NOTE 1 DESCRIPTION OF PLAN

The following description of the Jones & Henry Engineers, Ltd. (the Company) Retirement Plan (the Plan), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan established June 1, 2001. The plan was amended and restated throughout the years to comply with tax legislation and most recently amended effective November 1, 2015.

The Plan has been established for the benefit of the salaried employees of Jones & Henry Engineers, Ltd. and Jones & Henry Laboratories, Inc., collectively referred to as the "sponsors". The sponsors are affiliated through common ownership. Jones & Henry Engineers, Ltd. has been granted decision-making authority relative to the Plan.

Except as described below, the Plan provides that all salaried employees of the sponsors who work 1,000 or more hours per year, have one year of credited service and are at least 21 years of age are covered under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The sponsors elected to cease benefit accruals and freeze benefits under the Plan effective December 31, 2001. As a result, all participants became fully vested in benefits earned as of December 31, 2001, and no additional benefits accrue to the participants. For participants with less than five years of service, the benefit calculation will be based on an average of all compensation years. No employee may become an active participant in the Plan after December 31, 2001.

Pension Benefits

After completing five years of credited service and reaching the normal retirement age of 65, a participant is entitled to 100% of their accrued benefit, payable monthly beginning at the participant's normal retirement date. Monthly benefit payments, subject to certain limitations stated in the Plan, are calculated as the sum of: (a) 0.8% of average compensation (as defined in the Plan) not in excess of the integration level (as defined in the Plan); and (b) 1.45% of average compensation in excess of the integration level, multiplied by credited years of service (maximum 35 years). Prior to the ceasing of benefit accruals and freezing of benefits, if employees terminated before rendering five years of service, they forfeited the right to receive any portion of their accumulated Plan benefits.

The Plan provides for early retirement, late retirement, and disability benefits based upon age and credited service at date of termination. Death benefits, relating to participants who die prior to retirement, are also available. Upon termination of employment for any reason other than death, disability or retirement, and subsequent to completion of five years of credited service, a participant is entitled to their normal retirement benefit commencing at age 65.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Pension Benefits (Continued)

The normal retirement benefit is in the form of an annuity which provides for a monthly payment for life. A participant may elect, at the time of retirement, an optional form of benefit (e.g., survivorship annuity) which is the actuarial equivalent of the normal retirement benefit. Lump sum payments are also available in certain instances.

The Plan was amended for the period October 1, 2014 through December 31, 2014, to allow for participants no longer employed by the sponsors to receive a distribution in the form of a single payment prior to their normal retirement date.

Funding Policy

The sponsors contribute to the Plan an amount determined by actuarial calculation, designed to fund the Plan's normal cost requirement and unfunded accrued liabilities. Such contributions met the minimum funding requirements of ERISA for 2015 and 2014.

Although it has not expressed an intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to provisions set form in ERISA.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Change in Accounting Principle

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be retrospectively applied. The Plan has elected to early adopt Part II.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments consist of pooled separate accounts which are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses primarily consist of custodial, recordkeeping, and actuarial services provided by Principal. All other professional fees, as well as all internal costs of administering the Plan, are absorbed by the Plan's sponsors.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2016, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to present participants or their beneficiaries.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

Under the terms of an immediate participation guarantee contract, benefits for participants who retired prior to February 1, 1986, were guaranteed by Principal and provided through a retired life "floor" account. As a result of the Plan entering into a flexible pension investment contract with Principal, effective October 2, 2006, all assets, including those assets allocated to the retired life floor account, are invested in pooled separate accounts with Principal. The aforementioned guaranteed retiree benefits are provided through a benefit index which represents the amount of assets, determined periodically by Principal, which would be required to purchase annuities to cover such benefits. There was one retired participant covered under this arrangement as of December 31, 2015 and 2014.

Assets allocated to cover guaranteed retiree benefits, consisting of the benefit index amounted to $10,009 and $10,918 at December 31, 2015 and 2014, respectively. Such amounts are not included in Plan assets, as reported in the accompanying statements of net assets available for benefits, and the corresponding actuarial value of such benefits are not included in accumulated Plan benefits, as presented below.

Calculations of the actuarially determined present value of accumulated Plan benefits were made by enrolled actuaries of The Principal Financial Group of Principal Life Insurance Company. Significant assumptions underlying the January 1, 2016 and 2015 actuarial calculations include: (a) assumed rate of return on investments of 6.75%; (b) RP-2006 baseline table from SOA RP-2014 study based on experience data for private pension plans and the assumed mortality rates based upon Internal Revenue Service (IRS) published statistical data as of January 1, 2016 and 2015, respectively, (c) retirement at normal retirement age 65; and (d) no assumed salary increases (due to frozen status of plan). Had the valuations been performed as of December 31, 2015 and 2014, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. As described in Note 2, the Plan was frozen effective December 31, 2001.

