NOTE A – PLAN DESCRIPTION

The following description of The SAVE Program for Employees of Viskase Companies, Inc. (the "Plan") provides only general information. Participants should refer to the Plan document, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide deferred compensation benefits to eligible employees. Under the Plan, all of the employees of Viskase Companies, Inc. ("the "Company") who have met the eligibility requirements may elect to participate in the Plan. Employees who are covered by a collective bargaining agreement will be eligible only if their participation is provided for in the agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). T. Rowe Price Trust Company (T. Rowe Price) serves as both the trustee and custodian.

Eligibility

Regular full-time employees become eligible to participate in the Plan upon employment.

Contributions

Non-collective bargaining employees may choose to make contributions to the Plan of 1% to 25% (1% to 16% for employees covered under a collective bargaining agreement) of their regular pay (Eligible Earnings) as a basic deduction contribution on a before-tax or after-tax basis. Participants who contribute the maximum 6% as a basic deduction contribution may contribute up to an additional 10% of Eligible Earnings as a supplemental deduction contribution on a before-tax or after-tax basis. The Plan also includes an automatic enrollment feature whereby eligible employees are automatically enrolled in the Plan at 3%. Employees can elect to opt out of the automatic enrollment. Eligible participants may elect to make catch-up contributions to the Plan, as defined in the Plan document. In addition, participants are permitted to transfer amounts representing distributions from other qualified plans to the Plan.

Effective March 7, 2015 participants can elect to classify all or a portion of their deferral as a Roth deferral.

The Company will make a "Safe Harbor" matching contribution to all non-collective bargaining participants, equal to 100% of the participant's contribution up to 3%, and 50% of the participant's contributions that exceed 3% but do not exceed 5%.

Participants covered under a collective bargaining agreement will receive Company Matching contributions to the Plan that are equal to 50% of the participant's contributions up to 6% of Eligible Earnings. Participants' before-tax and after-tax contributions in excess of 6% of the participant's Eligible Earnings are not eligible to receive Company Matching contributions.

NOTE A – PLAN DESCRIPTION – CONTINUED

The Company will make a Company Fixed Contribution to all eligible employees whose employment is governed by a collective bargaining agreement and who were actively employed by the Company as of January 1, 2011. The amount of the Company's Fixed Contribution is 3% of Eligible Earnings. Under the new collective bargaining agreement, the Company Fixed Contribution was eliminated effective September 30, 2015.

The Company will make a contribution known as the Company Retiree Contribution to all eligible employees whose employment is governed by a collective bargaining agreement and any other eligible employee who as of March 31, 2004 (effective January 1, 2015 the date was amended to December 31, 2006 for participants covered by a collective bargaining agreement) had both (i) attained age 50, and (ii) completed at least ten years of service. The amount of the Company Retiree Contribution is $1,000 for each eligible participant and prorated for any period of service of less than one year. Under the new collective bargaining agreement, the Company Retiree Contribution was eliminated, effective September 30, 2015.

The Company may make a discretionary contribution known as the Company Variable Contribution based on the attainment of annual EBITDA goals as established by the Board. The amount of the Company Variable Contribution will be discretionary, except for participants covered by a collective bargaining agreement, wherein, the contribution will be equal to 3% of Compensation if at least 100% of the goal is satisfied. There were no Company Variable Contributions for the year ended December 31, 2015. Under the new collective bargaining agreement, the Company Variable Contribution was changed to a discretionary percentage of compensation, if at least 100% of the goal is satisfied, effective September 30, 2015.

Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts

A separate account is established for each participant. The account is credited or charged, as applicable, with the participant's salary deferral contributions, an allocation of the Company's contributions, the participant's share of investment earnings and losses, the participant's distributions and certain administrative charges. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their account into the various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participant contributions plus the earnings thereon are fully vested. If a participant voluntarily terminates before completing three years of credited service, contributions made by the Company and earnings thereon are forfeited. If a participant attains age 65 or becomes permanently and totally disabled, dies or is terminated by the Company for reasons other than cause, the full value of the Company contribution account is immediately vested.

NOTE A – PLAN DESCRIPTION – CONTINUED

A participant's vested interest in their Safe Harbor Matching Contribution is 100% at all times. A participant's vested interest in their Company Matching contributions, Company Fixed Contributions, Company Retiree Contributions and Company Variable Contributions is 0% until the participant has completed three years of service, at which time the participant becomes 100% vested.

Forfeitures

Forfeitures of a terminated participant are required to be held by the Plan pending the participant's possible return to employment and reinstatement in the Plan. If reinstatement does not occur by the end of the year following the year during which the participant terminated employment, such forfeitures are used to reduce subsequent Company contribution funding. During 2015, $8,400 of forfeitures were used to fund Company contributions. As of December 31, 2015 and 2014, there were no unused available forfeitures.

