Participants are automatically enrolled in the Plan upon meeting eligibility requirements and may contribute a percentage of their annual pretax compensation, up to 100%, to the Plan, subject to certain limitations. Participants may also contribute (or rollover) amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches 100% of each participant's pretax contributions up to 3% of their compensation and 18% of the next 3% (maximum 3.54% match). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions subject to IRC limits. The Company may make an additional match contribution, at its discretion..

Participants' accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, an allocation of Plan earnings or losses, and charged with an allocation of certain administrative expenses, as applicable. Allocation of Plan earnings and losses are based on a participant's account balance in the various investment options as a percentage of the total of the participants' account balances or on the change in fair value of the individual units held in the Plan's investments. Investment income or losses are applied daily.

Vesting

Participants are immediately vested in their contributions and actual earnings or losses thereon. Pursuant to QACA safe harbor requirements, the Company's matching contributions and related earnings or losses thereon vest 100% after two years of credited service.

Note 1 - Description of Plan - (Continued)

Payment of benefits
The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount or annual installments over a ten year period. Upon termination of service for other reasons, the participant must receive their vested account balance as a lump-sum distribution.

Forfeitures
Forfeitures of terminated participants' non-vested account balances are used to reduce either Administrative expenses or Employer contributions at the discretion of the plan administrator. As of December 31, 2015, and 2014, forfeited non-vested amounts totaled approximately $5,000 for each year, respectively. During the year ended December 31, 2015, the Plan utilized forfeitures to pay Plan expenses, totaling $1,838.

Investment options
Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. The participants can also invest in a stable return fund.

Administrative expenses
Plan administrative expenses, with certain exceptions, are paid by the Plan. Administrative expenses cover the routine expenses for services of lawyers, accountants, third party administrators, and other advisors. Certain Plan investments are shares of mutual funds managed by affiliates of the Trustee. Certain fees paid to the Trustee for investment management services are incorporated into the expense ratios of the Plan's individual funds and paid directly from fund earnings, thus impacting earnings allocations to participants' accounts.

The Plan's agreement with the Trustee allows the Trustee to receive and retain earnings (i.e. float income) on funds received or credited to the Plan's account before they are invested, allocated, or applied in accordance with the Plan's instruction or on funds withdrawn, collected, or deducted from the Plan's account before actual disbursements are made to recipients. Float income is credited at institutional money market rates. The Plan's Trustee is further compensated through a revenue sharing agreement, in which it receives 38 basis points of Plan earnings.

Participant hardship loans
In the event of financial hardship, participants may borrow from their fund accounts a minimum of $1,000 up to an amount equal to the lesser of $50,000 or 50% of their vested account balance through hardship loans. Loan terms may not exceed five years unless the loan is for the purchase of a primary residence. Loans are collateralized by the remaining balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. A participant may not have more than two loans outstanding at any time.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with US GAAP and present the Plan's net assets available for benefits and changes in those net assets.

Use of estimates
The preparation of financial statements in conformity with US GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances.

Investment, participant loan valuation, and income recognition
Investments are stated at fair value. Fair value is measured at the net asset value of shares held by the Plan at year end as determined by open market prices. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's net gains and losses for investments purchased and sold during the year as well as held at year end.

At December 31, 2015 and 2014, the Plan held an investment in the Wells Fargo Stable Return Fund N60 (Fund). The Fund invests in a diversified portfolio of investment contracts and the associated portfolio of underlying assets. The estimated fair value of the Fund is based on the underlying unit value of investments held, as reported by the investment issuer. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in this fund at contract value. Therefore, contract value is the relevant measurement attribute for this investment. Contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals and expenses.

Participant loans are stated at their unpaid principal balances plus any accrued and unpaid interest.

Payment of benefits
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Adoption of new accounting rules

In May of 2015, the Financial Accounting Standards Board (FASB) issued new guidance that exempts investments measured using net asset value (NAV) practical expedient from categorization within the fair value hierarchy. The new guidance is effective for fiscal years beginning after December 15, 2015, and must be applied retrospectively to all periods presented. The guidance permits earlier application, which the Plan elected as of the start of the 2015 Plan year. The adoption did not have a material impact on the Plan's financial statements.