The following is a summary of actuarial present value of accumulated Plan benefits, all of which are vested, as of January 1:

	2016	2015
Participants Currently Receiving Payments	$ 3,962,130	$ 3,929,059
Other Vested Participants	1,506,122	1,768,563
Actuarial Present Value of Accumulated Plan Benefits	$ 5,468,252	$ 5,697,622

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The changes in the actuarial present value of accumulated Plan benefits are summarized as follows for the periods January 1:

	2016	2015
Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	$ 5,697,622	$ 6,123,376
Increase (Decrease) During the Year Attributable to:		
Increase for Interest Due to Decrease in the Discount Period	363,721	368,935
Benefits Paid	(628,589)	(1,337,205)
Benefits Accumulated and Plan Experience	35,498	328,490
Change in Assumptions	-	214,026
Net Decrease	(229,370)	(425,754)
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 5,468,252	$ 5,697,622

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Principal Life Insurance Company, the insurance company of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2015.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2015 and 2014:

Pooled Separate Accounts: Valued at the NAV of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 5,924,115	$ -	$ 5,924,115
Total Investments at Fair Value	$ -	$ 5,924,115	$ -	$ 5,924,115

	2014			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ -	$ 6,379,704	$ -	$ 6,379,704
Total Investments at Fair Value	$ -	$ 6,379,704	$ -	$ 6,379,704

NOTE 6 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

NOTE 6 PLAN TERMINATION (CONTINUED)

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 20, 2007, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 RISKS AND UNCERTAINTIES (CONTINUED)

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed by Principal Life Insurance Company, insurance company. Principal Life Insurance Company is the fund manager as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

Plan Administrator
Jones & Henry Engineers, Ltd.
Retirement Plan
Toledo, Ohio

We have conducted a Department of Labor limited-scope audit of the financial statements of Jones & Henry Engineers, Ltd. Retirement Plan (the Plan) as of and for the year ended December 31, 2015, and have issued our report thereon dated October 17, 2016. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information prepared and certified to by Principal Life Insurance Company, the insurance company, in accordance with Department of Labor Regulation 2520.103-5, other than comparing the information with the related information included in the financial statements. Because of the significance of the information we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, as well as certain information related to the planned scope and timing of our audit. Professional standards also require we communicate to you the following information related to our audit.

Significant audit findings

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements.

Management has applied the expanded definition of readily determinable fair value under Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2015-10, *Technical Corrections and Improvements,* to the Plan's investments in pooled separate accounts.

As described in Note 2, the Plan adopted Part II of the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Accordingly, the accounting change has been retrospectively applied to prior periods presented as if the policy had always been used.

We noted no transactions entered into by the plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimates of the fair values of the investments held by the Plan are based on various valuation methodologies described in Note 5 to the financial statements. We evaluated the key factors and assumptions used to develop the fair value of the investments in determining that their fair values are reasonable in relation to the financial statements taken as a whole.

- Management's estimate of the actuarial present value of accumulated Plan benefits is determined by an independent actuarial consultant and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment between the valuation date and the date of payment. We evaluated the key factors and assumptions used to develop this estimate in determining it is reasonable in relation to the financial statements taken as a whole.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. We believe the actuarial present value of accumulated plan benefits disclosed in Note 3 represents a particularly sensitive financial statement disclosure.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Corrected misstatements

Management did not identify and we did not notify them of any financial statement misstatements detected as a result of audit procedures.

Disagreements with management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Management representations

We have requested certain representations from management that are included in the attached management representation letter dated October 17, 2016.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Other audit findings or issues

We have provided a separate letter to you dated October 17, 2016, communicating internal control related matters identified during the audit.

Other information in documents containing audited financial statements

With respect to the supplemental schedules required by the Department of Labor accompanying the financial statements, we performed certain audit procedures, as we considered necessary, to express an opinion on whether the form and content of the information included in the supplemental schedules, other than that derived from the information certified by the insurance company, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Also, as required by professional standards, we read the supplemental schedules required by the Department of Labor in order to identify material inconsistencies between the audited financial statements and the supplemental schedules. We did not identify any material inconsistencies between the supplemental schedules and the audited financial statements.

