Notes to Financial Statements

December 31, 2015

1. Description of the Plan

The following description of the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is designed as a defined contribution plan under Section 401(a) of the Internal Revenue Code (the Code) with a cash or deferred arrangement under Section 401(k). The Employee Benefits Committee of Schneider Electric Holdings, Inc. controls and manages the operation and administration of the Plan. Schneider Electric Holdings, Inc. is the parent company of the Plan's sponsor Schneider Electric USA, Inc. (the Company). Vanguard Fiduciary Trust Company (Vanguard or the Trustee) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility and Vesting

Employees of the Company scheduled to work 17.5 hours or more per week who are represented by a collective bargaining agreement are eligible to make compensation deferral contributions to the Plan upon their first day of service upon attainment of age 18. These individuals are eligible to receive an allocation of employer performance award contributions if active on December 31 with at least six months of service. Employees do not have to contribute to the Plan to be eligible to receive performance award contributions. Participants are fully vested in their accounts at all times.

Contributions

Each year, participants may contribute to the Plan 1% to 75% of their eligible gross earnings (as defined by the Plan), subject to limitations set by the Code. Participants age 50 or more are eligible to make additional catch-up contributions of up to \$6,000 in 2015. The Plan provides for Company matching contributions. Effective January 1, 2015, the amount of the contribution is based on the participants' date of hire and location.

Effective January 1, 2015, the Company also contributes a nonelective contribution and a pension transition contribution to eligible participants. The amount of the contribution is based on the participants' date of hire and location.

1. Description of the Plan (continued)

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants can allocate their contributions to any of the funds (except for the Schneider Electric Stock Fund) in 1% increments, with the option to change their allocation daily.

The Schneider Electric Holdings, Inc. Master Trust (the Master Trust) holds the investment in the Schneider Electric Stock Fund. Schneider Electric is the parent company of the Plan's sponsor. The Plan and the Schneider Electric 401(k) Plan participate in the Master Trust. The assets in the Master Trust consist exclusively of Schneider Electric common stock. The Schneider Electric Stock Fund was funded only by performance award contributions and is closed to new contributions; however, participants may make exchanges out of this fund at any time. Investment income or loss relating to the Master Trust is allocated to the individual plans based upon average monthly balances invested by each participating plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any, and the Company nonelective contribution, and allocations of the Plan's earnings and is charged with an allocation of plan investment losses and any applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Distributions

Distributions are available in the event of separation from service for any reason, at age 59.5, or in situations involving financial hardship. Terminated employees may choose to leave their vested balance in the Plan if in excess of specified dollar amounts, as defined by the Plan. The form of payment is typically a lump-sum distribution; however, participants who are eligible to retire may elect to receive annual installments.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Loans to Participants

Participants may borrow up to the lesser of \$50,000 or 50% of their vested balances, with a minimum loan amount of \$500. Loan repayments are made through payroll deductions over a period of one year to five years in one-year increments. The loans are secured by the balance in a participant's account, and the interest rate, at the prime rate plus 1% as reported by Reuters, is fixed for the life of the loan. A one-time Vanguard processing fee is deducted from the loan amount. In addition, an annual maintenance fee is deducted from any participant's account having a loan balance at the end of each year. The maintenance fee in effect at the time the loan is taken does not change for the life of the loan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Schneider Electric USA, Inc. Coordinated Bargaining
Employees' Retirement Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments held by the Plan and the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 7 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Company and participants. An annual recordkeeping fee of \$15 is charged directly to each participant.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management has elected to early adopt ASU 2015-07 early.

Schneider Electric USA, Inc. Coordinated Bargaining
Employees' Retirement Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II of the ASU early.

3. Investments

Certain information related to investments held for the Plan, the Master Trust and notes receivables for participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

The following table presents the net assets of the Master Trust:

	December 31	
	2015	2014
Investments, at fair value:		
Schneider Electric common stock	\$ 28,183,357	\$ 39,793,670
Plan's interest in Master Trust	20%	22%

Schneider Electric USA, Inc. Coordinated Bargaining
Employees' Retirement Savings Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Net investment loss of the Master Trust for the year ended December 31, 2015, is as follows:

Net depreciation in fair value of common	<u>\$ (7,103,014)</u>
Net investment loss	<u><u>\$ (7,103,014)</u></u>

4. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated March 20, 2015, stating that the Plan is qualified under the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

U.S. GAAP require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

5. Related-Party and Party-in-Interest Transactions

Investments in the Master Trust consist of shares of common stock of Schneider Electric SA, the parent company of the plan's sponsor. Certain plan investments are shares of mutual funds and units of common/collective trust funds managed by the Trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Schneider Electric USA, Inc. Coordinated Bargaining
Employees' Retirement Savings Plan

Notes to Financial Statements (continued)

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to applicable collective bargaining agreements and the provisions set forth in ERISA.

7. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Schneider Electric USA, Inc. Coordinated Bargaining
Employees' Retirement Savings Plan

Notes to Financial Statements (continued)

7. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investments measured at fair value by the Plan:

Common stock: The Schneider Electric Stock Fund is a unitized fund consisting of Schneider Electric SA common stock and a small amount of a short-term investment fund to provide liquidity. The unitized value of the fund is based on quoted market prices of the underlying assets.

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trust funds: Valued at the NAV provided by the administrator of the fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$ 19,935,703</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 19,935,703</u>

Master Trust assets at fair value:

^(a) This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Redemptions are permitted by participants on any business day and by the Plan within 12 months of written notice.

^(b) This category seeks to provide capital appreciation and current income consistent with its current asset allocation. These funds use an asset allocation strategy designed for investors planning to retire based on the investor's target year. The trusts' asset allocation will become more conservative over time. There are no redemption restrictions on these funds.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2015	2014
Net assets available for benefits per the financial statements	\$ 44,373,581	\$ 46,823,122
Adjustment from contract value to fair value for fully benefit-responsive contracts	–	241,459
Net assets available for benefits per the Form 5500	<u>\$ 44,373,581</u>	<u>\$ 47,064,581</u>

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements to the Form 5500:

	Year Ended December 31, 2015
Net decrease in assets available for benefits per the financial statements	\$ (2,449,541)
Adjustment from contract value to fair value at December 31, 2014	(241,459)
Net decrease in net assets available for benefits per the Form 5500	<u>\$ (2,691,000)</u>

As discussed in Note 2, the Plan adopted ASU 2015-12 in the current year. As a result, the stable value common/collective trust fund (Fund) is no longer identified as a fully benefit-responsive investment contract. The financial statements and the Form 5500 both presented the Fund at fair value using the NAV practical expedient as of December 31, 2015. The Form 5500 measured fair value in a different manner as of December 31, 2014.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 17, 2016, the date the financial statements were available to be issued.

Effective January 1, 2016, the Plan was amended to make changes to employer match, nonelective contributions and additional nonelective contributions.
