(1) Description of the Plan

The following description of the Coastal Orthopedics & Sports Medicine of Southwest Florida 401(k) Profit Sharing Plan is provided for general information purposes only. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

(a) General

The Coastal Orthopedics & Sports Medicine of Southwest Florida 401(k) Profit Sharing Plan (the "Plan") was established on February 1, 1998 as a prototype defined contribution plan covering all employees of Coastal Orthopedics & Sports Medicine of Southwest Florida, P.A. and Musculoskeletal Ambulatory Surgery Center, Inc. (the "Company") meeting eligibility requirements, as defined. The Plan was amended and restated on January 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company (Mass Mutual) acquired The Hartford Retirement Plans Group (Hartford RPG) business. Mass Mutual has been appointed by Hartford Life Insurance Company (HLIC) to provide all administrative services necessary to support the insurance contracts issued by HLIC. HLIC continues to be the trustee of the Plan and Mass Mutual certifies plan assets for HLIC as its administrative service provider.

(b) Contributions

All employees of the Company who have completed at least one year of employment, 1,000 hours of service, and have attained the age of twenty-one are eligible to participate. The Plan provides for entry dates on the first day of the quarter coinciding with the satisfaction of the entry requirements.

Participants may make pre-tax and post-tax salary contributions to the Plan, not to exceed $18,000 in 2015 as allowed by the Internal Revenue Service (IRS). As allowed by the IRS, the limit on catch-up elective deferrals for participants age 50 and over was an additional $6,000 for the 2015 plan year.

The Company elected to make fully-vested safe harbor non-elective contributions on behalf of employees eligible to make elective deferrals equal to 3% of Plan compensation (as defined), not to exceed applicable limitations set by the IRS. Safe harbor plans allow highly compensated employees to maximize their contributions, and automatically pass certain non-discrimination testing. The safe harbor non-elective contribution for the year ended December 31, 2015 totaled approximately $348,000. Additionally, the Company may elect to make a discretionary matching contribution to participants employed by the Company on the last day of the year. For the plan year ended December 31, 2015, the Company did not elect to make a discretionary matching contribution. The Company's profit sharing contributions is allocated to the participants account as indicated by the Company's Board of Directors. For the plan year ended December 31, 2015, the Company's Board of Directors elected to make a profit sharing contribution to physicians only, totaling approximately $155,000.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

(1) Description of the Plan - Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contribution, if applicable, and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(d) Vesting

Participants are immediately vested in their contributions and Company safe harbor non-elective contributions plus actual earnings thereon. Participants vest in their profit sharing contributions based on years of service as defined by the Plan. Upon death or total and permanent disability, employees will become 100% vested in the Company contributions.

A participant is vested in Company profit sharing contributions as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Investment Options

Upon enrollment in the Plan a participant may direct their contributions and Company contributions, in increments of one percent, in any of the available investment options offered by the Plan. Participants should reference prospectus information for detailed investment information.

Investment options may be changed at the participant's discretion.

(f) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance. The loans are secured by the balance in the participant's account and for the year ended December 31, 2015 interest rates were 4.25%. Principal and interest are paid ratably through payroll deductions.

(1) Description of the Plan - Continued

(g) Payment of Benefits

On termination of service due to death, disability, or retirement, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options which include electing to rollover the vested portion of their account to another qualified Plan or electing to receive a single lump sum payment, subject to withholding for income taxes.

(h) Forfeitures

Pursuant to the Plan document, forfeiture balances are to be used to pay administrative expenses of the Plan or reduce Company contributions. There were no forfeitures used to pay administrative expenses or reduce the Company contributions during the year ended December 31, 2015. The Plan has approximately $738 and $726 of forfeitures available for payment of future administrative expenses or reduction of future Company contributions as of December 31, 2015 and 2014, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for benefits and changes in net assets available for benefits in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The units of the pooled separate accounts are valued using the net asset value of the underlying investment provided by the administrator of the fund. The guaranteed interest account is valued at fair value which is the liquidation value based on actuarial formula as defined under the terms of the contract. No unobservable inputs.

(2) Summary of Significant Accounting Policies - Continued

(c) Investment Valuation and Income Recognition - Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net depreciation in fair value of investments includes both realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year.

(d) Administrative Expenses

The administrative expenses of the Plan are shared by the Plan and Company.

(e) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(f) Notes Receivable from Participants

The Plan's notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments, the loan balance is reduced and a benefit payment is recorded.

(g) Payment of Benefits

Benefits payments are recorded when paid.

(h) Unit Values

Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(2) Summary of Significant Accounting Policies - Continued

(i) New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820). Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. The Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further the disclosure of information about fair value measurements shall be provided by general type of plan investments. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan management has elected to early adopt ASU 2015-12 Part II. Adoption of this standard resulted in a change to certain footnotes and had no impact on the statements of net assets available for benefits or statement of changes in net assets available for benefits. Parts I and III are not applicable to this Plan.

(3) Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mass Mutual, the administrative services provider of the Plan as agent for HLIC, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments, at fair value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014;

- Net realized and unrealized depreciation in fair value of investments, dividend income, interest income on notes receivable from participants and related investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015;

- The Schedule of Assets (Held at End of Year), as of December 31, 2015, as shown in the supplemental schedule.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(5) Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype Plan, as then designed, constituted a qualified trust under Section 401(a) of the Internal Revenue Code and was thus exempt from federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Party-in-Interest

Certain plan investments are units in pooled separate accounts which are managed by HLIC. HLIC is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA; they are, however, expressly exempted from the prohibited transaction rules. The Plan paid HLIC approximately $4,000 in expenses during the year ended December 31, 2015. Notes receivable from participants transactions are also considered to be party-in-interest transactions, because they are transacted with Plan participants.

(7) Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

a) Quoted prices for similar assets or liabilities in active markets;

b) Quoted prices for identical or similar assets or liabilities in inactive markets;

c) Inputs other than quoted prices that are observable for the asset or liability;

d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(7) Fair Value Measurements - Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Pooled Separate Accounts

These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Interest Account

These investments are valued at fair value which is the liquidation value based on actuarial formula as defined under the terms of the contract. No unobservable inputs. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest accounts are not considered benefit-responsive and are valued at estimated fair value as determined by Massachusetts Mutual Life Insurance Company. The Guaranteed Interest Account is classified within Level 2 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

		Fair Value Measurements at Reporting Date Using		
Description	**Assets Measured at Fair Value at December 31, 2015**	**Quoted Prices in Active Markets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
