NOTE 1

PLAN DESCRIPTION

The following description of the CAD Enterprises, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan originally effective January 1, 2007. The Plan excludes non-resident aliens and employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for the oversight of the Plan. The Trustees and Plan administrator determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Eligibility:

Employees of CAD Enterprises, Inc. (the Company) are eligible to participate in the deferral component of the Plan after completing one year of service. A year of service is defined as a plan year during which an employee works at least 1,000 hours during the 12-month period following their hire date with the Company. Participants are eligible for the profit sharing contribution if they meet the eligibility requirements above and are employed on the last day of the Plan year.

Contributions:

The Plan provides that participants may contribute up to the limits prescribed in the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may, at its discretion, elect to make a qualified matching contribution, a non-elective contribution or a profit sharing contribution. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

In 2015, the Company made an employer profit sharing contribution equal to 7.5% of each participant's eligible compensation. Profit sharing contributions for the year ended December 31, 2015 were \$445,819.

Participant accounts:

Each participant's account is credited with the participant's contribution and the Company's matching and profit sharing contribution. Realized and unrealized gains and losses, interest, and dividend income are adjusted based on participant account balances. The benefit to which a participant is entitled is the balance of the participant's vested account balance.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions and actual earnings thereon, are based on years of credited service. A participant is 20% vested after two years of credited service with an additional 20% vesting per year until the participant is 100% vested after six years of credited service. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or permanent disability.

NOTE 1 (Continued)

PLAN DESCRIPTION

Investment options:

Participants may direct the investments in their accounts among alternative investment funds provided by the Plan. Participants may change their investment options at any time.

Notes receivable from participants:

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance from their fund account. The notes are secured by the balance in the participant's account and bear interest rates of 4.25%. The note must be repaid over a period not to exceed 5 years. Principal and interest are paid ratably through payroll deductions, if available.

Payment of benefits:

Benefits begin at retirement age, termination of employment, total and permanent disability, or death of the participant. Distribution of benefits can be made in one lump sum payment or could be rolled-over to an IRA provider or to another qualified retirement plan. The Plan allows for in-service distributions if a participant reaches age 59½. If a participant terminates employment other than by retirement, disability or death, the vested portion of the participant's account may be distributed upon termination and anytime thereafter.

Forfeited accounts:

Forfeitures may be used by the Plan to reduce future employer profit sharing contributions or to pay plan administrative expenses. There were \$86,168 and \$93,578 of unallocated forfeitures as of December 31, 2015 and 2014, respectively. There were \$31,914 of forfeitures used to reduce employer contributions and \$6,823 of forfeitures used to pay administrative expenses for the year ended December 31, 2015.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies follows:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

CAD ENTERPRISES, INC. 401(k) PLAN

Notes to Financial Statements

NOTE 2 (Continued)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Change in accounting principle:

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and all other entities for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU is retrospectively applied. The Plan has elected to early adopt the ASU.

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees and Plan administrator determine the Plan's valuation policies utilizing information provided by the custodian. See *Note 4* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

CAD ENTERPRISES, INC. 401(k) PLAN
Notes to Financial Statements

NOTE 2 (Continued)
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015. If any participant loan remains unpaid for more than 90 days after due, the loan is determined to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Administrative expenses of maintaining the Plan may be paid by the Company. The expenses that are paid from Plan assets are either shared by all participants or charged directly to the account of the participant on whose sole behalf the expense is incurred. Expenses paid by the Plan are included in net depreciation of fair value of investments.

Subsequent events:

Plan management has evaluated subsequent events through October 5, 2016, which is the date the financial statements were available to be issued.

NOTE 3
INFORMATION CERTIFIED AND PROVIDED BY THE CUSTODIAN

Transamerica Life Insurance Company (TLIC), the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, the statement of changes in net assets available for benefits for the year ended December 31, 2015, and the supplemental schedule of assets (held at end of year) as of December 31, 2015.

NOTE 4

FAIR VALUE MEASUREMENT

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at the net asset value (NAV) or equivalent based on units of the pooled separate accounts. The NAV, as provided by the custodian, is used a practical expedient to estimate fair value. The NAV is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. There are no unfunded commitments or redemption restrictions associated with these investments.

Group annuity contract: Valued at contract value which is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and less funds used to pay administration expenses (Note 5).

CAD ENTERPRISES, INC. 401(k) PLAN

Notes to Financial Statements

NOTE 4 (Continued) FAIR VALUE MEASUREMENT

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	<u>2015</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts*	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,788,770</u>
	<u>2014</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts*	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,364,366</u>

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy to the amounts presented as investments in the statement of net assets available for benefits.

The Plan has investments in various pooled separate accounts which invest in equity, fixed income, and target date funds. The objective of these investment vehicles invested in equity instruments is to approximate the risk and return characterized by various indexes; to seek long term capital appreciation; provide diversified exposure representative of various segments of the U.S. or foreign equity market; and/or to seek income. The objectives of investment vehicles invested in fixed income is to provide investment results that approximate the overall performance of certain bond indices and/ or to provide a predictable rate of return while preserving the safety of capital and minimizing market risk. The objective of the investment vehicles invested in target date funds is to provide various levels of asset allocations which become more conservative over time so participants can stay with the same fund before and after selected retirement dates.

NOTE 5 GROUP ANNUITY CONTRACT

The Plan participates in the Transamerica Stable Value Option (SVO). The SVO is an insurance company issued general account back group annuity contract. There are no specific securities in the general account that back the investment in this account.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants generally may withdraw assets from the SVO without restrictions, however TLIC may impose a hold period at the contract level in the event of a full contract discontinuance or a partial contract discontinuance.

NOTE 5 (Continued)
GROUP ANNUITY CONTRACT

The contract is a group annuity insurance product issued by Transamerica Life Insurance Company (TLIC) and is backed by the full faith and creditworthiness of the issuer. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Deposits made to the contract are deposited in TLIC's general account. Payment obligations under the contract represent an insurance claim supported by all general account assets. The contract does not operate like a mutual fund, variable annuity product, or conventional fixed rate individual annuity product. Expenses related to the contract are calculated by TLIC and incorporated into the contracts crediting rate. Past interest rates are not indicative of future interest rates.

The SVO has a portfolio investment rate design in which all deposits are credited with the same interest rate on a daily basis, and with no set maturity. The effective guaranteed credited interest rate is set on a semi-annual basis and is announced at least 45 days in advance. The guaranteed rate of interest shall not change during the six month period for which it is effective. The crediting interest rate for the investment contracts as of December 31, 2015 and 2014 was 1.55% and 1.60%, respectively.

NOTE 6
RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by TLIC. TLIC is the custodian and record keeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.

Notes receivable from participants and the related interest income are considered related party transactions.

NOTE 7
PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 8
TAX STATUS

The Plan is placing reliance on an opinion letter dated September 30, 2008 received from the IRS on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype Plan has been amended since receiving the opinion letter. However, the Trustee believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

NOTE 8 (Continued) TAX STATUS

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