Payment of Benefits

On termination of service, participants with account balances in excess of $5,000 may elect to either receive a single-sum amount or defer payment until the April 1 following the year the participant reaches age 70-½. Participants who terminate employment with account balances less than or equal to $5,000 receive a single-sum payment. Participants may choose to make a direct rollover into another qualified plan or into an Individual Retirement Account (IRA). Spouse beneficiaries may make a direct rollover into an IRA. Non-spouse beneficiaries may not make a direct rollover into an IRA. Participants may elect to receive installment payments under the Plan. Payment to any participant must begin no later than the April 1 following the year the participant reaches age 70-½, even if he or she has not retired. The Plan permits participants to make withdrawals while they are employed. The Plan sets out the limits and priority of any withdrawal. The Plan permits hardship withdrawals of before-tax contributions in accordance with IRC requirements.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of a participant's account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate commensurate with the interest rate charged by area banking institutions for loans made under similar circumstances. The period for loan repayment cannot exceed five years from the date of the loan, unless the loan is for the purchase of a principal residence, in which case the repayment period cannot exceed 10 years. Principal and interest are paid ratably through payroll deductions. Interest rates on outstanding loans were 3.25% to 3.50% and 3.25% at December 31, 2015 and 2014, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

New Accounting Guidance

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-12. This three-part standard simplifies the required reporting and disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive investment contracts (FBRICs). Contract value is the only required measure for FBRICs. Part I also clarified that indirect investments in FBRICs (for example, the Plan's investment in the T. Rowe Price Stable Value Fund, a stable value collective trust fund) are not in the scope of the FBRICs guidance. Part II eliminates the requirement to disclose individual investments that are 5% or more of total net assets available for benefits, as well as the appreciation (depreciation) of fair value by investment type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part III is not applicable to the Plan. The amendments are effective for the Plan for fiscal years beginning after December 15, 2015 and shall apply retrospectively to all periods presented. The Plan elected to early adopt this guidance as of December 31, 2015, as permitted and has applied this guidance retrospectively, as required. The adoption resulted in the reclassification of $343,718 related to the adjustment from fair value to contract value for the stable value collective trust fund within the Statement of Net Assets Available for Benefits as of December 31, 2014. Furthermore, the Plan's investments have been disaggregated by general type only and the Plan has eliminated its historical disclosure of individual investments which comprise 5% or more of total net asset available for benefits, as well as the net appreciation (depreciation) of fair value by investment type. There were no other impacts on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 or the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

In May 2015, the FASB issued ASU 2015-07, which updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value (NAV) per share (or its equivalent). The updated guidance applies to reporting entities that elect to measure the fair value of certain investments using the NAV per share (or its equivalent) of the investment as a practical expedient. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of when the investment is redeemable with the investee at NAV. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments are effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. The Plan elected to early adopt this guidance as of December 31, 2015, as permitted and has applied this guidance retrospectively, as required. The adoption has been reflected in Note C of the financial statements. The adoption had no impact on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 or the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2016, the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: A stable value fund valued at the NAV of units of the collective trust. The NAV is calculated by the fund based on net assets, which includes fully benefit-responsive investment contracts at contract value. This NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund and is used as a practical expedient to estimate fair value.

NOTE C – FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 34,519,137	$ -	$ -	$ 34,519,137
Total assets in the fair value hierarchy	**$ 34,519,137**	**$ -**	**$ -**	34,519,137
Collective trust fund: T. Rowe Price Stable Value Fund				22,218,631
Total assets at fair value				**$ 56,737,768**

	Assets at Fair Value as of December 31, 2014			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 34,028,243	$ -	$ -	$ 34,028,243
Total assets in the fair value hierarchy	**$ 34,028,243**	**$ -**	**$ -**	34,028,243
Collective trust fund: T. Rowe Price Stable Value Fund				23,366,248
Total assets at fair value				**$ 57,394,491**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with industry practices, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – STABLE VALUE FUND

The Plan's investments include an investment in the T. Rowe Price Stable Value Fund (the "Fund"), a collective trust fund that is considered to be a stable value fund with underlying investments in fully benefit-responsive investment contracts. Fair value of the stable value fund is the NAV of the fund. The NAV is based on net assets, which includes the fully benefit-responsive investment contracts at contract value. The Fund is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The Fund's investment objective is to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. To achieve its investment objective, the Fund invests in underlying assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals for benefit payments and participant transfers to noncompeting investment options to be paid to plan participants shall be made 30 days after written notification has been received. Withdrawals, other than for benefit payments and participant transfers to noncompeting investment options may be made up to one year after notification is received. At December 31, 2015 and 2014, there were no other restrictions or unfunded commitments.

Certain events can limit the ability of the Plan to transact at contract value with the Fund, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

NOTE E – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Investment income (loss) and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are held and managed by T. Rowe Price. T. Rowe Price also performs administrative and record-keeping services for the Plan. Therefore, these transactions qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in the Company contribution portion of their accounts.

NOTE H – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated January 13, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE I – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is a least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2015	2014
