PIPELINE CONSTRUCTION AND MAINTENANCE 401 (K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2015 and 2014

1) Description of plan

The following description of the Pipeline Construction and Maintenance 401(k) Profit Sharing Plan (the Plan), is provided for general information purposes only. Participants should refer to the Plan document for complete information regarding the Plan's provisions.

(a) General

The Plan is a defined contribution plan sponsored by Pipeline Construction and Maintenance, Inc. (Plan Sponsor). Employees who have completed one year of service with the Plan Sponsor and are at least 18 years old are eligible to participate in the Plan. Certain other ineligible employees include those covered by a collective bargaining agreement and certain non-resident aliens who have no earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Participant contributions

Participants may elect to contribute up to 100% percent of their compensation as defined in the Plan, subject to Internal Revenue Code regulations. Participants can direct their contributions and employer contributions in one or more of several publicly traded mutual funds and a common/collective trust offered by the Plan. In addition, a participant who has attained 50 before the close of the plan year shall be eligible to make catch-up contributions in accordance with the limitations under the Internal Revenue Code.

(c) Employer contributions

The Plan allows discretionary employer matching contributions for all employees actively employed at the end of the Plan year. The matching contributions equal a discretionary percentage, determined by the Company, of the participant's elective deferrals. For the years ended December 31, 2015 and 2014, the Company did not make any discretionary matching contributions.

(d) Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Payment of plan benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account either in a lump sum amount. With approval of the Advisory Committee, early voluntary withdrawals may be paid by the Plan to those participants experiencing a financial hardship, as defined. Balances under \$5,000 may be paid out at the discretion of the company. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(f) Vesting

Participants are immediately vested in their voluntary contributions and discretionary matching contributions.

2) Summary of significant accounting policies

(a) Basis of accounting

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

The Plan maintains a non-fully benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company (the trustee). The trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at market value as reported to the Plan by trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yield during 2015 and 2014 was 2% and 1%, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

(c) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(d) Payment of benefits

Benefits are recorded when paid.

(e) Plan administrative costs

The Plan permits the payment of Plan expenses to be made from the Plan's assets. If expenses are paid using the Plan's assets, then the expenses will generally be allocated amount the accounts of all participants in the plan.

3) Federal income taxes

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2006-6, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan has been amended since receiving the letter, including amendments made to comply with recent law change. The administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

PIPELINE CONSTRUCTION AND MAINTENANCE 401 (K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2015 and 2014

3) Federal income taxes (continued)

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor and the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the plan is subject to U.S. federal and state income tax examinations by tax authorities for a period of three years from filing of those returns.

4) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In such a case, participants would become 100 percent vested in their account and would be allocated their account balance at the time of the termination. Assets of the Plan will be distributed to participants after payment of expenses in accordance with the value credited to such participants as of the date of termination.

5) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6) Investments

The following presents investments that represent 5% or more of the Plan's net assets. All investments are participant directed.

	<u>2015</u>	<u>2014</u>
American Beacon Large Cap Value	\$ 287,548	\$ 354,627

The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

8) Fair Value Measurement

Financial Accounting Standards Board Statement (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820, are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2015 and 2014

8) Fair Value Measurement (continued)

The following is a description of the valuation methodologies used for measuring assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the net asset value (NAV), which is fair market value, as the assets are marked-to-market on a daily basis.

Guaranteed general account: Valued at fair value, which approximates contract value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,997,148	-	-	\$ 1,997,148
Guaranteed general account	-	105,513	-	105,513
