MB HEALTHCARE 401(K) PROFIT SHARING PLAN
Notes to Financial Statements

Note 1. Description of the Plan - The following description of MB Healthcare 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Greenwich Woods Rehabilitation, LLC, (the "Company") who have completed one-half year of service and are age twenty-one or older. All service from former Plan Sponsor is considered eligible. The Plan adopted a Volume Submitter agreement for the DATAIR 401(k) Profit Sharing Plan and Trust effective January 1, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Eligible participants are entitled to defer, with no plan imposed limits on the amount, a portion of their annual salary into the Plan as a qualified pre-tax, an after-tax, or a combination of the two, contribution subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service of \$18,000 for the year ended December 31, 2015. If a participant is age 50 or over, the ceiling increased to \$24,000 for the year ended December 31, 2015. The Company may make a profit sharing contribution to the plan each year and in such amount, if any, as it may determine.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of a) the Company's contribution and b) plan earnings. Allocations of the Company's contributions are based on participants' compensation for the year. Plan earnings and administrative expenses are allocated based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Direction - The Plan permits participants to direct their investments at their discretion into any combination of the funds maintained by State Street or MassMutual as selected by the trustee of the Plan.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 5 years of credited service.

Notes Receivable from Participants - Participants are permitted to borrow a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are limited to two at any given time. The loans are payable in their entirety upon the occurrence of a distributable event and bear interest at a rate of prime plus 1%. Principal and interest is paid ratably through monthly payroll deductions

Payment of Benefits - On termination of service, a participant may elect to receive either a lump-sum amount or annual installments equal to the value of the participant's vested interest in his or her account. Participants may withdraw any part of their vested account which does not result from discretionary contributions after reaching the age of 65. The Plan allows for participants to receive benefits in cases of hardship.

Forfeitures - Forfeited balances of terminated participants' non-vested accounts are used to reduce the administrative expenses. There were no forfeitures for the year ended December 31, 2015.

MB HEALTHCARE 401(K) PROFIT SHARING PLAN
Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements have been prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for full benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, except for its investment contract which is valued at contract value (Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirement to measure fully benefit responsive investment contracts (FBRIC) at fair value and present related fair value measurement disclosures, and allows FBRIC to be reported at contract value. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Part I and Part II. The adoption had no effect on the change in net assets as previously reported.

Notes Receivable from Participants - Loans to participants are classified as notes receivables from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses - The quarterly administrative fees for the Plan are paid for by the Plan. The Company pays the annual audit fee and also provides certain administrative services to the Plan, at no cost to the Plan. These expenses are excluded from the financial statements.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through the date of the report which is the date these financial statements were available to be issued.

MB HEALTHCARE 401(K) PROFIT SHARING PLAN
Notes to Financial Statements

Note 3. Investment Contract with Insurance Company

The Plan has an investment contract through MassMutual Financial Group (MassMutual). MassMutual maintains the contributions in their general account. The account is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by MassMutual. Because the guaranteed investment account is fully benefit-responsive and directly held, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment account. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. The guaranteed investment account balance at December 31, 2015 was \$312,450. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The group annuity contract held by the Plan is a guaranteed investment account. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 4 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code,
2. Premature termination of the contracts,
3. Plan termination or merger,
4. Changes to the Plan's prohibition on competing investment options,
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines,
2. A breach of material obligation under the contract,
3. A material misrepresentation,
4. A material amendment to the agreements without the consent of the issuer.

MB HEALTHCARE 401(K) PROFIT SHARING PLAN
Notes to Financial Statements

Note 4. Information Prepared and Certified by the Trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	<u>2015</u>
Investments, at fair value	\$ 1,948,294
Notes receivable from participants	\$ 192,028
Net investment loss	\$ (89,981)

Note 5. Fair Value Measurements

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Separate Investment Accounts - Valued at the daily closing price as reported by the fund. Separate investment accounts held by the Plan are privately managed investment accounts opened through a brokerage for financial advisor that uses pooled money to buy individual assets. The separate investment accounts held by the Plan are deemed to be actively traded (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are summarized below as of:

		<u>December 31, 2015</u>
	<u>Level 2</u>	<u>Total</u>
Separate investment accounts	\$ 1,635,844	\$ 1,635,844

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in Company contributions, regardless of length of service.

MB HEALTHCARE 401(K) PROFIT SHARING PLAN
Notes to Financial Statements

Note 7. Tax Status

The Plan has adopted a Volume Submitter agreement for the DATAIR 401(k) Profit Sharing Plan and Trust. The IRS has determined and informed DATAIR by letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The effective date of the MB Healthcare 401(k) plan is January 1, 2015 per the adoption agreement. Although the Plan has been amended since receiving the advisory opinion letter, the plan administrator and the plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Rollover and Transfer Contributions

Effective January 1, 2015 MB Healthcare 401(k) Profit Sharing Plan adopted a Volume Submitter agreement for the DATAIR 401(k) Profit Sharing Plan and Trust. Employees of the Greenwich Woods Rehabilitation Center, LLC, plan sponsor, previously participating in the Transcon Builders Inc. Employee Profit Sharing 401(k) Plan were provided with the option to have their account balance rolled into any qualified plan (including the Plan) or IRA. Transfers of \$1,218,868 and rollovers of \$645,577 were rolled into the Plan during the year ended December 31, 2015 and are included in rollovers and transfers on the statement of changes in net assets available for benefits.

Note 9. Party-In-Interest Transactions

Fees paid by the Plan for investment management services amounted to \$6,622 for the year ended December 31, 2015.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Certain employee contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2015.

Certain employee contributions were not remitted to the Plan based on the definitions described in the plan document thus constituting an operational failure between the Plan and the plan terms for the year ended December 31, 2015. The discrepancy totaled \$40,515 during the 2015 plan year. Discrepancies continue to be corrected after the year ended December 31, 2015.
