Independent Auditor's Report

To the Plan Administrator
National Penn Bancshares, Inc. Capital Accumulation Plan
Allentown, Pennsylvania

We have audited the accompanying financial statements of the National Penn Bancshares, Inc. Capital Accumulation Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the 2015 financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter - 2014 Opinion

The statement of net assets available for benefits as of December 31, 2014, and the related notes to the financial statements were audited by other auditors, whose report dated June 23, 2015 expressed an unmodified opinion.

National Penn Bancshares, Inc. Capital Accumulation Plan

Notes to Financial Statements

1. Description of the Plan

The National Penn Bancshares, Inc. Capital Accumulation Plan (the “Plan”) is a defined contribution plan covering substantially all employees of National Penn Bancshares, Inc. and its direct and indirect subsidiaries (collectively, the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Company is the Plan Administrator, and Prudential Retirement Services is the Directed Record-Keeper of the Plan. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Eligibility

All full- and part-time employees of the Company are eligible for participation in the Plan on the first day of the month following 30 days of employment. All newly-eligible employees are automatically enrolled at a contribution rate of 3% of base compensation, subject to “opt-out” procedures.

Contributions

Participants may contribute up to 100% of eligible pre-tax compensation, as defined by the Plan and subject to applicable limits under the Internal Revenue Code. The Plan also includes an option to make after-tax (“Roth”) contributions which generally allow tax free distributions at retirement. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also roll-over amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes a matching cash contribution to the Plan equal to 50% of each participant's contribution up to a maximum of 7% of eligible pretax compensation for the Plan year. The Plan also permits a discretionary profit sharing contribution to be allocated to employees based upon an award schedule, which is approved annually by the Compensation Committee of the Board of Directors and is based upon the Company’s achievement of certain financial targets.

Participants direct all contributions, including Company matching contributions and discretionary profit sharing contributions, into various investment options offered by the Plan. The Plan currently offers twelve mutual funds, two pooled separate accounts, a guaranteed income fund, a self-directed brokerage account and Company common stock as investment options for participants. Under the self-directed brokerage option, participants may direct investments from holdings already in the plan to any listed stock or mutual fund.

Participant Accounts and Vesting

Each participant’s account is credited with their contributions and (a) the Company’s contributions; (b) net earnings from his or her respective investment elections; and (c) an allocation of administrative expenses, if applicable.

Upon entry into the Plan, participants are 100% vested in their contributions and net earnings from their respective investment elections. Vesting of Company contributions is based on years of service. Participants are vested at a rate of 25% for each of the first two years of service and 50% for the third year of service, after which participants are 100% vested. Upon death, disability or retirement, as defined by the Plan, all contributions and net earnings from participant investment elections vest 100%.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Payment of Benefits

If a participant's employment with the Company is terminated for any reason other than death, disability or retirement and his or her account balance does not exceed \$5,000, the Plan will automatically distribute a lump-sum payment to the participant. If the account balance is greater than \$5,000 or the termination is a result of the preceding circumstances, the participant has the option of receiving a lump-sum payment or maintaining the account balance with the Plan for an annual fee.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. The term for repayment of any loan is five years unless the loan qualifies as a home loan. A home loan is used for a participant's principal residence and the maximum term is fifteen years. Loans to participants are secured by the balance in their respective account. Interest rates are fixed at the time of borrowing at the current prime rate plus 2%, and interest rates for participant loans ranged from 5.25% to 10.25% at December 31, 2015. Principal and interest payments are paid ratably through biweekly payroll deductions and are added to the participant's account balance.

Forfeited Accounts

Forfeiture of terminated participants' non-vested accounts are used to reduce administrative expenses of the Plan, and then used to reduce Company contributions. For the periods ending December 31, 2015 and 2014, forfeited non-vested amounts totaled \$187,804 and \$114,400, respectively. The forfeited non-vested accounts were used to pay \$23,255 of administrative expenses during 2015.

Plan Expenses

Administrative expenses of the Plan are paid by the Company and/or unallocated Plan forfeitures. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Accounting Policies

A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared using the accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the portion of investments participants have allocated to fully benefit-responsive investment contracts, which are measured at the contract value. Refer to Note 4 – Investments in Insurance Contracts for additional discussion. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion on fair value measurements.

The purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Under certain circumstances, delinquent loans may be treated as distributions from the Plan by netting the loan receivable to the balance of the participant's account.

Payment of Benefits

Distributions are recorded when paid.

3. Investments and Fair Value Measurements

The following table presents the fair value of investments representing 5% or more of the Plan's net assets at December 31, 2015 and 2014:

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

For the year ended December 31, 2015, the Plan's investments (including realized and unrealized gains and losses) depreciated in value as follows:

<i>Year Ended December 31,</i>	2015
Mutual funds	\$(2,812,898)
National Penn Bancshares, Inc. ("NPBC") common stock	2,115,963
Pooled separate accounts	129,534
Self-directed brokerage	(57,646)
Net Depreciation in Fair Value of Investments	\$ (625,047)

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Accounting guidelines establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement:

Level 1 – Unadjusted quoted prices in active markets (i.e. generally traded on exchanges) that are accessible at the measurement date for identical unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not active or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the Plan's valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in methodologies used on transfers between levels during the years ended December 31, 2015 and 2014.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of alternative methodologies or assumptions to determine the fair value of certain financial instruments could result in a change to the reported fair value.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Mutual Funds

The shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Because the inputs to these assets are unadjusted quoted prices in an active market, the measurements are classified as Level 1 investments.

Guaranteed Income Fund

The Guaranteed Income Fund ("GIF") is a fully benefit-responsive investment fund and is classified as a Level 2 investment. The GIF is valued based upon the participant contributions made in the fund, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Pooled Separate Accounts

Pooled separate accounts ("PSAs") are comprised of non-benefit-responsive investment contracts and are classified as Level 2 investments. Investments in pooled separate accounts are valued on a per unit market value basis as determined by the issuer, which reflects the fair value of the underlying investments comprising the separate pooled funds.

Common Stocks

NPBC common stock and common stocks held in participant-directed brokerage accounts are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year and are classified as Level 1 investments.

Self-directed Brokerage

The participant directed brokerage account consists of shares of registered investment companies comprised of equity and fixed income funds, and is valued at the net asset value of shares held by the Plan at year-end.

4. Investment in Insurance Contracts

The GIF is a group annuity insurance product issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford, CT and is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of PRIAC and not on the value of the securities within the insurer's general account. The credit rating of the issuer at December 31, 2015 was A1 as reported by Moody's Investors Service. Deposits made to the GIF are deposited in PRIAC's general account. Payment obligations under the GIF represent an insurance claim supported by all general account assets. The GIF does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Expenses related to the GIF are calculated by PRIAC and incorporated in the GIF crediting rate. Past interest rates are not indicative of future interest rates.

Contract Operation

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable time frames. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is effected directly between the Plan (or the Plan's trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. There are no reserves against Contract Value for credit risk of the contract issuer or otherwise. Given these provisions, the Plan considers this contract to be benefit responsive.

Contract/Fair Value

December 31,	
2015	2014
<hr/>	
\$19,213,593	\$ 18,320,309
<hr/>	

The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon a discontinuance. This annuity contract, and therefore the liability of the insurer, is not backed by specific securities of its general account, and therefore the market value of the securities in the insurer's general account does not represent the fair value. The Plan owns a promise to receive interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional Guaranteed Investment Contract ("GIC"), and therefore there are no known cash flows that could be discounted. As a result, the fair value amount shown materially approximates the Contract Value.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Interest Crediting Rates

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rate resets are reviewed on a semi-annual basis.

When establishing interest crediting rates for this product, the issuer considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer’s general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

Average Yield Information

	2015	2014
Average yield earned by the Plan	2.00 %	2.15 %
Average yield credited to participants	2.00 %	2.15 %

The average yield earned by the Plan is calculated by dividing the earnings credited to the Plan on the last day of the Plan year by the Fair Value and then annualizing the result. The average yield credited to participants shown is calculated by dividing the earnings credited to the participants on the last day of the Plan year by the Fair Value and then annualizing the result. As a result of current GIF product construction, no adjustment will be required to mediate between the average earnings credited to the Plan and the average earnings credited to the participants.

