Independent Auditor's Report

To the Administrator of The Interpublic Group of Companies, Inc. Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Interpublic Group of Companies, Inc. Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and December 31, 2014 and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2015 and December 31, 2014 and for the year ended December 31, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Interpublic Group of Companies, Inc. Savings Plan

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of Plan

General

The following description of The Interpublic Group of Companies, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established to encourage eligible employees, as defined in the Plan document, of The Interpublic Group of Companies, Inc. (the "Company") to participate in a regular and long-term savings program. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation

In general, all United States of America ("U.S.") based employees of the Company are eligible to participate in the Plan on the first day of the month following one month of service. A newly eligible employee enters the Plan by authorizing contributions and investing those contributions in a variety of investment options including stock and bond funds, age-based funds and self-directed funds. Company stock is not an investment option but is held by some participants that transferred into the Plan during an acquisition and had acquired the stock prior to transferring into the Plan. Participants may transfer all or a portion of their existing account balance or re-direct their future contributions to any of the investment options at any given time.

Effective January 1, 2015, employees of the Genuine Interactive, Inc., a wholly owned subsidiary of the Company, became eligible to participate in the Plan. On April 30, 2015 assets of the Genuine Interactive, Inc. 401(k) Plan totaling \$3, 431,524 were transferred into the Plan.

Effective February 1, 2015, employees of the Optaros, Inc., a wholly owned subsidiary of the Company, became eligible to participate in the Plan. On June 1, 2015 assets of the Optaros, Inc. 401(k) Plan totaling \$2,792,616 were transferred into the Plan.

Effective January 1, 2015, employees of the Profero LLC, a wholly owned subsidiary of the Company, became eligible to participate in the Plan. On July 1, 2015 assets of the Profero LLC 401(k) Profit Sharing Plan and Trust totaling \$941,351 were transferred into the Plan.

Administration

The Plan is administered by a committee appointed by the Company's Board of Directors. The recordkeeper is Great-West Financial RPS, LLC (the "Recordkeeper") and the trustee is JP Morgan Chase Bank, N.A (the "Trustee").

Contributions

Participants may contribute to the Plan, through payroll deductions, up to 25% of their eligible wages, as defined in the Plan document. Contributions may be on a pre-tax or after-tax basis. The Internal Revenue Code ("IRC") limits the maximum amount of a participant's contributions on a pre-tax basis to \$18,000 in 2015. Contributions may be subject to certain other limitations. Participants who are at least age 50 by the last day of the calendar year, may be eligible to make catch-up contributions within the IRC limit of \$6,000 in 2015.

Participants with less than 10 years of service receive a Company matching contribution of 50% of the first 6% of their contributions. Participants with 10 or more years of service receive a Company matching contribution of 75% of the first 6% of their contributions. An additional discretionary match was contributed for 2015 based on the Company's domestic business performance. The amount of the 2015 performance based match totaled \$5,008,353 or 8.00% of each matched dollar contributed to the Plan by the participants.

Participants may make rollover contributions into the Plan representing distributions from other qualified plans. Rollovers from qualified plans were \$12,708,064 for the year ended December 31, 2015.

The Interpublic Group of Companies, Inc. Savings Plan

Notes to Financial Statements

December 31, 2015 and 2014

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

On termination of service including death, disability or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or elect to defer payment to a later date. Participants that elected distributions prior to January 1, 2002 had the option to receive either a lump-sum or annual installments.

Vesting

Participants are fully vested at all times in their own contributions and related accumulated investment earnings thereon. Participants become 100% vested in their share of Company contributions and related accumulated investment income after three years of service. Participants who retire at a minimum age of 65, become disabled, die, or cease to be employed as a result of a spin-off, sale, or merger may become vested before completing the requisite three years of service.

Forfeitures

Forfeitures of the non-vested portion of the participants' share of the Company's contributions and related accumulated investment income resulting from termination of service prior to vesting totaled \$3,804,506 and \$3,613,523 for the years ended December 31, 2015 and 2014, respectively. The Plan uses forfeitures on a monthly basis to offset Company contributions. Company contributions reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015 is net of forfeitures used totaling \$3,822,858. The ending forfeiture balance was \$803,926 and \$705,161 as of December 31, 2015 and 2014, respectively.