Other information is being included in documents containing the audited financial statements and the auditors' report thereon. Our responsibility for such other information does not extend beyond the financial information identified in our auditors' report. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in such documents. As required by professional standards, we read Form 5500 (the other information) in order to identify material inconsistencies between the audited financial statements and the other information. We did not identify any material inconsistencies between the audited financial statements and the other information.

Our auditors' opinion, the audited financial statements, and the notes to financial statements should only be used in their entirety. Inclusion of the audited financial statements in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.

This communication is intended solely for the information and use of the Plan administrator and management of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

This representation letter is provided in connection with your audits of the financial statements and supplemental schedules of the Jones & Henry Engineers, Ltd. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements. As permitted by Regulation 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), we have instructed you not to perform any auditing procedures with respect to information prepared and certified to by Principal Life Insurance Company, the insurance company, in accordance with DOL Regulation 2520.103-5, except for comparing the information with the related information included in the financial statements and supplemental schedules. Because of the significance of the information which you did not audit, we understand that you will not express an opinion on the financial statements and supplemental schedules as a whole.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, as of October 17, 2016, the following representations made to you during your audits.

Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated May 2, 2016, for the preparation and fair presentation of the financial statements and related notes in accordance with U.S. GAAP and for the fair presentation of the accompanying supplemental schedules in conformity with the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The notes to the financial statements include all disclosures required by laws and regulations to which the Plan is subject.

2. We acknowledge and have fulfilled our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

4. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.

5. Significant estimates have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP. Significant estimates are estimates at the financial statement date that could change materially within the next year.

6. Related party relationships and transactions, including transactions with parties-in-interest, as defined by ERISA section 3(14) and regulations thereunder, have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.

7. All significant Plan amendments adopted during the period or subsequent to the date of the financial statements, and their effects on benefits and net assets have been disclosed in the financial statements.

8. No events have occurred subsequent to the financial statement date and through the date of this letter that would require adjustment to, or disclosure in, the financial statements.

9. We have not identified or been notified of any uncorrected financial statement misstatements.

10. We are not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with U.S. GAAP, and we have not consulted a lawyer concerning litigation, claims, or assessments.

11. There are no other matters (e.g., breach of fiduciary responsibilities, nonexempt transactions, loans or leases in default, events reportable to the Pension Benefit Guaranty Corporation, or events that may jeopardize the tax status of the Plan) that legal counsel have advised us that must be disclosed.

12. There were no omissions from the participants' data provided to the Plan's actuary for the purpose of determining the actuarial present value of accumulated plan benefits and other actuarially determined amounts in the financial statements.

13. The Plan administrator agrees with the actuarial methods and assumptions used by the actuary for funding purposes and for determining the Plan's actuarial present value of accumulated plan benefitsand has no knowledge or belief that such methods or assumptions are inappropriate in the circumstances. We did not give any instructions, nor cause any to be given, to the Plan's actuary with respect to values or amounts derived, and we are not aware of any matters that have impacted the independence or objectivity of the Plan's actuary.

14. There have been no changes in—

    a. The actuarial methods or assumptions used in calculating amounts recorded or disclosed in the financial statements.

    b. Plan provisions between the actuarial valuation date and the date of this letter.

15. There are no—

    a. Non-exempt party-in-interest transactions [as defined in ERISA section 3(14) and regulations under the section] that were not disclosed in the supplemental schedules or financial statements.

    b. Investments in default or considered to be uncollectible that were not disclosed in the supplemental schedules.

    c. Reportable transactions [as defined in ERISA Section 103(b)(3)(H) and regulations under that section] that were not disclosed in the supplemental schedule.

16. Receivables recorded in the financial statements represent valid claims against debtors for transactions on or before the financial statement date and have been reduced to their estimated net realizable value.

17. The methods and significant assumptions used to estimate fair values of financial instruments are disclosed in the notes to the financial statements. The methods and significant assumptions used result in a measure of fair value appropriate for financial measurement and disclosure purposes.

18. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.

19. We have no intentions to terminate the Plan. Furthermore, no reportable events have occurred that could result in the Pension Benefit Guaranty Corporation having the authority to initiate proceedings to terminate the Plan.

20. We have adopted Part II of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* for the year ended December 31, 2015. We have applied the amendments retrospectively for all financial statements presented.

21. We have applied the expanded definition of readily determinable fair value per Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-10, *Technical Corrections and Improvements,* to the Plan's investments in pooled separate accounts because the investment transacts on a daily basis at published prices.

