Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, I am not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by the Charles Schwab Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. I have been informed by the plan administrator that the custodian holds the Plan's investment assets

and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

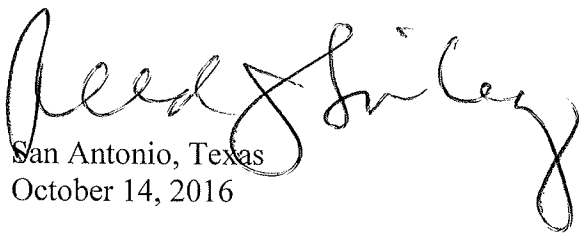

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, I do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, line 4i – Schedule of Assets Held for Investment Purposes at End of Year as of or for the year ended December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis of Disclaimer of Opinion paragraph, I do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SOUTH TEXAS RADIOLOGY GROUP
PROFIT SHARING PLAN AND TRUST
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

Note 1 - Description of the Plan

The following description of South Texas Radiology Group Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General

The Plan is a defined contribution plan which covers substantially all employees of South Texas Radiology Group (the "Company"). Employees become eligible to participate after 3 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to contribute 100% of their pretax annual compensation as defined in the Plan, not to exceed $1,600 per payroll period. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes matching contributions to the Plan of 100% of the first 3% of employee contributions, plus 50% of the next 2% of employee contributions, for a total employer match not to exceed 4%. Additional employer matching profit sharing amounts may be contributed at the discretion of the Company's Board of Directors and are determined annually. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, and Company's profit sharing contribution, as well as an allocation of net earnings based on participant's investments. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, the related earnings, employer safe harbor contributions, and rollovers participants make to their accounts. Vesting in profit sharing contributions plus earnings is based on years of service. Participants vest in profit sharing contributions, plus earnings, as follows:

Note 1 - Description of the Plan (continued)

Years of Service	Percentage Vested
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

The Plan allows participants to borrow up to maximum of $50,000 or 50% of their vested account balance, whichever is less, for the purchase of a primary residence. No other participant loans are permitted. The loans are secured by the balance in the participant's account and bear interest at various rates, which are commensurate with local prevailing rates as determined by the custodian. Principal and interest are paid through payroll deductions.

Payment of Benefits

On termination of service for any reason, a participant may elect to receive an amount equal to the value of the participant's vested balance in the form of a lump-sum distribution or installment payments. Participants become 100% vested in the event of death, disability, or retirement. Hardship withdrawals are also available subject to certain limitations. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $42,851 and $27,450, respectively. Forfeitures of non-vested matching contributions are used to reduce the Company's matching contribution. Forfeitures of non-vested profit sharing contributions are also used to reduce the Company's matching contribution and, if no matching contribution is made, added to the employer's profit sharing contribution. During 2015 and 2014, employer contributions were reduced by $51,551 and $156,198 respectively, by applying forfeited, nonvested accounts to Company obligations.

Expenses of the Plan

Expenses incurred in the administration of the Plan are paid by the Plan. The Company paid certain other administrative expenses of the Plan, and the Plan is under no obligation to repay the Company for those amounts; therefore, no liability has been recorded.

Note 1 - Description of the Plan (continued)

Investment Options

Upon enrollment in the Plan, participants may direct employee contributions in any of the designated investment options with the Charles Schwab Trust Company. Participants should refer to the Plan document for a complete listing of investment options. Participants may change their investment options at their discretion in accordance with the Plan's provisions.