Notes Receivable from Participants

Participants may borrow up to one-half of the value of their vested account balance for either a home loan or a general loan. The principal balance must not exceed \$50,000 and must be for a minimum of \$1,000. General loans must be repaid within a five-year period; home loans must be repaid within a ten-year period. Interest is charged at rates as outlined by the Plan, which is prime plus 1%. Principal and interest may be paid ratably through monthly payroll deductions. Repayment of the entire balance is permitted at any time. Terms and maturities of participant loans issued by pre-merger plans may differ. Participants who terminate employment will be required to repay the loan amount, plus accrued interest, to the Plan within 90 days. Participants who default on loans will be taxed on the amount of the outstanding loan balance. Interest rates on outstanding loans at December 31, 2015 and 2014 ranged from 4.25% to 9.25%.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for insurance contracts and fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-

The Interpublic Group of Companies, Inc. Savings Plan

Notes to Financial Statements

December 31, 2015 and 2014

responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities, if any, at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for insurance contracts and fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the accrual basis. Net depreciation in the fair value of investments consists of realized gains and losses and the change in unrealized appreciation and depreciation in investments for the year.

Administrative Expenses

Plan participants pay investment management and trustee fees and may share certain other administrative costs of the Plan with the Company. Substantially all administrative and trustee fees are reflected in the calculation of each investment's net asset value ("NAV"). Additional expenses are paid and recorded by the Company and include salaries and overhead related to Plan Administration.

Benefit Payments

Benefits are recorded when paid.

Excess Contribution Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed \$1,132,617 of the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Contributions Receivable

Company and participant contributions receivable represent amounts due to the Plan by the Company, as a result of timing.

Notes Receivable from Participants

Notes receivable from participants are measured at unpaid principle balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-12, which permits a reporting entity to measure, present and disclose fully benefit-responsive investment contracts only at contract value. ASU 2015-12 also eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. ASU 2015-12 also removes the requirement to disaggregate investments of employee benefit plans by nature, characteristics and risks and requires that these investments be grouped only by general type. This update is effective for the interim and fiscal periods beginning after December 15, 2015 with early adoption permitted. The Plan has elected to early adopt ASU 2015-12 for the year ended December 31, 2015. The adoption of this

standard did not materially impact the Plan's statements of net assets available for benefits or statement of changes in net assets available for benefits. The adoption of the ASU has been implemented retroactively and the amounts for the year ended December 31, 2014 have been reclassified to conform with current year presentation. See Note 4 for additional information.

In May 2015, the FASB issued ASU 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share practical expedient. This update is effective for interim and fiscal periods beginning after December 15, 2016 with early adoption permitted. The Plan has elected to early adopt ASU 2015-7 for the year ended December 31, 2015. The adoption of this standard did not materially impact the Plan's statements of net assets available for benefits or statement of changes in net assets available for benefits.

3. Fair Value Measurements

Authoritative guidance for fair value measurements establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan primarily applies the market approach for recurring fair value measurements. There are three levels of inputs that may be used to measure fair value.

- | | |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. |
| Level 2 | Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. |
| Level 3 | Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. |

The following is a description of the Plan's valuation methodologies for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014. The methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Cash and cash equivalents as highly liquid investments with original maturities of 90 days or less at the date of purchase and these assets are classified within Level 1 of the fair value hierarchy.

Self-directed brokerage accounts primarily consist of interest-bearing cash, common stocks and registered investment companies that are valued daily based upon readily determined market prices and are classified within Level 1 of the fair value hierarchy.

Common stocks, preferred stocks and American depository receipts are valued daily based upon the closing price of the active market on which the individual securities are traded and are classified within Level 1 of the fair value hierarchy.

Registered investment companies are valued daily based on quoted market prices in active markets and are classified within level 1 of the fair value hierarchy.

