Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

The Company makes matching contributions of 50 percent of the first 4 percent of compensation as defined in the Plan that a participant contributes to the Plan. The Company makes additional Company regular contributions of 3 percent of the compensation for eligible employees. All contributions are subject to certain limitations. Matching contributions were \$992,635 in 2015. Company regular contributions were \$1,917,198 in 2015.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions and receives an allocation of Company regular contributions, if any, Plan earnings and administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting: Participants are immediately vested in their elective contributions and the Company matching contribution plus the actual earnings thereon. Vesting for the Company regular contributions is based upon years of service as defined. Participants are 100 percent vested after six years of credited service. Participants who attain retirement age 65, or terminate employment due to death or disability, are 100 percent vested in their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Forfeitures: At December 31, 2015 and 2014, there were no forfeited nonvested accounts. These accounts are used to reduce future Company contributions. In 2015, Company contributions were reduced by \$72,554 from forfeited nonvested accounts.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at market rates. At December 31, 2015, rates ranged from 3.25 to 3.50 percent on all outstanding loans. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan adopted the amendment above for the 2015 plan year, and the amendment was retrospectively applied to December 31, 2014. Prior year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note 4.

Note 2. Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of the month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by Part I, II, and III, as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this update for the 2015 plan year, and the amendments in Part I and Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The amendments in Part III of this update do not apply to the Plan. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for recognition and/or disclosure through October 14, 2016, which is the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Glenview State Bank

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	December 31,	
	2015	2014
Shares of registered investment companies	\$ 113,313,640	\$ 107,391,522
Shares of common/collective trust, at contract value	10,381,258	10,852,837
Notes receivable from participants	2,077,795	2,148,347
Net appreciation in fair value of investments	396,167	
Interest and dividend income	3,794,524	
Interest income on notes receivable from participants	66,974	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

-Allison Corporation
Tax-Sheltered Savings and Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Shares of registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Shares of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:	\$ 102,091,109	\$ 11,222,531	\$ -	\$ 113,313,640

Note 4. Fair Value Measurements (Continued)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosure of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

Investment	December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2015 Fair Value	2014 Fair Value			
Federated Capital Preservation Fund (a)	\$ 10,381,258	\$ 10,852,837	\$ -	Daily	12 months

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Levels 1, 2, or 3.

Note 5. Related Party Transactions

Certain Plan investments are shares of registered investment companies and a common/collective trust managed by Glenview State Bank. Glenview State Bank is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid \$9,533 in fees to Glenview State Bank during the year ended December 31, 2015.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 23, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

Tax-Sheltered Savings and Retirement Plan**

Notes to Financial Statements

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8. Risks and Uncertainties

The Plan provides for various investment options in funds which invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment activities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2015 and 2014.
