retirement

Age	Number Retiring per 1,000 Eligible at Beginning of Year
55-59	20
60-61	60
62	300
63-64	200
65-69	350
70	1,000

Future retirees are assumed to elect a single life annuity.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Accumulated plan benefits as of January 1, 2015, the date of the most recent actuarial report available, are summarized as follows:

Vested benefits:	
Retired	\$ 135,884,487
Disabled	2,437,470
Beneficiaries	8,262,728
Deferred beneficiaries	424,081
Active participants	153,786,237
Terminated vested	<u>67,983,609</u>
Total vested benefits	368,778,612
Non-vested benefits	<u>5,769,687</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 374,548,299</u>

The changes in accumulated plan benefits from January 1, 2014 through January 1, 2015, are as follows:

Actuarial present value of accumulated plan benefits— January 1, 2014	<u>\$ 345,117,916</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	12,888,723
Reduction in discount period	26,122,981
Benefits paid (excludes non-pension related benefits paid from Fidelity)	(16,400,373)
Change in assumptions	6,507,731
Actuarial loss	<u>311,321</u>
Net increase	<u>29,430,383</u>
Actuarial present value of accumulated plan benefits— January 1, 2015	<u>\$ 374,548,299</u>

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncements—In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, a Plan would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. The amendments in this update are effective for fiscal years beginning after December 15, 2016, with early adoption permitted. A reporting entity should apply the amendments retrospectively to all periods presented. Although early adoption is permitted, the Plan will apply the amendments in this update to the financial statements for the year ending December 31, 2017.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I is not applicable to the plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan has elected to early adopt ASU 2015-12 as of December 31, 2015, as permitted, and has applied the provisions of ASU 2015-12 retrospectively, as required. Certain historical disclosures that are no longer required were removed.

Disclosure of Evaluation of Subsequent Events—On January 29, 2016, the PCC common stock in the Plan was converted to cash as part of the merger of Precision Castparts Corp. with Berkshire Hathaway Inc.

On August 1, 2016, the Prior Profit Sharing Plan Account Component of the Plan was transferred to the Precision Castparts Corp. 401(k) Retirement Savings Plan.

The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

3. FUNDING POLICY

The Company's contributions are based on actuarial calculations as determined under the Unit Credit Actuarial Cost Method with amortization of past service cost over the period of time required to satisfy minimum funding requirements. The Company makes contributions no later than the date of filing its income tax return for each fiscal year. The Company is under no obligation to make any contributions, which are not deductible for income tax purposes in the applicable fiscal year. The Company satisfied the ERISA minimum funding requirements \$6,184,444 in 2015 by using excess contributions from prior years.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the PBGC up to the applicable limitations.
3. All other vested benefits not insured by the PBGC.
4. All non-vested benefits.
5. If any assets remain after all accrued benefits have been provided for in full and all expenses have been paid, they will be returned to the Company.

5. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within level 3 whose fair value measurements consider several inputs may include level 1 or level 2 inputs as components of the overall fair value measurement.

Valuation of Investments in Master Trust with Bank of New York Mellon—The Master Trust asset allocation strategy is designed to balance the objectives of achieving the asset return assumption consistently over the long-term while minimizing the volatility of the funded status. Asset classes with differing expected rates of return, return volatility and correlations are utilized to control risk and provide diversification. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Public Equity Securities (Long/Hedged)—Long equity investments consist of publicly traded equity securities that are well diversified across managers, styles, sectors and countries. Hedged equity investments typically add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Public equity investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as Level 1. Equity investments made indirectly via pooled funds offering daily to quarterly liquidity and valued at the net asset value (NAV) of the fund are classified as Level 2. Such

investments are typically valued at the most recently published NAV of the fund, which may be derived from underlying investment values one quarter earlier, unless management believes an adjustment to NAV is warranted based on changes in observable inputs or an expectation that an investment will be sold at a value other than NAV.

Private Equity—Private equity investments consist of investments in limited partnerships or commingled vehicles with managers who purchase interests in non-public companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity funds typically have low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Private equity investments are classified as Level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. For the years ended December 31, 2015 and 2014, no material adjustments were made to fund NAVs. As of December 31, 2015 and 2014, unfunded capital commitments to private equity investments were approximately \$22 million and \$18 million, respectively.