Events

Only an event causing liquidity constraints at PRIAC could limit the ability of the Plan to transact at Contract Value paid within 90 days or in rare circumstances, Contract Value paid over time. There are not any events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

As previously discussed, the Plan reports investment contracts at the Contract Value. Refer to Note 2 and 3 for additional details.

5. Related Party Transactions

Investment choices under the Plan at December 31, 2015 include NPBC common stock and the Institutional Advisors Large Cap mutual fund, for which a subsidiary of the Plan sponsor serves as investment advisor. As investment manager of the PSAs and the GIF, PRIAC is a party-in-interest in regards to the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes to Financial Statements

7. Income Tax Status

On June 20, 2002, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan was amended on January 1, 2008 and has not received a determination letter specific to the Plan itself; however the Plan administrator believes that the Plan is designed and is being operated in accordance with the prototype document. Therefore, no provision for income taxes or reserves for uncertain tax positions have been recorded in the Plan's financial statements. In February 2010, the Plan was amended to comply with the Economic Growth and Tax Relief and Reconciliation Act of 2001 ("EGTRRA"). The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Participants direct all contributions of the plan into various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2015 and 2014, 12% and 10%, respectively, of the Plan's assets were invested in the common stock of National Penn Bancshares, Inc. (quoted market price of \$12.33 and \$10.53 per share, respectively).

9. Subsequent Events

Effective as of April 1, 2016, the Company, which maintained the Plan for the benefit of its employees, was acquired by BB&T Corporation, and BB&T Corporation, as successor in interest to the Company pursuant to such acquisition, became the sponsor of the Plan. The participants in the Plan became participants in the BB&T Savings Plan on April 1, 2016. Participant salary deferrals into the National Penn Plan ceased on March 31, 2016.

Effective as of the close of business on May 31, 2016, the Plan, together with the assets thereof, merged into the BB&T Savings Plan. This merger was not deemed a termination of the Plan.

The Plan evaluated subsequent events for recognition or disclosure through October 17, 2016, the date the financial statements were available to be issued.

Independent Auditor's Report

To the Plan Administrator
National Penn Bancshares, Inc. Capital Accumulation Plan
Allentown, Pennsylvania

We have audited the accompanying financial statements of the National Penn Bancshares, Inc. Capital Accumulation Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and the changes in net assets available for benefits for the year ended December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the 2015 financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter - 2014 Opinion

The statement of net assets available for benefits as of December 31, 2014, and the related notes to the financial statements were audited by other auditors, whose report dated June 23, 2015 expressed an unmodified opinion.

National Penn Bancshares, Inc. Capital Accumulation Plan

Notes to Financial Statements

1. Description of the Plan

The National Penn Bancshares, Inc. Capital Accumulation Plan (the “Plan”) is a defined contribution plan covering substantially all employees of National Penn Bancshares, Inc. and its direct and indirect subsidiaries (collectively, the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Company is the Plan Administrator, and Prudential Retirement Services is the Directed Record-Keeper of the Plan. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Eligibility

All full- and part-time employees of the Company are eligible for participation in the Plan on the first day of the month following 30 days of employment. All newly-eligible employees are automatically enrolled at a contribution rate of 3% of base compensation, subject to “opt-out” procedures.

Contributions

Participants may contribute up to 100% of eligible pre-tax compensation, as defined by the Plan and subject to applicable limits under the Internal Revenue Code. The Plan also includes an option to make after-tax (“Roth”) contributions which generally allow tax free distributions at retirement. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also roll-over amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes a matching cash contribution to the Plan equal to 50% of each participant's contribution up to a maximum of 7% of eligible pretax compensation for the Plan year. The Plan also permits a discretionary profit sharing contribution to be allocated to employees based upon an award schedule, which is approved annually by the Compensation Committee of the Board of Directors and is based upon the Company’s achievement of certain financial targets.

Participants direct all contributions, including Company matching contributions and discretionary profit sharing contributions, into various investment options offered by the Plan. The Plan currently offers twelve mutual funds, two pooled separate accounts, a guaranteed income fund, a self-directed brokerage account and Company common stock as investment options for participants. Under the self-directed brokerage option, participants may direct investments from holdings already in the plan to any listed stock or mutual fund.

