1. DESCRIPTION OF THE PLAN:

The following description of the NewPage Corporation Retirement Savings Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Verso Corporation (the "Sponsor") which purchased the previous sponsor of the Plan, NewPage Corporation during 2015. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) savings plan covering all eligible employees of the Sponsor. Employees are eligible to enter the Plan immediately.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants are permitted to defer up to 50% of their eligible compensation on a before-tax or after-tax basis. Participants may also contribute amounts representing distributions from other eligible qualified plans. For those participants who have attained age 50 or older by the end of the calendar year, the plan permits catch-up contributions subject to limitations imposed by law. The Internal Revenue Code establishes a limit on the percent of compensation deferred by participants. The Sponsor determines that the salary deferral percentage, the employer matching percentage and the total defined contribution percentage comply with several tests prescribed by law. If the tests are not met, then the excess participant contributions are refunded to those participants.

The Sponsor makes two types of contributions to non-bargaining participants of the Plan, matching contributions and a fixed contribution. The Sponsor's matching contributions are an amount equal to 50% of each participant's contributions up to 8% of eligible compensation for a maximum match of 4%. The Sponsor will make a fixed contribution of 3% of eligible compensation on behalf of each participant who is not represented by a collective bargaining group and is employed on the last day of the plan year.

Participants represented by a participating union group may also be eligible for matching contributions and fixed contributions. The formula for determining the match and fixed contribution depend on the participant's respective collective bargaining agreement and their status as either grandfathered or non-grandfathered in the NewPage Retirement Plan for Bargained Hourly Employees. Participants represented by a participating union group that were aged 55 or over, or had a total of 75 years of age and service as of March 31, 2013 are considered grandfathered. Participants represented by a participating union group who did not meet these criteria are considered non-grandfathered. Additionally, those that met the criteria were given a one-time opportunity to give up their grandfathered status and be treated as non-grandfathered going forward. Grandfathered participants may not be eligible for matching contributions, or they may be eligible for matching contribution formulas of 3% or 4%, depending on their collective bargaining agreement. In addition, grandfathered participants receive a fixed contribution equal to 3% of eligible compensation beginning twelve months after the final pension dollar multiplier increase goes into effect, which varies depending on their collective bargaining agreement. Non-grandfathered participants receive matching contributions equal to 100% of each participant's contributions up to 2% of eligible compensation and 50% of each participant's contributions between 2% and 6% of eligible compensation. In addition, non-grandfathered participants are eligible to receive a fixed contribution ranging between 2.5% to 6.5% of eligible compensation depending on their age and vesting service.

The Sponsor, at its discretion, may make an additional profit sharing contribution ranging from zero to 5% of eligible compensation. Only non-union participants who are actively employed on the last day of the plan year are eligible for profit-sharing contributions. The Sponsor made no such contributions during 2015 or 2014.

Participants direct the investment of their contributions and Sponsor contributions into various investment options offered by the Plan and may change their investment options at any time.

Participant accounts

Each participant's account is credited with the participant's contributions and Sponsor matching contributions, as well as allocations of the Sponsor's fixed contribution and profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their accounts up to a maximum of 50% of their vested account balance, but not to exceed \$50,000. Participants are permitted to have no more than two loans outstanding at a time. Participants with two or more loans outstanding originating in the predecessor plans of MeadWestvaco prior to May 1, 2005 and the Stora Enso North America ("SENA") 401(k) plans prior to October 1, 2008, may not originate new loans until the prior loans are repaid so that no more than a total of two loans are outstanding at any time. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participants' account and bear interest at prime plus 1%, which is commensurate with local prevailing rates and is determined by the Plan administrator at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon termination of employment, participants have the option to leave their balance in their account (if the balance is greater than \$1,000) or receive lump-sum or installment distributions. Participants may also make certain in-service withdrawals from the Plan such as hardship and post age 59 ½ withdrawals.

Vesting

Participants are immediately vested in all employee contributions and Sponsor matching contributions plus earnings thereon. For participants that are not represented by a participating union group, Sponsor fixed contributions and profit-sharing contributions plus earnings thereon will be vested after the completion of five years of vesting service. For participants that are represented by a participating union group, Sponsor fixed contributions plus earnings thereon will be vested after the completion of three years of vesting service.

Forfeitures

Forfeitures of non-vested sponsor contributions may be used to restore the amount of previous forfeitures for rehired participants with separations of service of less than five years, to reduce the amount of Plan Sponsor contributions, or to pay the cost of administering the Plan. For the year ended December 31, 2015, forfeited non-vested accounts in the amount of \$294,971 were used to reduce the amount of Plan Sponsor contributions. There were \$46,718 and \$41,162 of unallocated forfeitures outstanding at December 31, 2015 and 2014, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan's investment in the J.P. Morgan Stable Asset Income Fund, which is a common/collective trust, is considered fully benefit-responsive. In accordance with generally accepted accounting principles, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted withdrawal transactions under the terms of the Plan. Therefore, the Statements of Net Assets Available for Benefits presents the fair value of the investments in the common/collective trust, as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Policy Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income includes the Plan's gains and losses on investments bought and sold as well as held during the year and interest and dividends earned.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in investment income and are charged to participant accounts based on their accounts balances.

Change in accounting policy

The Financial Accounting Standards Board (FASB) recently issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the FASB Emerging Issues Task Force)." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition and disclosure in the financial statements. The Plan has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Financial Retirement Plan Services, LLC as power of attorney for J.P. Morgan Chase Bank, N.A. and Great-West Trust Company, LLC, the Plan's trustees, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, the supplemental schedule of assets (held at end of year) as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

4. FAIR VALUE MEASUREMENT:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: Valued at the daily closing price as reported by the fund. The funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of the units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the level 3 stable value collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-directed brokerage accounts: Holdings consist of registered investment companies which are valued at the published NAV of the shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Sponsor believes that the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used to determine fair value during the years ended December 31, 2015 and 2014.

The carrying amounts of financial instruments, including contributions receivable, approximated fair value as of December 31, 2015 and 2014 because of the relatively short maturity of these instruments.

The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments that were measured at fair value on a recurring basis as of December 31, 2015:

5. TAX STATUS:

The IRS has determined and informed the Company by a letter dated April 19, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

9. RELATED PARTY TRANSACTIONS:

Certain Plan investments are interests in common/collective trusts managed by J.P. Morgan Chase Bank, N.A. J.P. Morgan Chase Bank, N.A. was the trustee as defined by the Plan at December 31, 2014 and for the period from January 1, 2015 to March 31, 2015; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to J.P. Morgan Chase Bank, N.A. amounted to \$438,463 for the year ended December 31, 2015. In addition, the Plan paid \$20,128 to J.P. Morgan Securities, LLC, a unit of J/P Morgan Chase Bank, N.A., for record keeping service for the year ended December 31, 2015.

10. AMENDMENTS:

On January 7, 2015, NewPage Corporation was acquired by Verso Corporation. In order to satisfy federal antitrust concerns, mills owned by NewPage Corporation and located in Rumford, Wisconsin and Biron, Wisconsin were sold to Catalyst Paper Corporation ("Catalyst"). Upon the sale of the Rumford and Biron mills to Catalyst, all affected participants who were employed as of the date of the sale became one hundred percent vested in their account balances. Participants were given the option to keep their accounts in the Plan, roll their balances into qualified plans sponsored by Catalyst, or take a distribution in accordance with the provisions of the Plan.

11. CONTINGENCY:

The Plan sponsor is currently in the process of completing required nondiscrimination testing for the year ended December 31, 2015. The Plan Sponsor believes any corrective action resulting from the testing will not be significant to the financial statements.