Information Provided

1. We have provided you with:

    a. Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements such as records, documentation, and other matters.

b. Additional information that you have requested from us for the purpose of the audit.

c. Unrestricted access to persons within the Plan from whom you determined it necessary to obtain audit evidence.

d. Plan instruments, trust agreements, insurance contracts, or investment contracts and amendments to such documents entered into during the year, including amendments to comply with applicable laws.

e. Complete minutes of the meetings of the trustees or any other parties relating to corporate governance of the Plan, or summaries of actions of recent meetings for which minutes have not yet been prepared.

f. All actuarial reports prepared for the Plan and the Plan's sponsor during the year.

2. There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.

3. All material transactions have been recorded in the accounting records and are reflected in the financial statements.

4. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.

5. We have no knowledge of any fraud or suspected fraud that affects the Plan and involves:

   a. Management;

   b. Employees who have significant roles in internal control; or

   c. Others when the fraud could have a material effect on the financial statements.

6. We have no knowledge of any allegations of fraud, or suspected fraud, affecting the Plan's financial statements communicated by employees, former employees, participants, regulators, beneficiaries, service providers, third-party administrators, or others.

7. We have no knowledge of any instances of noncompliance or suspected noncompliance with laws and regulations (including ERISA, DOL, and IRS regulations) whose effects should be considered when preparing financial statements.

8. We are not aware of any pending or threatened litigation, claims, or assessments, or unasserted claims or assessments, that are required to be accrued or disclosed in the financial statements in accordance with U.S. GAAP, and we have not consulted a lawyer concerning litigation, claims, or assessments.

9. There are no other material liabilities or gain or loss contingencies that are required to be accrued or disclosed in accordance with U.S. GAAP.

10. We have disclosed to you the identity of the Plan's related parties and all the related party relationships and transactions, including transactions with parties-in-interest, as defined by ERISA section 3(14) and regulations thereunder, of which we are aware.

11. The Plan has satisfactory title to all owned assets, and all liens, encumbrances, or security interests requiring disclosure in the financial statements have been properly disclosed.

12. The Plan has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.

13. All required filings of plan and trust documents with the appropriate agencies have been made.

14. The Plan obtained its latest determination letter on November 20, 2007, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

15. The Plan and the trust established under the Plan is qualified under the appropriate section of the Internal Revenue Code and we intend to continue them as a qualified Plan and trust. The Plan sponsors have operated the Plan and trust in a manner that did not jeopardize this tax status.

16. The Plan has complied with the fidelity bonding requirements of ERISA.

17. We have obtained appropriate fee disclosures from covered service providers and have concluded the fees are reasonable and we are in compliance with DOL regulations regarding ERISA section 408(b)(2).

18. We have apprised you of all communications, whether written or oral, with regulatory agencies concerning the operation of the Plan.

19. We acknowledge our responsibility for presenting the supplemental schedules in accordance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and we believe the supplemental schedules, including their form and content, are fairly presented in accordance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

20. We have obtained the service auditor's report from Principal Life Insurance Company. We have reviewed such report, including the complementary user controls. We have implemented the relevant user controls, and they were in operation for the year ended December 31, 2015.

21. As part of your audit, you prepared the draft financial statements, related notes, and supplemental schedules. We have designated an individual who possesses suitable skill, knowledge, and/or experience to understand and oversee your services; have made all management judgments and decisions; and have assumed all management responsibilities. We have evaluated the adequacy and results of the service. We have reviewed, approved, and accepted responsibility for those financial statements and related notes.

Plan Administrator
Jones & Henry Engineers, Ltd.
Retirement Plan
Toledo, Ohio

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Jones & Henry Engineers, Ltd. Retirement Plan (the Plan) as of and for the year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information prepared and certified to by Principal Life Insurance Company, insurance company, in accordance with DOL Regulation 2520.103-5. Because of the significance of the information we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified one deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis.

Material weakness

We consider the following deficiency in the Plan's internal control to be a material weakness.

Preparation of Financial Statements

The Plan administrator and management share the ultimate responsibility for the Plan's internal control system. While it is acceptable to outsource various accounting functions, the responsibility for internal control cannot be outsourced. The Plan engages CliftonLarsonAllen LLP (CLA) to assist in preparing its financial statements and accompanying disclosures. However, as independent auditors, CLA cannot be considered part of the Plan's internal control system. As part of its internal control over the preparation of its financial statements, including disclosures, the Plan should design and implement a comprehensive review procedure to ensure that the financial statements, including disclosures, are complete and accurate. Such review procedures should be performed by an individual possessing a thorough understanding of applicable generally accepted accounting principles and knowledge of the Plan's activities and operations. The Plan's personnel have not monitored recent accounting developments to the extent necessary to enable them to review the Plan's financial statements and related disclosures, to provide a high level of assurance that potential omissions or other errors that are less than material, but more than inconsequential, would be identified and corrected.