Participant Accounts and Vesting

Each participant’s account is credited with their contributions and (a) the Company’s contributions; (b) net earnings from his or her respective investment elections; and (c) an allocation of administrative expenses, if applicable.

Upon entry into the Plan, participants are 100% vested in their contributions and net earnings from their respective investment elections. Vesting of Company contributions is based on years of service. Participants are vested at a rate of 25% for each of the first two years of service and 50% for the third year of service, after which participants are 100% vested. Upon death, disability or retirement, as defined by the Plan, all contributions and net earnings from participant investment elections vest 100%.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Payment of Benefits

If a participant's employment with the Company is terminated for any reason other than death, disability or retirement and his or her account balance does not exceed \$5,000, the Plan will automatically distribute a lump-sum payment to the participant. If the account balance is greater than \$5,000 or the termination is a result of the preceding circumstances, the participant has the option of receiving a lump-sum payment or maintaining the account balance with the Plan for an annual fee.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. The term for repayment of any loan is five years unless the loan qualifies as a home loan. A home loan is used for a participant's principal residence and the maximum term is fifteen years. Loans to participants are secured by the balance in their respective account. Interest rates are fixed at the time of borrowing at the current prime rate plus 2%, and interest rates for participant loans ranged from 5.25% to 10.25% at December 31, 2015. Principal and interest payments are paid ratably through biweekly payroll deductions and are added to the participant's account balance.

Forfeited Accounts

Forfeiture of terminated participants' non-vested accounts are used to reduce administrative expenses of the Plan, and then used to reduce Company contributions. For the periods ending December 31, 2015 and 2014, forfeited non-vested amounts totaled \$187,804 and \$114,400, respectively. The forfeited non-vested accounts were used to pay \$23,255 of administrative expenses during 2015.

Plan Expenses

Administrative expenses of the Plan are paid by the Company and/or unallocated Plan forfeitures. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Accounting Policies

A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared using the accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the portion of investments participants have allocated to fully benefit-responsive investment contracts, which are measured at the contract value. Refer to Note 4 – Investments in Insurance Contracts for additional discussion. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion on fair value measurements.

The purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Under certain circumstances, delinquent loans may be treated as distributions from the Plan by netting the loan receivable to the balance of the participant's account.

Payment of Benefits

Distributions are recorded when paid.

3. Investments and Fair Value Measurements

The following table presents the fair value of investments representing 5% or more of the Plan's net assets at December 31, 2015 and 2014:

National Penn Bancshares, Inc. Capital Accumulation Plan

Notes to Financial Statements

For the year ended December 31, 2015, the Plan's investments (including realized and unrealized gains and losses) depreciated in value as follows:

<i>Year Ended December 31,</i>	2015
Mutual funds	\$(2,812,898)
National Penn Bancshares, Inc. ("NPBC") common stock	2,115,963
Pooled separate accounts	129,534
Self-directed brokerage	(57,646)
Net Depreciation in Fair Value of Investments	\$ (625,047)

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Accounting guidelines establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement:

Level 1 – Unadjusted quoted prices in active markets (i.e. generally traded on exchanges) that are accessible at the measurement date for identical unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not active or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the Plan's valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in methodologies used on transfers between levels during the years ended December 31, 2015 and 2014.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of alternative methodologies or assumptions to determine the fair value of certain financial instruments could result in a change to the reported fair value.

National Penn Bancshares, Inc.

Capital Accumulation Plan

Notes to Financial Statements

Mutual Funds

The shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Because the inputs to these assets are unadjusted quoted prices in an active market, the measurements are classified as Level 1 investments.

Guaranteed Income Fund

The Guaranteed Income Fund ("GIF") is a fully benefit-responsive investment fund and is classified as a Level 2 investment. The GIF is valued based upon the participant contributions made in the fund, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Pooled Separate Accounts

Pooled separate accounts ("PSAs") are comprised of non-benefit-responsive investment contracts and are classified as Level 2 investments. Investments in pooled separate accounts are valued on a per unit market value basis as determined by the issuer, which reflects the fair value of the underlying investments comprising the separate pooled funds.

Common Stocks

NPBC common stock and common stocks held in participant-directed brokerage accounts are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year and are classified as Level 1 investments.

