Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

Note 1: Description of the Plan

The following description of the Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Brazosport Regional Health System d/b/a Brazosport Memorial Hospital (the Hospital) for the benefit of all its employees. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Voya Retirement Insurance and Annuity Company (Voya) serves as the Plan's custodian and recordkeeper.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Hospital make annual contributions up to 100 percent of eligible compensation. Employee rollover and catch-up contributions are also permitted. The Hospital, at its discretion, may make matching contributions for eligible employees. From January 1, 2013 through November 1, 2014, the Hospital matched 100 percent of each eligible participant's compensation, up to a maximum match of 2 percent of employees' compensation. Effective November 2, 2014, the Hospital matched 100 of each eligible participant's compensation, up to a maximum match of 2.5 percent of employees' compensation. The Hospital did not make any profit sharing contributions during 2015 and 2014. Contributions are subject to certain limitations.

Participant Investment Account Options

Participants direct the investment of their contributions, as well as the Hospital's contributions, into various investment options offered by the Plan. The Plan offers various pooled separate accounts and guaranteed investment contracts (GICs) as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Hospital's contributions and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits which can be provided from the participant's vested account.

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Hospital's contribution portion of their accounts, plus earnings thereon, is based on years of continuous service. A participant is fully vested after three years of continuous service. The non-vested balance is forfeited upon termination of service.

Notes Receivable From Participants

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings, unless the participant is paying the loan in full. Interest rates for all loans are established at 2 percent above the prime lending rate of a commercial U.S. bank within reasonable geographic vicinity.

Payment of Benefits

Upon retirement or death, participants or beneficiaries are entitled to a distribution equal to the total value of their vested accounts. Upon termination of service, a participant's vested benefits may be paid out as a lump-sum distribution, installment payments (joint and survivor annuity) or a direct rollover. The Plan also permits withdrawals from the Plan due to circumstances of financial hardship, in accordance with provisions specified in the *Plan Document*. While employed, a participant may make withdrawals from their fully vested account, as defined in the *Plan Document*. Certain additional in-service withdrawals are permitted upon attainment of age 59½.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$516,682 and \$504,600, respectively. These accounts will be used to reduce future Hospital's contributions or to pay Plan expenses.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Pooled separate accounts are valued at estimated fair value as provided by Voya.

The Voya guaranteed investment contracts are fully benefit-responsive investment contracts and are valued at contract value as provided by Voya. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses. Contract value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the *Plan Document*.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements

December 31, 2015 and 2014

Administrative Expenses

Administrative expenses may be paid by the Hospital or the Plan, at the Hospital's discretion.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Investment income and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are units of pooled separate accounts managed by Voya, which is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Hospital pays directly any other fees related to the Plan's operations.

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

The Plan paid \$20,687 and \$19,795 of recordkeeping fees to Voya during 2015 and 2014. The Hospital provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2015 and 2014.

		Fair Value Measurements Using			
		Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2015					
	Pooled separate accounts	\$ 20,903,180	\$ -	\$ 20,903,180	\$ -
2014					
	Pooled separate accounts	\$ 21,471,786	\$ -	\$ 21,471,786	\$ -

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2015 and 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. The Plan held no Level 1 securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the pooled separate accounts. Units of pooled separate accounts are recorded at estimated unit value based on the estimated market value of the underlying assets net of annual expense charges divided by the beginning units. Inputs include market quotations or price, reported trades, broker/dealer quotes, bids, and offers of the underlying investments obtained from external appraisals, independent pricing sources and market research publications. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. No Level 3 securities are included.

Note 6: Investment Contracts With Insurance Company

The guaranteed investment contracts are a fully benefit-responsive investment contracts. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The guaranteed investment contract is fully benefit responsive, therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the *Plan Documents* (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2015	2014
Traditional investment contract	\$ 5,388,476	\$ 5,245,460

Note 7: Change in Accounting Principle

In 2015, the Plan changed its method of accounting for fully benefit-responsive investment contracts by adopting the provisions of Accounting Standards Update (ASU) 2015-12, *Plan Accounting (Topics 962 and 965): Part I: Fully Benefit-Responsive Investment Contracts*. The accounting provided for in ASU 2015-12 allows plans to measure, present and disclose fully benefit-responsive investment contracts at contract value. The effect of the adoption of the ASU is to eliminate the requirement to measure fair value of fully benefit-responsive contracts and to present the reconciliation from fair value to contract value on the statement of net assets. This change was applied retrospectively to all periods presented.

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Brazosport Memorial Hospital's 403(b) Matching Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2015 and 2014

Note 9: Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not currently provide that service for 403(b) plans. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
