FRONTIER TANK LINES 401(k) RETIREMENT SAVINGS PLAN

Notes to Financial Statements
For the Years Ended December 31, 2015 and 2014

1. PLAN DESCRIPTION

The following is a brief description of Frontier Tank Lines 401(k) Retirement Savings Plan (the Plan) provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Frontier Tank Lines 401(k) Retirement Savings Plan, formed on January 1, 2014, is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is funded by employee and employer contributions and covers all employees of Frontier Tank Lines (the Company or Plan Sponsor) who complete at least 3 months of continuous service.

Administration - ADP Retirement Services (ADP) is the third-party administrator and State Street Bank and Trust Company (State Street) is the custodian of the Plan's assets.

Contributions - Each eligible employee may make pre-tax contributions to the Plan in the form of a 1% to 86% salary reduction, not to exceed certain limits imposed by the IRC. Participants may also contribute amounts representing rollovers from other qualified plans. The Company provides a 100% matching contribution up to 4% of a participant's compensation, as defined. The Company can also elect to make discretionary contributions to the Plan. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is credited with his or her contributions, the Company's contributions, and actual earnings thereon. Each participant's account is reduced by the actual amount of benefits paid on his or her behalf, investment losses and an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are fully vested in their salary deferrals and Company matching contributions at all times. Participants become 20% vested in Company discretionary contributions after 2 years of service and vest ratably over the ensuing four years, becoming 100% vested in such contributions after 6 years of service.

Notes Receivable From Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate (on the date of the loan) plus 2% per annum. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service due to death, disability or retirement, a participant (or beneficiary) may elect to receive a lump-sum payment, installment payment or annuity contract equal to the value of the participant's vested account.

Forfeitures - Forfeitures of account balances are allocated to participant accounts and are used to reduce the Company contributions. There were no significant forfeitures during the years ended December 31, 2015 and 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in a Stable Value Fund which is a fully benefit-responsive guaranteed investment contract. At December 31, 2015, the fair value of the Stable Value Fund approximated its contract value.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4 for fair value measurements). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes both realized and unrealized gains and losses incurred during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowances for credit losses have been recorded at December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain costs of administering the Plan are paid by the Company and are excluded from the accompanying financial statements. Fees related to the administration of notes receivable are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Subsequent Events - The Plan has evaluated events and transactions that occurred between January 1, 2016 and October 17, 2016, which is the date these financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

3. INVESTMENTS

The following investments represent 5% or more of the total net assets available for benefits of the Plan at December 31:

	2015	2014
T. Rowe Price Retirement 2035 R	$ 197,681	$ 81,555
T. Rowe Price Retirement 2030 R	98,623	81,650
T. Rowe Price Retirement 2040 R	46,278	28,787
T. Rowe Price Retirement 2045 R	33,170	28,358

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the years) depreciated in value by $31,784 and $399 for the years ended December 31, 2015 and 2014, respectively.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1* - Inputs to the valuation methodology that consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- *Level 2* - Inputs to the valuation methodology which include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; and (4) inputs that are derived from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3* - Inputs to the valuation methodology that are unobservable and are significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (*Continued*)

The following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

- *Mutual funds* - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission and are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- *Common/Collective Trusts* - Valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different then the reported NAV. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the common/collective trusts, the investment advisor reserves the right to temporary delay the withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total

	$ 302,693	$ 15,624	$ -	$ 318,317

There were no significant transfers between fair value levels during the years ended December 31, 2015 and 2014.

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of December 31:

SSGA Int'l Index Sec. Lend Ser VIII	2,804	n/a	Daily	None

5. STABLE VALUE FUND

The Plan participates in a fully benefit-responsive Stable Asset Fund with Invesco Trust Company (Invesco). Invesco maintained the contributions in a collective trust fund (the Trust Fund). The Trust Fund's primary investment objectives are to preserve principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers. The Trust Fund declares income dividends daily and thereby maintains a net asset value of $1 per unit.

To mitigate the risk of market losses on the unit investments, the Trust Fund enters into synthetic guaranteed investment contracts (Synthetic GIC's) which are fully benefit-responsive investment contracts. Synthetic GIC's are portfolios of securities (debt securities and units of collective trusts) owned by the Trust Fund. The Synthetic GIC's and associated derivative instruments (Wrapper Contracts) are designed to minimize the risk of losses on these securities. Synthetic GIC's enable the Plan to protect the principal amount invested over a specified period of time and maintain a constant net asset value per share or unit. The assets underlying the investment contracts are owned by the Trust Fund with the Plan owning units of the Trust Fund.

Investment contracts held by a defined contribution plan are required to be reported at fair value; however, since these contracts are fully benefit-responsive, an adjustment is generally reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measure attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2015, the contract value of the Plan's investment in the Trust Fund approximates its fair value. The Stable Asset Fund earns interest at interest crediting rates that typically reset on a monthly or quarterly basis. These interest crediting rates are based on the characteristics of the underlying fixed income portfolio.

Average yields of the Stable Value Fund were as follows for the year ended December 31, 2015:

Based on actual earnings	1.77%
Based on interest rate credited to participants	1.73%

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include: (i) termination of the Trust Fund, (ii) a material adverse change to the provisions of the Trust Fund, (iii) investment participants electing to withdraw from an investment contract in order to switch to a different provider, and (iv) terms of a successor Trust Fund that do not meet the contract issuer's criteria for the issuance of a similar contract. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

6. SUMMARY OF CERTIFIED UNAUDITED INFORMATION

The following information provided by State Street was certified by them as complete and accurate as of and for the years ended December 31:

	2015	2014
Investments:		
Mutual funds	$ 516,325	$ 302,693
Common/collective trusts	35,575	15,624
Total investments, at fair value	$ 551,900	$ 318,317
Notes receivable from participants	$ 54,585	$ 32,503
Investment income (loss)	$ (7,929)	$ 10,109
Interest income on notes receivable from participants	$ 1,926	$ 859
Schedule of assets (held at end of year)	Supplemental schedule	

7. INCOME TAX STATUS

The IRS issued a determination letter on July 8, 2014, which stated that the prototype Plan and its related trust, as then designed, were in compliance with applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has concluded that as of December 31, 2015 and 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan Administrator believes the open tax year subject to income tax examination is 2014.

8. PARTY-IN-INTEREST TRANSACTIONS

State Street was the custodian of the Plan's assets and ADP was the third party administrator for the years ended December 31, 2015 and 2014. Consequently, transactions between the Plan and these entities qualify as party-in-interest transactions. During the years ended December 31, 2015 and 2014, related expenses paid by the Plan amounted to $2,050 and $1,925, respectively.

9. RISKS AND UNCERTAINTIES

The Plan invests in multiple investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