Absolute Return (Market Sectors/Arbitrage)—Absolute return strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Absolute return managers typically invest in futures, forwards or options on a variety of asset classes. Market sector strategies seek to capitalize on movements in commodity, currency, interest rate and/or other traditional markets while arbitrage strategies focus on credit, volatility or other alternative asset classes. Investments are typically made in limited partnerships and classified Level 2 when funds offer daily to quarterly liquidity at fund NAVs and reported values are based on significant observable inputs. All other investments are classified as Level 3 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above. As of December 31, 2015 and 2014, unfunded capital commitments to absolute return investments were approximately \$3 million.

Royalty Investments—Royalty investments are made through a limited partnership which purchases income-producing royalties derived from sales of pharmaceutical products. Valuation of the fund is determined from an independent appraisal process whereby significant observable inputs are used in determining the fund's NAV. Liquidity is typically arranged in the secondary market with trades occurring at the most recent published NAV. Royalty investments are classified as Level 2 and are typically valued at the most recently published NAV of the fund, unless management believes an adjustment is warranted as described above.

Fixed Income (Investment/Non-Investment Grade)—Fixed income investments consist of public and private fixed income securities of U.S. and non-U.S. government and corporate issuers, fixed income mutual funds, and interest rate derivatives intended to hedge a portion of the pension plan's sensitivity to interest changes. Fixed income investments made directly through managed (separate) account structures and valued based upon closing prices reported in the active trading markets are classified as Level 1. Over-the-counter derivatives and fixed income investments made indirectly via pooled funds offering daily to quarterly liquidity and valued at the NAV of the fund are classified as Level 2. Fixed income investments with low liquidity and valuation methodologies that require the use of significant unobservable inputs are classified as Level 3. As of December 31, 2015 and 2014, unfunded capital commitments to fixed income investments were approximately \$6 million and \$19 million, respectively.

Cash/Other—Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1.

Valuation of Investments in Master Trust with Fidelity

The following is a description of the fair value methodologies used for investments with Fidelity as the investment strategy differs from that of the Master Trust with Bank of New York Mellon.

Mutual Funds—Valued at the quoted market prices which represent the net asset value of shares held by the plan at year end. Investments in this category can be redeemed immediately without notice at the current net asset value per share based on the fair value of the underlying assets. Mutual funds with underlying investments valued based on quoted market prices are classified as Level 1. All other mutual funds are classified as Level 2.

Plan Sponsor Common Stock—Valued at the closing price reported on the New York Stock Exchange. Plan sponsor common stock is classified as Level 1.

Please refer to Note 7 and 8 for the fair value of investments with the Bank of New York Mellon and Fidelity, which were certified by the trustees, as of and for the years ended December 31, 2015 and 2014, respectively, using the fair value hierarchy.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INFORMATION CERTIFIED BY THE TRUSTEES

The Bank of New York Mellon and Fidelity Management Trust Company, the trustees, hold all investments and execute all transactions on behalf of the Plan. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan administrator has obtained certifications from the Plan trustees that information regarding the fair value and cost of all investments, plus all investment interest and dividend income and net appreciation (depreciation) in fair value of investments and gains and losses is complete and accurate at December 31, 2015 and 2014, and for the years then ended. In addition, certain investment information included in Note 7 and 8 is provided by or compiled from information certified by the Bank of New York Mellon and Fidelity Management Trust Company.

7. INTEREST IN THE MASTER TRUST WITH THE BANK OF NEW YORK MELLON

A portion of the Plan's investments are in the Master Trust with the Bank of New York Mellon, which was established for the investment of assets of the Plan and several other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust with the Bank of New York Mellon. The value of the Plan's interest in the Master Trust with the Bank of New York Mellon is based on the beginning of year value of the Plan's interest in the trust, plus actual contributions and

allocated investment income (loss), less actual distributions and allocated administrative expenses. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust with the Bank of New York Mellon was 46.02% and 46.36%, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Transfers between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were transfers between levels of \$0 and \$502,281, respectively.

8. INTEREST IN MASTER TRUST WITH FIDELITY

A portion of the Plan's investments are in the Master Trust with Fidelity, which was established for the investment of assets of the Plan and the Precision Castparts Corp. 401(k) Retirement Savings Plan, sponsored by the Company. The value of the Plan's interest in the Master Trust with Fidelity is based on beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust with Fidelity was less than 1%. Investment income or loss is allocated to each plan and each participant daily based on closing prices of individual mutual funds.