Self-directed Brokerage

The participant directed brokerage account consists of shares of registered investment companies comprised of equity and fixed income funds, and is valued at the net asset value of shares held by the Plan at year-end.

4. Investment in Insurance Contracts

The GIF is a group annuity insurance product issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford, CT and is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of PRIAC and not on the value of the securities within the insurer's general account. The credit rating of the issuer at December 31, 2015 was A1 as reported by Moody's Investors Service. Deposits made to the GIF are deposited in PRIAC's general account. Payment obligations under the GIF represent an insurance claim supported by all general account assets. The GIF does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Expenses related to the GIF are calculated by PRIAC and incorporated in the GIF crediting rate. Past interest rates are not indicative of future interest rates.

Contract Operation

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable time frames. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is effected directly between the Plan (or the Plan's trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. There are no reserves against Contract Value for credit risk of the contract issuer or otherwise. Given these provisions, the Plan considers this contract to be benefit responsive.

Contract/Fair Value

December 31,	
2015	2014
\$19,213,593	\$ 18,320,309

The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon a discontinuance. This annuity contract, and therefore the liability of the insurer, is not backed by specific securities of its general account, and therefore the market value of the securities in the insurer's general account does not represent the fair value. The Plan owns a promise to receive interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional Guaranteed Investment Contract ("GIC"), and therefore there are no known cash flows that could be discounted. As a result, the fair value amount shown materially approximates the Contract Value.

Interest Crediting Rates

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rate resets are reviewed on a semi-annual basis.

When establishing interest crediting rates for this product, the issuer considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer’s general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

Average Yield Information

	2015	2014
Average yield earned by the Plan	2.00 %	2.15 %
Average yield credited to participants	2.00 %	2.15 %

The average yield earned by the Plan is calculated by dividing the earnings credited to the Plan on the last day of the Plan year by the Fair Value and then annualizing the result. The average yield credited to participants shown is calculated by dividing the earnings credited to the participants on the last day of the Plan year by the Fair Value and then annualizing the result. As a result of current GIF product construction, no adjustment will be required to mediate between the average earnings credited to the Plan and the average earnings credited to the participants.

Events

Only an event causing liquidity constraints at PRIAC could limit the ability of the Plan to transact at Contract Value paid within 90 days or in rare circumstances, Contract Value paid over time. There are not any events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

As previously discussed, the Plan reports investment contracts at the Contract Value. Refer to Note 2 and 3 for additional details.

5. Related Party Transactions

Investment choices under the Plan at December 31, 2015 include NPBC common stock and the Institutional Advisors Large Cap mutual fund, for which a subsidiary of the Plan sponsor serves as investment advisor. As investment manager of the PSAs and the GIF, PRIAC is a party-in-interest in regards to the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Income Tax Status

On June 20, 2002, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan was amended on January 1, 2008 and has not received a determination letter specific to the Plan itself; however the Plan administrator believes that the Plan is designed and is being operated in accordance with the prototype document. Therefore, no provision for income taxes or reserves for uncertain tax positions have been recorded in the Plan's financial statements. In February 2010, the Plan was amended to comply with the Economic Growth and Tax Relief and Reconciliation Act of 2001 ("EGTRRA"). The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Participants direct all contributions of the plan into various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2015 and 2014, 12% and 10%, respectively, of the Plan's assets were invested in the common stock of National Penn Bancshares, Inc. (quoted market price of \$12.33 and \$10.53 per share, respectively).

9. Subsequent Events

Effective as of April 1, 2016, the Company, which maintained the Plan for the benefit of its employees, was acquired by BB&T Corporation, and BB&T Corporation, as successor in interest to the Company pursuant to such acquisition, became the sponsor of the Plan. The participants in the Plan became participants in the BB&T Savings Plan on April 1, 2016. Participant salary deferrals into the National Penn Plan ceased on March 31, 2016.

Effective as of the close of business on May 31, 2016, the Plan, together with the assets thereof, merged into the BB&T Savings Plan. This merger was not deemed a termination of the Plan.

The Plan evaluated subsequent events for recognition or disclosure through October 17, 2016, the date the financial statements were available to be issued.
