Note 1. Description of Plan

The following description of the Marketon, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1998 to qualify as a defined contribution plan for eligible employees of Marketon, Inc. and its related affiliates (the "Company" or "Employer"). The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was amended and restated January 1, 2015.

Participant Eligibility

Each of the Company's employees is eligible to participate in the Plan upon attaining the age of 21 and completion of 1 year of service provided that the employee completes at least 1,000 hours of service. An eligible participant may enter the Plan on the first date of the first month of the Plan year or first day of the seventh month of the Plan year.

Contributions

The Company's eligible employees may contribute up 100% of their compensation each year on a pre-tax basis by salary reduction, not to exceed the amount allowable under IRC limitations. In addition, the Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participant's elective deferrals. The Company did not elect to make a matching contribution for the year ended December 31, 2015.

Participants direct the investment of all contributions to their accounts into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Note 1. Description of Plan (continued)

Vesting

Participants are 100% vested in their salary deferral contributions, rollover contributions and qualified nonelective contributions plus actual earnings thereon. Effective January 1, 2006, the Plan elected to be a Safe Harbor Plan according to IRC regulations. As a result, participants became 100% vested in their Company safe harbor matching contribution account for any contributions made from January 1, 2006 through December 11, 2009. Effective December 11, 2009, the Company discontinued its safe harbor matching contributions to all participants. For Company contributions made prior to January 1, 2006 and Company contributions made subsequent to December 11, 2009, each participant's interest in their Company contribution and related earnings are vested as follows:

Years of Vesting Service	Vested Percentage
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contributions and earnings on those contributions may be used to pay Plan level administrative expenses or to reduce future Company contributions. As of December 31, 2015 and 2014, there were approximately $600 and $8,000, respectively, of forfeitures available. During the year ended December 31, 2015, the Plan used approximately $10,800 of forfeitures to pay administrative expenses.

Benefit Payments

Retired or terminated participants receive the vested portion of their Company contributions and earnings on their Company contributions and one hundred percent (100%) of their pre-tax contributions as soon as administratively possible following retirement, death, termination or upon becoming disabled.

Contribution Funding

The Company funds its participant contributions and Company matching contributions, if any, to the Plan on a biweekly basis concurrent with each pay period.

Note 1. Description of Plan (continued)

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant's accounts and are included in administration expenses. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts. Investment related expenses are included in net appreciation (depreciation) of fair value investments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Revenue Recognition

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is accrued as earned.

Subsequent Events

Subsequent events have been evaluated through October 14, 2016, the date the financial statements were available for issuance.

Note 2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Recent Accounting Policies

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient)*. ASU No. 2015-12 has three parts. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts; Part II eliminates the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Additionally, investment strategies are not required for direct filing entities and the self-directed brokerage accounts may be presented as a single line item. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning after December 15, 2015 with early adoption allowed. Management has elected to early adopt ASU 2015-12 Parts I and II. Part III is not applicable to the Plan. Prior period amounts have been reclassified to reflect the revised presentation. There was no material impact to the Plan's financial statements.

In May 2015, the FASB issued Accounting Standards Update ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 removes the requirement to include all investments in the fair value hierarchy for which the fair value is measured at net asset value (NAV) per share using the practical expedient, under Fair Value Measurements and Disclosures (Topic 820). ASU No. 2015-07 is effective for nonpublic business entities for annual reporting periods beginning after December 15, 2016. Management does not expect adopting ASU 2015-07 will have a material impact on the Plan's financial statements.

Note 3. Investments

Pooled Separate Accounts

The Plan participates in a contract with Hartford Life Insurance Company ("Hartford") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Hartford holds these assets in trust for the participating plans.

Note 4. Information Certified by the Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the agent on behalf of Hartford Life Insurance Company, the investment contract issuer of the Plan, as complete and accurate, except for comparing such information certified an investment contract issuer and the trustee to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	December 31,	
	2015	**2014**
Pooled separate accounts	$ 845,498	$ 887,672

b) Investment loss

	Year Ended December 31, 2015
Net depreciation in fair value of investments	$ (9,448)

c) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held at End of Year)*

**Except for the notes receivable from participants, which are not certified by the agent of the investment contract issuer. The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") as a practical expedient provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (continued)

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2015 and 2014:

December 31, 2015	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ ---	$ 845,498	$ ---	$ 845,498
Total investments measured at fair value	$ ---	$ 845,498	$ ---	$ 845,498

December 31, 2014	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ ---	$ 887,672	$ ---	$ 887,672

Contributions received from participants for the plan year ended December 31, 2015 and 2014 include $631 and $348, respectively, of excess contributions (net of corresponding gains and losses) that were distributed in the subsequent year to certain active participants. The excess deferral contributions, originally contributed during the years ended December 31, 2015 and 2014, were returned to comply with the participants' applicable maximum annual contributions permitted under the IRC. The amounts are included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2015 and 2014.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Tax Status

The Company has adopted a standardized prototype plan which received a favorable opinion letter dated March 31, 2014 from the Internal Revenue Service which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Company and the plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each participant shall be fully vested and non-forfeitable at the time of termination.

Note 10. Party-In-Interest Transactions

Certain Plan investments are units in pooled separate accounts which are managed by Hartford Life Insurance Company. Hartford Life Insurance Company is the investment contract issuer as defined by the Plan. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Hartford Life Insurance Company, other investment custodians and investment advisors.

Additionally, as noted in Note 1, certain administrative expenses are paid directly to Mass Mutual Life Insurance Company, agent for Hartford Life Insurance Company, and are included in administrative expenses. Additionally, fees may be paid to certain service providers that are considered parties-in-interest under ERISA, and these fees are included in administrative expenses.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.