Notes to Financial Statements

December 31, 2015 and 2014

Insurance contracts and synthetic investment contracts (“SIC’s”) are stated at contract value. As of December 31, 2015 and 2014, individual underlying assets of the SICs consist of Common/collective trust funds (“CCT’s”) which are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, then divided by the number of shares outstanding.

The following tables set forth by level within the fair value hierarchy a summary of the Plan’s investments measured at fair value at December 31, 2015 and 2014.

4. Fully Benefit-Responsive Investment Contracts

The Plan holds a portfolio of investment contracts that comprises a traditional investment contract and portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	As of December 31,	
	2015	2014
Synthetic investment contracts	\$ 190,191,315	\$ 199,881,701
Insurance contracts	-	4,194
Total	<u>\$ 190,191,315</u>	<u>\$ 199,885,895</u>

The Stable Value Fund holds investments in synthetic investment contracts ("SIC"). The underlying assets of these SICs consist of investments stated at contract value. A SIC is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Plan, of high-quality, intermediate term fixed income securities. The Plan purchases a wrapper contract from a financial services institution with the intent of maintaining a stable contract value. A SIC provides for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus the amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The difference between the fair value of the underlying assets and the contract value of the SICs is the adjustment to contract value. The contract value of the SIC represents accumulated contributions made plus earnings, less Plan withdrawals and administrative expenses. The fair value of the wrapper is the difference between the present value of the replacement cost and the present value of the actual cost.

The wrapper contracts can be terminated at a value other than contract value only under a limited number of specific circumstances including, termination of the Plan or loss of the Plan's qualified status, material misrepresentations by the Plan sponsor or investment manager or failure by these same parties to meet material obligations under the contract, or similar type events.

The wrapper contracts permit all participant initiated transactions as allowed by the Plan to occur at contract value. There are no known events such as bankruptcy, layoffs, mergers, divestitures, corporate actions or significant Plan changes, which are probable of occurring which will limit the ability of the Stable Value Fund to transact at contract value with the issuers and also limit the ability of the fund to transact at contract value with the participants of the Stable Value Fund.

There is no guarantee as to the future financial condition of the wrap issuer. The wrap issuer's ability to meet its contractual obligations under the respective wrap contracts may be affected by future economic and regulatory developments in the insurance industries.

Notes to Financial Statements

December 31, 2015 and 2014

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market values of investments decline for a number of reasons including changes in prevailing market and interest rates, and increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Financial instruments that potentially subject the Plan to significant concentrations of credit risk consist principally of SICs. The Plan, through its investment in a SIC has credit exposure with the financial institution that is the holder of the wrap contract. The contract holders are rated AA- at December 31, 2015 and 2014, and the Plan has not experienced any material credit losses on its investments.

6. Tax Status

The Internal Revenue Service (the "IRS") determined and informed the Company, by a letter dated June 19, 2013, that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since the receipt of the determination letter. The Company identified certain operational errors related to forfeited amounts in prior years. Management calculated amounts due to participants' accounts totaled \$2,645,676, which includes lost earnings of \$485,627 for the year ended December 31, 2014. A contribution was made to the Plan on January 2, 2015, covering all errors identified as of December 31, 2014. The Company and tax counsel believe that the forfeiture correction is appropriate and that the Plan is currently being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the U.S. require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012. In March 2013, the Company was informed by the IRS that the Plan is undergoing examination and that as part of an audit of the Company's qualified plans, they will perform an audit of the Plan for the year ended December 31, 2011. The audit was completed on November 12, 2015. The audit findings did not have a material effect on the Plan.

7. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all of the investments, notes receivable from participants and investment income information in the accompanying financial statements and related notes excluding the fair value leveling in Note 3 as of December 31, 2015 and 2014 and for the year ended December 31, 2015, as well as the Schedule of Assets (Held at End of Year) as of December 31, 2015, was derived from information certified as complete and accurate by the Trustee and was not subject to any audit procedures by our independent auditors, except for comparing such information with the related information provided by the Trustee.