This communication is intended solely for the information and use of the Plan administrator and management of the Plan, and is not intended to be, and should not be, used by anyone other than these specified parties.

Assumptions Prescribed by Law	
Mortality	During Benefit Payment Period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. Before Benefit Payment Period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions Selected by Actuary	
Asset Return	6.75% for the current plan year. The Asset Return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the See Long-Term Capital Market Assumptions link.
Expected Expense	The expected expense included in Target Normal Cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at Normal Retirement Age as defined in Plan Provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.
Marriage	75% married; husbands are 3 years older than wives. This assumption is based on the results of recent experience analysis and anticipated future experience. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Variable Rate Premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods may be used.
Vested Benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post retirement death benefits for non-retired participants except as noted in the Plan Provisions.

Assumptions and Methods Elected by Actuary
Plan Accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.

Mortality

Rates: Total mortality rates as of 2007 from SOA RP-2014 study (baseline 2006 table trued up to 2007 with actual improvement rate).

Mortality Improvement: RPEC_2014 model beyond 2007 with following assumptions:

- Convergence period of 10-years.
- Long-term mortality improvement is the sex-distinct and the age-based assumption calibrated to the annual improvement averages, for the period 2010-2088 published in the Social Security Administration (SSA) Trustees report for 2014.

Long-Term Mortality Improvement Rates
(averages 2010-2088 in SSA Trustees 2014 Report)

Age Group	Male	Female
15-49	0.89%	0.91%
50-64	1.09%	1.11%
65-84	0.92%	0.83%
85+	0.59%	0.53%
65+	0.77%	0.68%
Total	0.84%	0.77%

During Benefit Payment Period

Above table, Annuitant, male and female.

Before Benefit Payment Period

Above table, Non-annuitant, male and female.

See Interim Recommendation on Mortality Assumption for additional information.

Interest Rate Used to Value Liabilities

6.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
JONES & HENRY ENGINEERS, LTD. RETIREMENT PLAN
EIN 34-1794911 Plan No. 002

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)
65	20.1676	1.0000	20.1676	1,310.8912
66	0.0000	1.0000	0.0000	0.0000
67	1.0000	1.0000	1.0000	67.0000
Total			21.1676	1,377.8912
Average				65.09

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan document signed 12/27/2012, including amendments through the amendment signed 12/04/2014.

Plan Eligibility	
Age	Attained age 21.
Service	Completion of one year of eligibility service with at least 1,000 hours.
Class	Paid on a salaried basis. There will be no new entrants to the plan after 12/31/2001.

Normal Retirement Benefit	
Age	The later of attained age 65 or five years after plan entry date.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The sum of (a) and (b), multiplied by (c): (a) .8% of average compensation not in excess of the integration level. (b) 1.45% of average compensation in excess of the integration level. (c) Accrual service (maximum 35 years). In no event will the accrued benefit be less than the top-heavy minimum benefit. Accrued benefits are frozen as of December 31, 2001.

Early Retirement Benefit	
Age	Attained age 60.
Service	Fifteen years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five that the early retirement date precedes normal retirement date.

Late Retirement Benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination Benefit	
Vesting Percentage	Subsequent to completion of five years of service, 100%, or the percentage determined under top-heavy vesting provisions if greater. Active participants on 12/31/2001 are 100% vested.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor Annuity Death Benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Average compensation	The monthly average of base pay received for the five consecutive years out of the ten latest compensation years which gives the highest average. (Maximum annual compensation = $100,000)
Top-heavy Minimum Benefit	2% of top-heavy average compensation multiplied by the number of years of top-heavy Service (maximum of 10 years).
Top-heavy average compensation	The average of base pay for the five consecutive years that give the highest average if the plan is top-heavy.
Top-heavy vesting percentage	A vesting schedule of 20% subsequent to two years of vesting service plus 20% per year thereafter, up to 100% will apply in top-heavy years.
Integration Level	The monthly average of the Social Security Taxable Wage Bases in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year before the employee attains Social Security Retirement Age.
Optional Forms of Benefit Payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 5, 10, or 15 years certain and life • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