Note 2 - Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan holds investments in stable value funds which are common collective trusts. Charles Schwab Trust Company invests in fully benefit-responsive investment contracts issued by insurance companies and other financial institutions. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 2 - Significant Accounting Policies (continued)

Net appreciation and depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note 3 – Fair Value Measurements

ASC 820-10 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Fair Value Measurements – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Note 3 – Fair Value Measurements (continued)

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: The Plan holds shares in Common / Collective Trusts ("CCTs") that have investments in fully benefit-responsive investments contracts. For purposes of the Statements of Net Assets Available for Benefits, the CCTs are stated at fair value with an adjustment to contract value, rather than contract value, to the extent it is fully benefit-responsive. The CCTs represent investments with various investment managers. Units held in the CCTs are valued at the unit value as reported by the investment managers, with the exception of the CCTs holding fully benefit-responsive investment contracts. The fair value of such investment contracts held by the CCTs is determined using the market price of the underlying securities and the value of the investment contract, as determined by the trustee.

Self-Directed Brokerage Accounts: Value is based on the underlying investments.

Cash Equivalents: The carrying amounts reported in the financial statements approximate their fair values because of the short maturities of those investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014:

Note 4 - Information Certified by the Charles Schwab Trust Company

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Charles Schwab Trust Company ("Schwab"), except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule. The following table presents the fair value of participant-directed investments in this Plan that was certified by Schwab as complete and accurate. Single investments that represent 5% or more of the Plan's assets available for benefits as of December 31, 2015 and 2014 are separately identified below:

	December 31,

Note 4 - Information Certified by the Charles Schwab Trust Company (continued)

During 2015 and 2014, the Plan's investments appreciated or depreciated in value as follows:

Note 5 - Stable Value Fund

The Plan offers, as an investment option, a benefit-responsive stable value fund with Schwab. Schwab maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. As described in Note 2, because the stable value fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Interest rates are reviewed on a regular basis for resetting purposes. Certain events, such as the following, limit the ability of the Plan to transact at contract value with the issuer: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring. The stable value fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5 - Stable Value Fund (Continued)

The average yield earned by the entire fund for the fully benefit-responsive investment contracts was 1.83% and 1.40% for calendar years 2015 and 2014, respectively. The average yield earned by the entire fund with an adjustment to reflect the actual interest rate credited to participants was 1.79% and 1.64%, for calendar years 2015 and 2014 respectively.

Note 6 - Related Party Transaction

Certain plan investments are managed by Schwab. Schwab is the custodian as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions. Fees paid by the Plan for investment management and other services totaled $36,727 and $33,066 for the years ended December 31, 2015 and 2014.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed Charles Schwab Trust Company, the Plan prototype sponsor, by a letter dated May 23, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. The Plan relies on Schwab's determination letter. The Plan is a prototype plan and an individual determination letter is not considered necessary. GAAP requires the Plan's management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Company has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Department of Labor or the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014.

Note 9 – Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the net income per Form 5500 for the years ended December 31, 2015 and 2014.

Increase (decrease) in net assets per financial statements	$ (3,727,763)	$ 4,394,038

Plus: Rounding	-	(1)
Net income (loss) per Form 5500	$ (3,756,573)	$ 4,408,350

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 – Reclassifications

Certain amounts in the financial statements for the year ended December 31, 2014 have been reclassified to conform to the presentation for the year ended December 31, 2015. These reclassifications had no effect on the change in Plan assets.

Note 12 – Subsequent Events

The Plan's management has evaluated events and transactions subsequent to December 31, 2015 for potential recognition or disclosure in the financial statements. The Plan did not have subsequent events that required recognition or disclosure in the financial statements for the year ended December 31, 2015. Subsequent events have been evaluated through the date the financial statements became available to be issued, October 14, 2016.

Note 13 – New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The ASU impacts reporting entities that measures an investment's fair value using the net asset value ("NAV") per share (or an equivalent) practical expedient, and eliminates the requirement to classify investments for which fair value is measured using the NAV per share practical expedient within the fair value hierarchy. In addition, the ASU removes the requirement to make certain disclosures for investments eligible to be assessed at fair value with the net asset value per share practical expedient. The new guidance is effective for reporting periods beginning after December 15, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965).* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts but will continue to require certain disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investments-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts III is not applicable to the Plan.
