Notes to Financial Statements

1. Description of Plan

The following description of the Carleton Life Support Systems, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan established on August 18, 2003, sponsored by Carleton Life Support Systems, Inc. (the “Plan Sponsor”). The Plan covers substantially all employees of the Plan Sponsor, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions – In accordance with the Plan agreement, the Plan Sponsor makes service-weighted contributions based on the following criteria:

Completed Years of Service	Service-Weighted Contribution
0 – 4	.50% of eligible compensation
5 – 9	1.25% of eligible compensation
10 – 14	2.00% of eligible compensation
15 – 19	2.75% of eligible compensation
20 – 24	3.50% of eligible compensation
25 – 29	4.25% of eligible compensation
30+	5.00% of eligible compensation

Additionally, the Plan Sponsor makes a supplemental contribution for those eligible participants who commenced employment on or before August 18, 2003 (Acquisition Date of Life Support Division of Litton Systems, Inc.). Such participants who met The Rule of 100 on August 18, 2003, or who subsequently meet the Rule of 100 as of January 1st of a given Plan year, are eligible to receive the supplemental contribution. The Rule of 100 requires that the sum of 2½ times the participant’s age as of his or her most recent birthday and the number of full years of benefit service completed by the participant as of the most recent anniversary of his or her most recent date of hire in a given Plan year is greater than 100.

Participant Accounts – Investments are directed by the Plan Sponsor. Individual accounts are maintained for each Plan participant. Participant accounts are increased by Plan Sponsor contributions and the participant’s share of Plan earnings. Participant accounts are decreased by participant distributions and the participant’s share of Plan expenses and losses. The allocation of earnings and losses to participant accounts is based on the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

1. Description of Plan (continued)

Vesting – Participants vest in Plan Sponsor contributions at 25% for each year of service and become fully vested after four years. If a participant terminates employment before reaching age 65, they will forfeit any portion of their account in which they have not yet earned a vested interest. Participants will become 100% vested upon death, disability, or the attainment of age 65, regardless of years of vested service.

Payment of Benefits – Upon termination of service due to death, retirement or other reasons, benefit payments are made in the form of a lump-sum distribution equal to the participant's vested account balance.

Forfeitures – Forfeitures resulting from non-vested Plan Sponsor contributions or other required corrections to previous Plan Sponsor contributions reduce the Plan Sponsor's current year contributions. Forfeited non-vested benefits and contributions amounted to \$16,999 and \$16,266 during the years ended December 31, 2015 and 2014, respectively.

Tax Status – The Plan Sponsor obtained a favorable determination letter dated April 23, 2012, in which the Internal Revenue Service stated that the Plan is qualified under Section 401(a) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in Plan Sponsor contributions and associated earnings thereon.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan’s investments consist of mutual funds and a common/collective trust. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The fair market value of the common collective trust has been established using the Net Asset Value (“NAV”) provided by the administrator of the fund under the practical expedient approach and therefore is not assigned to a level in the hierarchy table. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The common collective trust is not subject to restrictions regarding redemptions and there are no unfunded commitments to the fund. There are also no restrictions on the NAV price or its equivalent. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) of those investments.

Purchases and sales of securities are recorded on a settlement date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain accounting and administrative expenses necessary to administer the Plan are paid for by the Plan Sponsor. Recordkeeping fees are paid by participants from their respective individual accounts.

Party-in-Interest Transactions – Certain Plan investments are in a cash account maintained by MG Trust Company, LLC (“MG Trust”) at various times during the year. MG Trust has been defined as a trustee by the Plan and, as such, transactions involving these funds qualify as party-in-interest transactions.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncements – The Plan adopted the provisions of Accounting Standards Update No. 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962): Part II – Plan Investment Disclosures for the year ended December 31, 2015, which eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and net appreciation/depreciation in fair value of investments by general type.

Subsequent Events – The Plan administrator has evaluated the effects of all subsequent events, for recognition or disclosure, through October 14, 2016, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MG Trust has certified that the following data included in the accompanying financial statements and supplementary information is accurate:

	2015		2014
Mutual funds	\$ 7,198,418	\$	7,328,147
Common/collective trust	2,435,937		2,331,647
	<u>\$ 9,634,355</u>	<u>\$</u>	<u>9,659,794</u>

3. Information Certified by the Trustee (Unaudited) (continued)

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2015</u>	<u>2014</u>
Dividend income	\$ 54,917	\$ 60,281
Net appreciation (depreciation) in fair value of investments:	<u>(248,733)</u>	<u>406,962</u>
	<u><u>\$ (193,816)</u></u>	<u><u>\$ 467,243</u></u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that utilized Level 2 inputs as its primary measure to calculate fair value as of December 31, 2015 and 2014.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary measure to calculate fair value as of December 31, 2015 and 2014.

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

<u>December 31, 2015</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ <u>7,198,418</u>	\$ <u>0</u>	\$ <u>0</u>	\$ 7,198,418
Investments held at net asset value				<u>2,435,937</u>
Total investments, at fair value				\$ <u>9,634,355</u>
 <u>December 31, 2014</u>				
Mutual funds	\$ <u>7,328,147</u>	\$ <u>0</u>	\$ <u>0</u>	\$ 7,328,147
