Notes to Financial Statements

1. Description of Plan

The following description of Western Maryland Health System 403(b) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on November 1, 1962, and was restated effective October 15, 2008 to reflect the final regulations under Internal Revenue Code (IRC) section 403(b). The Board of Directors controls and manages the operation and administration of the Plan. The Plan covers substantially all permissible employees of the Western Maryland Health System Corporation (Plan Sponsor) as defined in accordance with the universal availability standards as described in the IRC, except for certain employees covered by a collective bargaining agreement and nonresident aliens. Principal Trust Company (Principal) and Variable Annuity Life Insurance Company (VALIC) serve as custodians of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their compensation, as defined in the plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age fifty before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensations and their contributions invested in a designated balanced fund until changed by the participant. The Plan Sponsor contributes 50% of the first 6% of compensation that a participant contributes to the Plan. In order to be eligible for the match, employees are required to be classified as full or part-time employees scheduled to work more than sixteen hours a week, or work at least one thousand hours in the twelve months after hire or within the Plan year. The Plan Sponsor also contributes a discretionary match, which is calculated at Plan year end and remitted as a receivable in the next Plan year. Contributions are subject to certain limitations.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds, pooled separate accounts, and fully benefit-responsive investment contracts as options. If participants do not direct the investment of their accounts, their elective deferrals and matching contributions will be automatically invested in the applicable investment fund based upon their current age and the definition of normal retirement under the retirement plan, which is age sixty-five. Participants may redirect the funds in their respective accounts at any point throughout the year.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan Sponsor's contributions and Plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Western Maryland Health Services 403(b) Savings Plan
Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions and the Plan Sponsor's contributions plus actual earnings thereon. Vesting in the Plan Sponsor's contribution portion of their accounts plus actual earnings thereon is based on years of service.

<u>Vesting Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years but less than 3 year	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

Notes receivable from participants

Participants may borrow from their Principal fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance incurred by each participant during the prior twelve-month period or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2015, the outstanding loan balance to participants from Principal funds was \$1,011,545.

Participants may borrow from VALIC a minimum of \$1,000 up to the lesser of a maximum of \$50,000 or 50% of their vested account balance. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in the case of default. The collateral is held by the VALIC VALIC Fixed Account. At December 31, 2015, the outstanding loan balance to participants with VALIC was \$595,408.

When Plan loans are deemed in default by VALIC, the collateral is reclassified from the VALIC Fixed Account to a Plan Loan Default Fund, where it is held until the participant receives final distribution of their account. At December 31, 2015, the balance in the Plan Loan Default Fund was \$9,485.

At December 31, 2015, outstanding loans bore interest rates ranging from 3% to 8%. In general, all loans must be repaid over a five-year period. However, if the loan is for the purchase of a principal residence, the loan may be repaid over a ten year period. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, hardship or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in lump-sum, installments or various annuity payments, as provided by the Plan, or may let the balances remain in the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship distributions are available from amounts contributed on a pre-tax basis upon demonstration of financial hardship. In-service distributions are available after the participant reaches age 59½.

Forfeitures

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$533 and \$34, respectively. These accounts will be used to reduce future Plan Sponsor contributions. During 2015, forfeitures of \$294,964 were used to reduce Plan Sponsor contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodians. See Note 3 for further information with respect to fair value measurements.

Investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Plan Sponsor, as provided by the Plan document. Certain administrative functions are performed by employees of the Plan Sponsor. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

New accounting standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU removes certain disclosures and the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value ("NAV") per share practical expedient provided by Topic 820, *Fair Value Measurement*. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU should be applied retrospectively to all periods presented. Management has elected to adopt this guidance for the year ended December 31, 2015.

Western Maryland Health Services 403(b) Savings Plan

Notes to Financial Statements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is now the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively to all periods presented. Management has elected to adopt Parts I and II for the year ended December 31, 2015.

The statement of net assets available for benefits as of December 31, 2014 has been adjusted to reflect retrospective application of the new accounting guidance. There was no effect on total net assets available for benefits as previously reported.

Subsequent events

The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used to evaluate fair values of the Plan's investments at December 31, 2015 and 2014. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Western Maryland Health Services 403(b) Savings Plan
Notes to Financial Statements

Pooled separate accounts

The Plan invests in pooled separate accounts for which quoted prices are not available in active markets for identical instruments. The Plan utilizes the NAV of units, as determined by VALIC as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2015 and 2014.

Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3
Mutual funds	<u>\$ 47,553,422</u>	<u>\$ -</u>	<u>\$ -</u>
Total assets in the fair value hierarchy	<u>\$ 47,553,422</u>	<u>\$ -</u>	<u>\$ -</u>
Investments measured at NAV (a)			<u>4,979,660</u>
Investments at fair value			<u>\$ 52,533,082</u>

Assets at Fair Value as of December 31, 2014 (As Adjusted)			
	Level 1	Level 2	Level 3
Mutual funds	<u>\$ 45,619,558</u>	<u>\$ -</u>	<u>\$ -</u>
Total assets in the fair value hierarchy	<u>\$ 45,619,558</u>	<u>\$ -</u>	<u>\$ -</u>
Investments measured at NAV (a)			<u>5,597,749</u>
Investments at fair value			<u>\$ 51,217,307</u>

(a) *In accordance with Topic 820, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of such amounts to the corresponding presentation in the statements of net assets available for benefits.*

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2015 and 2014. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2015	Fair Value at December 31, 2014	Unfunded Commitments	Other Redemption Restrictions
Pooled separate accounts				
Blend (a)	\$ 1,943,405	\$ 2,350,579	None	Daily
Bond (b)	180,976	64,789	None	Daily
Government (c)	16,095	16,403	None	Daily
Growth (d)	1,765,679	1,898,377	None	Daily
Money Market (e)	40,641	41,026	None	Daily
Value (f)	<u>1,032,864</u>	<u>1,226,575</u>	None	Daily
Investments at fair value	<u>\$ 4,979,660</u>	<u>\$ 5,597,749</u>		

- (a) Blend funds invest in securities that are balanced between securities whose primary objective is to appreciate and securities whose primary objective is to pay dividends.
- (b) Bond funds invest in a diversified portfolio of long duration fixed income securities.
- (c) Government funds invest in U.S. Government and government-sponsored securities.
- (d) Growth funds invest in corporate securities with capital appreciation as the primary objective
- (e) Money market funds provide stable returns that are relatively risk free.
- (f) Value funds invest in corporate securities that are deemed to be undervalued in price and are likely to pay dividends.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fully Benefit-Responsive Investment Contracts

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers, but it may not be less than 2.00%. Such interest rates are reviewed on a quarterly basis for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) premature termination of the contracts, (4) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (5) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material representation or (4) a material amendment to the agreements without the consent of the issuer.

5. Unaudited Information Certified by Custodians

The accompanying financial statements include the following unaudited information as of December 31, 2015 and 2014 and for the year ended December 31, 2015 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodians.

Interest and dividends	<u>\$ 960,219</u>	
Interest income on notes receivable from participants	<u>\$ 41,707</u>	

6. Exempt Party-In-Interest Transactions

Certain plan investments are managed by VALIC and Principal. VALIC and Principal are the custodians as defined by the Plans and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the custodians by the Plan for administrative services were \$25,991 for the year ended December 31, 2015.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

8. Tax Status

Generally, a determination letter is issued by The Internal Revenue Service (the "IRS") for a qualified plan states whether the Plan meets the requirements of the Internal Revenue Code (the "IRC"). The determination letter process does not currently apply to 403(b) plans. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.
