1. DESCRIPTION OF THE PLAN

The following description of the Craig Zinn Automotive Group 401(k) Retirement Plan (the "Plan") provides only general information. Reference to the Plan agreement should be made for a more complete description of the Plan's provisions.

General

Craig Zinn Automotive Group (the "Group") is a group of related companies under common ownership. The Group established the Plan effective January 1, 1994. The Plan's sponsor is Triangle Auto Center, Inc. (the "Sponsor"), one of the entities in the Group. The Plan is a defined contribution plan, which covers substantially all employees of the Group who have attained age 18 and completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Contributions to the Plan are made by the participants and the Group. Participants may elect to defer up to 100% of their annual compensation, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Each year, the Group may make discretionary matching and/or profit sharing contributions to the Plan. During 2015 and 2014, the Group made a matching contribution of approximately $153,000 and $139,000 respectively, to the Plan. The matching contribution is calculated as the first 25% of participant deferrals up to 4% of employee compensation with a maximum of $800. There were no profit sharing contributions to the Plan for the years ended December 31, 2015 and 2014. Participants may contribute on a pre-tax basis up to 20% of their compensation subject to the annual limitation deferral amount established by the IRS.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of earnings of the Group's matching contributions, if any, and the Plan's earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Investment Options

Participants are permitted to direct their investments into guaranteed interest accounts or among various investments in pooled mutual funds and pooled money market funds, which include investment options that range from conservative to aggressive. Participants are permitted to change their investment options and/or allocations at their discretion.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Vesting in the Group's contribution portion of their accounts is based on years of continuous service. Vesting in non-elective contributions and matching contribution is based on years of service in accordance with the following:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Generally, the maximum loan term is 5 years. However, if the loan is for the purchase of a principal residence, the administrator may permit a longer term of 10 years. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined periodically by the custodian. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum or direct rollover amount equal to the value of his or her account or periodic installments over a designated period. A hardship withdrawal may also be taken to satisfy an immediate and heavy financial need that cannot be satisfied from other financial resources. Hardship withdrawals may be taken for reasons as defined in the Plan agreement.

Forfeitures

If and when the Sponsor elects to make profit sharing or matching contributions, that portion of the participant's account balance that is not fully vested will be forfeited upon participant termination. Forfeitures will be used to reduce future Group contributions, if applicable. The forfeited portion is allocated to all participants eligible to share in the allocations in the same proportion that each participant's compensation (as defined) for the year bears to the compensation of all participants for such year.

Plan Expenses

Investment transaction costs are charged to the Plan and allocated among the participants based on their respective account value to total Plan assets. The Plan's sponsor absorbs certain costs incurred in the administration of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value, except fully benefit-responsive investment contracts, which are to be carried at contract value. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis, which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned and are reflected as a component of net (depreciation) appreciation in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Tax Status

The Plan adopted its latest prototype non-standardized profit sharing plan with a cash or deferral arrangement developed by Sentinel Benefits Group, Inc., effective January 31, 2006, which obtained a favorable IRS opinion letter on March 31, 2014 in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status (continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Adoption of Accounting Pronouncement

Recent Plan Accounting Updates in ASU No. 2015-12

In July 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which amends requirements for defined contribution, defined benefit, and health and welfare benefit plans. Generally, Part I of the update requires fully benefit-responsive investment contracts to be reported at contract value. Generally, Part II eliminates the requirements for plans to disclose (a) individual investments that represent 5 percent or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type. Generally, Part II also requires that investments be grouped only by type of investment. Part III provides an alternative date for measuring investments for plans with fiscal year-ends not falling on a month-end date. Parts I and II of the update are effective retrospectively for fiscal years beginning after December 15, 2015 with early application permitted. Part III of the update is effective prospectively for fiscal years beginning after December 15, 2015 with early application permitted. The Plan has elected to early adopt the update as of December 31, 2015, as permitted, and has applied the provisions retrospectively. Part III is not applicable to the Plan. The early adoption of Parts I and II are reflected in the notes to the financial statements and certain disclosures that are no longer required have been removed. There are no material effects on the net assets available for benefits or the changes in net assets available for benefits.

Recent Accounting Pronouncement

Disclosure for Investments in Certain Entities That Calculate Net Assets Value per Share

In May 2015, the FASB issued an accounting standard update which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The update is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the update retrospectively to all periods presented. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2016, which is the date the financial statements were available to be issued.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a group annuity investment contract with John Hancock Life Insurance Company ("John Hancock"), which receives the contributions and deposits them into either guaranteed interest accounts or into pooled separate investment accounts according to the participant's election. John Hancock pooled separate investment accounts are reported at fair value. John Hancock guaranteed interest accounts are reported at contract value. Contributions allocated to the guaranteed interest accounts are held in the John Hancock general account. Guaranteed interest accounts guarantee the return of principal plus interest earned over a defined 3, 5, or 10 year term – provided all contributions remain in the account until the end of the guarantee period.

The Plan's group annuity contract with John Hancock is not "fully benefit-responsive." Therefore, for financial statement purposes, this contract must be carried at fair value, excluding the guaranteed interest accounts which are represented at contract value as it is the relevant measurement attribute for that portion of the net assets available for benefits. Contract value, as reported to the Plan by John Hancock at December 31, 2015 and 2014, respectively, represents deposits made to the contract, plus earnings at guaranteed credit rates, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

4. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

Insurance company guaranteed interest accounts: Valued at contract value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Registered investment accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end.

4. FAIR VALUE MEASURMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment accounts	$ 12,198,261	$ 12,198,261	$ -	$ -

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment accounts	$ 11,404,040	$ 11,404,040	$ -	$ -

5. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan, John Hancock, has certified that the following data included in the accompanying 2015 and 2014 financial statements and supplemental schedules is complete and accurate.

	December 31, 2015	December 31, 2014
Investments:		
Registered investment accounts	$ 12,198,261	$ 11,404,040
Insurance company guaranteed interest accounts	27,186	49,907
Total investments, at fair value	12,225,447	11,453,947
Notes receivable from participants	465,415	650,978
Total	**$ 12,690,862**	**$ 12,104,925**

5. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN (CONTINUED)

	December 31, 2015	December 31, 2014
Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	$ (91,577)	$ 532,836
Interest income on notes receivables from participants	25,262	24,913
Other income	-	111
Total investment (loss) income	**$ (66,315)**	**$ 557,860**

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Group has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Group contributions, if applicable.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include units of participation in pooled separate investment accounts managed by John Hancock from which it earns management fees. John Hancock is the custodian as defined in the Plan, and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the recordkeeping and administrative services amounted to $18,434 and $17,163 for the years ended December 31, 2015 and 2014, respectively, and are included within the net (depreciation) appreciation in fair value of investments.

9. LATE REMITTANCES

During 2015, the Group did not remit participant deferrals totaling $97,004 in a timely manner as required by the Department of Labor regulations. As a result, the Group contributed the lost earnings on these late remittances through self-corrections made to the Plan during the same year.

These financial statements do not include any adjustments for any potential fines, penalties or interest related to the nonexempt transactions.