In July of 2015, the FASB issued a new three-part standard that simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts (Part I) and plan investment disclosures (Part II), and provides for a measurement-date practical expedient (Part III). Parts I and II are effective for Plan years beginning after December 15, 2015 and should be applied retrospectively with early adoption permitted. Part III of this standard is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Earlier application of any or all of the three parts is permitted. Management elected to early adopt Part II of this guidance at the start of the 2015 Plan year. Consequently, disclosure of individual investments comprising five percent or more of net assets available for benefits, net appreciation or depreciation for these investments by general type in the table of net assets by asset category, and disaggregation of investments by nature, characteristics, and risk in the fair value hierarchy table, have been eliminated. Parts I and III are not applicable to the Plan's financial statements.

Note 3 - Fair Value Measurements

U.S. GAAP defines fair value, establishes a framework for measuring fair value, and defines required disclosures about fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and lowest priority to unobservable inputs (level 3 inputs). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations in which all significant input and significant value drivers are observable in active markets.

Level 3: Valuations with one or more unobservable significant inputs that reflect the reporting entity's own assumptions.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time, and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Note 3 - Fair Value Measurements - (Continued)

At December 31, 2015 and 2014, Plan investments are held in mutual funds and a fully-benefit responsive stable return fund. The fair value of mutual funds is based on the quoted market prices in the active markets in which they are traded. The estimated fair value of the stable return fund is based on the underlying unit value of investments held, as reported by the investment issuer. There have been no changes in the methodology used to measure fair value at December 31, 2015 and 2014.

The following table presents the Plan's fair value hierarchy for those assets measured at fair value as of December 31, 2015:

Asset classification	Total	Level 1	Level 2	Level 3
Mutual funds	$ 5,245,544	$ 5,245,544	$ -	$ -
Total mutual funds	**5,245,544**	**5,245,544**	**-**	**-**
Stable return fund	120,078			
Investments, at fair value	$ **5,365,622**			

The following table presents the Plan's fair value hierarchy for those assets measured at fair value as of December 31, 2014:

Asset classification	Total	Level 1	Level 2	Level 3
Mutual funds	$ 4,958,384	$ 4,958,384	$ -	$ -
Total mutual funds	**4,958,384**	**4,958,384**	**-**	**-**
Stable return fund	186,298			
Investments, at fair value	$ **5,144,682**			

Note 4 - Information Prepared and Certified by the Plan Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. The Trustee has certified that the following investment information and related activity included in the accompanying financial statements is complete and accurate as of and for the year ended December 31:

	2015	2014
Investments, at fair value:		
Mutual funds	$ 5,245,544	$ 4,958,384
Stable return fund	120,078	186,298
Receivables:		
Participant loans	88,684	97,559
Income:		
Net depreciation in fair value of investments	$ (401,122)	
Interest and dividends	311,146	
Interest on participant loans	3,951	

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 6 - Income Tax Status

The Employer adopted a prototype plan sponsored by the Trustee which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. The Plan has been amended and restated since adoption of the prototype document. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

During the 2015 Plan year, the plan administrator became aware of certain operational defects involving hardship distributions which require correction under the appropriate regulatory correction program. The plan administrator and plan management intend to correct the defects as prescribed by law and to take all measures necessary to protect the tax preferred status of the Plan.

Note 7 - Party-in-Interest Transactions

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted on behalf of the Plan by the Trustee and its affiliates, and the Company, including fund fees and revenue sharing arrangements, qualify as party-in-interest transactions.

Note 8 – Reconciliation of Financial Statements to Form 5500

The following information reconciles net assets available for benefits and changes in net assets available for benefits per the Form 5500 to the financial statements for the indicated year:

	2015	2014
Net assets available for benefits per the financial statements	$ 5,494,267	$ 5,284,795

Decrease in contributions receivable	2,593

Note 9 - Subsequent Events

Management evaluated subsequent events or transactions that occurred after December 31, 2015, through October 17, 2016 the date the financial statements were available to be issued.
