NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Complex Chemical Co., Inc. 401(K) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a participant directed, defined contribution plan covering all employees of Complex Chemical Co., Inc. (the “Company”), meeting the service requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions to the Plan in the form of salary reductions subject to a maximum dollar limitation as determined by the Internal Revenue Service. Participants direct the investment of their contributions into various investment options offered by the Plan. The discretionary profit sharing contribution is determined by the employer with respect to each Plan year. The discretionary contribution is contributed to each eligible participant in accordance with the nondiscriminatory formula determined by the employer. Employer discretionary profit sharing contributions of \$50,000 were made in the years ended December 31, 2015 and 2014.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their salary reduction contributions and are vested in employer discretionary profit sharing contributions after three years of service.

Forfeitures

Forfeitures are applied to pay administrative expenses. During 2015 and 2014, there were forfeitures of approximately \$3,800 and \$300, respectively.

Notes to Financial Statements**

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants

The Plan allows participants to take out a loan not to exceed one half of the vested balance of the participant's account. The loans are secured by the balance in the participant's account. As of December 31, 2015, loans totaled \$60,356 with interest rates of 5.25%, and mature within 60 months. As of December 31, 2014, loans totaled \$85,030 with interest rates ranging from 4.25% to 5.25%, and mature within 60 months. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a period not to exceed the life expectancy of the participant or his or her designated beneficiary. All benefits are recorded when paid.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value (see Note 3). Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and values in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

In connection with the preparation of the financial statements, management of the Plan evaluated subsequent events through October 14, 2016, which is the date the financial statements were available to be issued.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Fair Value Measurements of Financial Instruments

The Plan utilizes a fair value hierarchy which maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Three levels of inputs are used to measure fair value:

- | | |
|----------------|---|
| Level 1 | Valuations based on unadjusted quoted prices for identical assets in active markets accessible at the measurement date. |
| Level 2 | Valuations derived for similar assets in active markets, or other inputs that are observable or can be corroborated by market data. |
| Level 3 | Valuations derived from unobservable (supported by little or no market activity) inputs that reflect an entity's best estimate of what hypothetical market participants would use to determine a transaction price at the reporting date. |

When quoted market prices in active markets are unavailable, the Plan determines fair values using various valuation techniques and models based on a range of observable market inputs including pricing models, quoted market price of publicly traded securities with similar duration and yield, time value, yield curve, prepayment speeds, default rates and discounted cash flow. In most cases, these estimates are determined based on independent third party valuation information, and the amounts are disclosed in the Level 2 of the fair value hierarchy. If quoted market prices and independent third party valuation information are unavailable, the Plan produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. On occasions when pricing service data is unavailable, the Plan may rely on bid/ask spreads from dealers in determining fair value. The Plan generally obtains one quoted market price or dealer quote per instrument. When dealer quotations are used, the Plan uses the mid-mark as fair value.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07, *Fair Value Measurement (Topic 820)*, which included new reporting and disclosure requirements for employee benefit plans. Under the new standards, the Plan will no longer be required to classify investments carried at net asset value within the fair value hierarchy. Additionally, the Plan's disclosures related to investments will be changed to conform to the requirements of the new standard.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965)*. This three-part standard provides guidance on certain aspects of the accounting by employee benefit plans and (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts; (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans by grouping investments by general type; and (3) provides benefit plans with a measurement-date practical expedient on a month-end date nearest to the employer's fiscal year end. The amendments in parts (1) and (2) are retrospectively applied to all periods presented, while the amendment in part (3) is applied prospectively.

The standards are effective for annual periods beginning after December 15, 2015 with early adoption permitted. Management for the Plan is currently evaluating the impact, if any, these accounting standards updates will have on its financial statements.

NOTE 3: INVESTMENT SECURITIES

All the Plan's investments are participant directed, and are held by Nationwide Life Insurance Company (Nationwide) as of year end. Mutual fund investments of the Plan are stated at fair value. All such fair values of mutual funds were derived using quoted closing prices in active markets as of December 31, 2015 and 2014, and thus valued using Level 1 inputs.

NOTE 3: INVESTMENT SECURITIES (Continued)

The following presents the fair value of investments that represent five percent or more of the Plan's net assets:

<i>December 31,</i>	2015	2014
Mutual Funds:		
AmCent Bal Inst	\$ 386,034	\$ 512,610

Vanguard Target Retirement 2040 Inv	112,954	-

A complete listing of investments held at December 31, 2015, is included as a supplemental schedule.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by (\$38,287) in 2015 and \$87,996 in 2014.

Nationwide Life Insurance Company serves as the custodian of the Plan. The custodian has certified as to the accuracy and completeness of the information included in the accompanying financial statements and supplemental schedule as follows:

- A. Investments, at fair value, and related income and expenses
- B. Notes receivable from participants
- C. Dividends and interest receivable
- D. Investment purchases and sales

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6: INCOME TAX STATUS

The Plan is a prototype plan which meets the requirement of Section 401 of the Internal Revenue Service code and is exempt from taxation. The Plan administrator obtained a determination letter on November 30, 2011 for the prototype plan, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the prototype plan received the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. Plan management believes the Plan is no longer subject to income tax examinations for tax returns filed for years prior to 2012.