The following table presents the net assets, including investments of the Master Trust with Fidelity at December 31, 2015 and 2014:

	2015	2014

For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

9. TAX STATUS

The Internal Revenue Service has determined and informed the Company, by letter dated July 25, 2014 that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable requirements of the IRC, thereby continuing to exempt the Plan from federal income taxes.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Bank of New York Mellon and Fidelity. As Bank of New York Mellon and Fidelity are trustees, as defined by the Plan, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid directly by the Plan for the investment management services were not significant for the years ended December 31, 2015 and 2014.

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

As selected by PCC, the rates for calculating the PPA Funding Target are the January 2015 segment rates. As prescribed by segment rate stabilization legislation, in 2015 these rates must be between 90% and 110% of the 25-year average rates published by the IRS.

– Segment 1 payments under 5 years	4.72%
– Segment 2 payments between 5 and 20 years	6.11%
– Segment 3 payments after 20 years	6.81%

Mortality

The RP-2000 annuitant and non-annuitant mortality tables for 2015 as prescribed by the IRS.

Future Salaries

Salaries were assumed to increase according to the following rates (adopted January 1, 2003) that vary by the participant's years of service and employment status (hourly or salaried employee).

Years of Service	Salary Increase	
	Hourly	Salaried
1	10.0%	8.5%
2	8.5	7.5
3	6.5	7.0
4	6.0	6.5
5	4.5	6.5
6–10	3.5	6.0
11–15	3.0	5.5
16–20	3.0	5.0
21–25	3.0	4.5
26–30	2.5	4.0
31–35	2.5	3.5
36+	2.5	3.0

Withdrawal

Withdrawals prior to retirement for reasons other than death and disability were assumed to follow rates which varied by length of service and were based on a study of the actual experience of the plan (adopted January 1, 2014).

Years of Service	Number of Withdrawals Expected Per 1,000 Active Participants Per Year
Under 1	552
1–2	264
3	192
4	144
5–6	84
7–14	48
15–19	36
20–29	12
30 & Up	0

Disability

Active Participants

Disabilities were assumed to occur at rates which varied by age. Examples of these rates are as follows:

Age	Number of Disabilities Expected Per 1,000 Active Participants Per Year
25	.35
30	.40
35	.50
40	.60
45	.90
50	1.40
55	2.70
60	5.60

Disabled Participant Mortality

The RP-2000 annuitant and non-annuitant mortality tables for 2015, as prescribed by the IRS.

Retirement

Eligible employees were assumed to retire prior to normal retirement according to the following table and were based on an actual study of the Plan (adopted January 1, 2000):

Age	Number Retiring Per 1,000 Eligible at Beginning of Year
55–59	20
60–61	60
62	300
63–64	200
65–69	350
70	1,000

Future retirees are assumed to elect a single life annuity.

Future Participation and Service

Active participants eligible for additional accruals were assumed to earn one benefit year and one year of eligibility service in each future plan year prior to the year of retirement, death, disability or withdrawal. Active participants ineligible for additional accruals were assumed to earn one year of eligibility service in each future plan year prior to the year of retirement, death, disability or withdrawal.

Probability of Marriage

All non-retired participants are assumed to be married. A three-year age differential between spouses is assumed with the males being older.

Expenses

It is assumed that the Plan's non-investment expenses will total \$1,200,000 annually, payable at the beginning of year (adopted January 1, 2015).

Actuarial Value of Assets

The 24 month average value of assets per IRS Notice 2009-22 (adopted January 1, 2009).

Actuarial Cost Method

For purposes of calculating the Funding Target, we generally calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method. A limited exception to this applies for disability benefits, where Funding Target liability is calculated in accordance with IRS regulations.

Changes in Actuarial Assumptions

- The mortality assumption used to calculate the Funding Target was updated to the projected RP-2000 annuitant and non-annuitant mortality tables for 2015 as prescribed by the IRS.
- The segment rates used to calculate the Funding Target are:
 - Segment 1 payments under 5 years 4.72%
 - Segment 2 payments between 5 and 20 years 6.11%
 - Segment 3 payments after 20 years 6.81%
- Assumed annual administrative expenses were updated from \$800,000 to \$1,200,000 to better reflect anticipated future expenses.

SUMMARY OF THE PLAN

Name

Precision Castparts Corp. Retirement Plan (2013 Restatement through Amendment No. 1)

Effective Date

April 1, 1977. Restated effective January 1, 2013.

