Century Aluminum 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following description of Century Aluminum 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective October 1, 2015, the Century Aluminum Sebree 401(k) Plan and the Century Aluminum of West Virginia, Inc./United Steel Workers of America Savings Plan merged into the Plan. Accordingly, all participant account balances were transferred to the Plan as of that date.

General - The Plan is a defined contribution plan established on June 1, 1989. The Plan covers all employees of Century Aluminum Company, Century Aluminum of West Virginia, Inc. (West Virginia) including those who are represented by the United Steelworkers of America Local 5668, Century Aluminum Sebree, LLC (Sebree), Century Aluminum of Kentucky General Partnership (Kentucky), and Century Aluminum of South Carolina, Inc. (collectively the "Company"), except for leased employees and temporary employees who have not completed one year of service. In addition, no collectively bargained employees are eligible for employer matching and nonelective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) deferral contributions up to a maximum of 100 percent of annual compensation. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. The amount of a participant's contributions for any plan year may not exceed the applicable limit under the Internal Revenue Code.

Effective January 1, 2015, on behalf of nonunion employees who were eligible to participate in the Plan on or after January 1, 2015 or nonunion employees who were eligible to participate in the Plan prior to January 1, 2015 and are not accruing benefits in the Century Aluminum Retirement Plan, the Company made matching contributions for participants equal to 100 percent of the first 6 percent of the participant's contribution. On behalf of employees who were eligible to participate in the Plan before January 1, 2015 and who are accruing benefits in the Century Aluminum Retirement Plan, the Company made matching contributions for participants equal to 100 percent on the first 4 percent and 50 percent on the next 2 percent of a participant's contribution. Employer matching contributions amounted to \$3,430,348 for the year ended December 31, 2015.

Note 1 - Plan Description (Continued)

Effective January 1, 2015, on behalf of nonunion employees who were eligible or were rehired and resumed eligibility on or after January 1, 2015 other than employees working at the locations operated by Century Aluminum of South Carolina, Inc, who are continuing to accrue benefits in the Century Aluminum of South Carolina Inc. Employees Retirement Plan or its successor plan, the Company made a nonelective employer contribution equal to 100 percent on the first three percent of the participant's compensation. On behalf of nonunion employees who were eligible before January 1, 2015 and are not accruing benefits in the Century Aluminum Employees Retirement Plan, the Company made a nonelective contribution equal to 100 percent of the first 6 percent of compensation. Nonelective contributions amounted to \$1,182,230 for the year ended December 31, 2015.

Vesting - Participants are immediately 100 percent vested in employee salary deferral, employee rollover, and employer matching contributions and any income or loss thereon. Nonelective contributions made by the Company prior to January 1, 2015, and thus prior to the aforementioned plan merger, vest based on years of service. Participants vest in such contributions 33 1/3 percent after each year of service until they become fully vested after three years of service. Nonelective contributions made by the Company subsequent to January 1, 2015 are immediately 100 percent vested.

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Participant Accounts - Each participant's account is credited with participant contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Effective April 1, 2010, the Plan was amended to eliminate Century Aluminum Company common stock as an investment election option. Any existing investments in Century Aluminum Company common stock will remain unless directed otherwise by the participant.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment. The Plan provides for normal retirement at age 62. In-service withdrawals are also allowed for employees who have reached the age of 59½. The total vested portion of a participant's account balance is generally paid in the form of a lump-sum amount.

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, with the exception of prior nonelective contributions as defined by the plan agreement. The notes receivable are secured by the balance in the participant's account and bear interest at a rate in effect on the date of the loan, which is commensurate with local prevailing rates as determined periodically by the plan administrator. Loan terms generally range from one to five years. Loans for the purchase of a principal residence can be repaid over a reasonable period of time, which may exceed five years. Principal and interest are paid ratably through payroll deductions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company (the "Trustee") or its affiliates. T. Rowe Price Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. In addition, the Plan has investments in the common stock of Century Aluminum Company, a plan sponsor. Therefore, any transactions relating to the common stock qualify as exempt party-in-interest transactions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. In the event the Plan terminates, the participants remain fully vested in their accounts and all balances will be distributed in the form and manner determined by the plan administrator.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value.

The common collective trust fund is valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on this investment. All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements - During 2015, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Part II of ASU No. 2015-12 was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Change in Presentation - The presentation of the stable value common collective trust for 2014 has been changed to be consistent with the 2015 presentation. The fund is presented using net asset value (NAV) per unit as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board, and had no effect on total net assets available for benefits or the change in net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 11, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