Type of Plan

Trusted plan with a corporate trustee, administered by a committee appointed by the employer.

Employer

Precision Castparts Corp. and affiliates who have adopted the plan.

Employees Eligible to Participate

Employees of adopting affiliates are generally eligible to participate if they were hired or last rehired prior to July 1, 2012. An eligible employee will begin participation on the first day of the month coincident with or next following completion of one year of eligibility service.

Normal Retirement Date

A participant's normal retirement date shall be his 65th birthday.

Normal Retirement Benefit

A participant's basic pension benefit is a monthly pension for the life of the participant equal to the sum of the following:

- Benefit Years up to 35 times 1.2% of Final Average Pay, plus
- Benefit Years up to 35 times 0.6% of Final Average Pay in excess of Social Security Covered Compensation, plus
- Benefit Years over 35 times 0.5% of Final Average Pay

Additional provisions apply under historical changes in benefit formulas generally effective in 1989 and 1997.

Benefit Years

Benefit Years are determined based on periods of service with adopting affiliates. For most participants, service is credited on an hours equivalency basis under Department of Labor regulations. Partial Benefit Years are credited for participants with at least 1,000 hours in a plan year.

Final Average Pay

Final Average Pay is the highest average monthly compensation in any five consecutive calendar years. Compensation is defined as base pay and includes certain deferred compensation amounts and is limited by the pay limit under IRC § 401(a)(17).

Optional Forms of Benefit

A married participant at retirement will receive a 50% spouse joint and survivor annuity unless he optionally chooses a 75% or 100% spouse joint and survivor annuity or, with spousal consent, a life annuity or 5-year certain and life annuity. A non-married participant at retirement will receive a life annuity unless he elects a 5-year certain and life annuity.

Following is a reasonably representative sample of optional form conversion factors. These factors are multiplied by the amount of the immediately payable single life annuity.

5-year certain and life: 0.9935 at age 55; 0.9886 at age 60; 0.9789 at age 65.

Joint and Survivor:

Survivor Percentage	Participant Age Minus Spouse Age		
	3	0	-3
50%	0.88	0.90	0.93
75%	0.83	0.86	0.89
100%	0.79	0.82	0.86

Early Retirement Date

Any day after the date on which a participant attains age 55 and completes 10 years of eligibility service.

Amount of Early Retirement Benefit

The basic pension benefit is reduced by 1/2% for each month that early retirement precedes the normal retirement date.

Deferred Retirement Date

Any day after the Normal Retirement Date

Amount of Deferred Retirement Benefit

A participant working past Normal Retirement Date will be notified in writing that benefits will not be started except for minimum required distributions. The amount of the Deferred Retirement Benefit is determined in the same manner as the Normal Retirement Benefit, but is based on Benefit Years and Final Average Pay through the Deferred Retirement Date.

Disability Benefit

If a disabled participant leaves employment because of a disability directly related to his employment, and if the disabled participant was vested on the date he left employment, he will continue to earn years of eligibility service and Benefit Years until retirement. The salary or wage rate paid to him immediately prior

to the onset of disability will be considered as though paid during such disability. The disabled participant will be eligible for early or normal retirement under the plan upon satisfaction of the eligibility conditions.

Preretirement Death Benefits

If a vested participant dies prior to retirement his surviving spouse will be eligible to receive a retirement benefit equal to the benefit that would have been payable to the spouse had the deceased participant retired on the day of his death and elected the 50% spouse joint and survivor annuity. If the deceased participant was not age 55 at his death, he will be treated as having reached age 55 for purposes of determining his early retirement benefit.

If the deceased participant is not survived by his spouse but is survived by minor children, a death benefit calculated as if the participant had a surviving spouse who was the same age as the deceased participant will be payable to the surviving minor children in equal shares.

Vesting

A participant will be vested upon the earliest of:

- Completion of 5 years of eligibility service.
- Attainment of age 65 while employed or disabled.

Cash Settlement

An optional cash settlement is available for vested terminated participants whose present value of accrued benefits does not exceed \$25,000.

Prior Profit Sharing Plan Accounts

Benefits, if any, derived from a participant's prior profit sharing plan account are in addition to the monthly benefits from this plan.

Plan Changes

None.

CHANGE IN ACTUARIAL ASSUMPTIONS

Assumed annual administrative expenses were updated from \$800,000 to \$1,200,000 to better reflect anticipated future expenses.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
