1. DESCRIPTION OF THE PLAN

The following description of The Options Clearing Corporation Retirement Savings Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan.

General — The Plan, which became effective January 1, 1984, is a defined contribution plan offered to eligible employees of The Options Clearing Corporation (the "Corporation") who elect to participate in the Plan. Eligible employees consist of all employees of the Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Fidelity Management Trust Company (the "Trustee") serves as Trustee of the Plan's assets. The Plan is administered by an administrative committee appointed by the Board of Directors of the Corporation.

Profit Sharing — To be eligible for the profit-sharing contribution, an employee must be employed on December 31 of a calendar year and work at least 1,000 hours in the Plan year. The employer contribution percentage for this profit-sharing component is awarded upon board of director's approval and will be allocated based upon an individual's compensation; however, in no event shall the profit-sharing contribution be less than 2% of a participant's compensation. For the year ended December 31, 2015, the Corporation awarded a gross profit-sharing contribution of $3,403,126 (less $106,794 of forfeitures applied), paid in 2016, which is recorded as a contribution receivable in the statement of net assets available for benefits. The Corporation also awarded a profit-sharing contribution of $229,796 to the Defined Contribution Executive Retirement Savings Plan ("DC SERP" Plan) in September 2016 for the 2015 Plan year. The DC SERP Plan delivers profit sharing contributions that cannot be provided via the Plan due to IRS limits on pay and benefits.

Contributions — Each year, participants may elect to have their pretax annual compensation, as defined in the Plan, reduced up to 60%. This amount, subject to Internal Revenue Code ("IRC") limitations, is then paid into the Plan by the Corporation on behalf of the participant. Participants may also elect a Roth deferral contribution to the Plan; this is an after-tax contribution. The Corporation also makes a matching contribution of 50% of contributions up to a maximum of 6% of participant compensation. Participants may also roll over amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investment Funds — Contributions are invested at the participants' direction in various investment options offered by the Plan. Participants can change their investment elections at any time and the change will go into effect at the beginning of the subsequent payroll period. Deposits allocated to a specific fund are commingled with those of other participants and are invested in accordance with the nature of the specific fund. Pending such investment, the Trustee is authorized to invest in short-term investments.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Corporation's matching contribution, allocations of participant forfeitures, the Corporation's profit-sharing contributions, and Plan earnings, and charged with withdrawals (if any), an allocation of Plan losses, and certain administrative expenses.

Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting — A participant's vesting service is the total number of years and fractional years of employment with the Corporation as determined in accordance with rules established in the Plan document. Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting related to the matching and profit sharing contributions is based on years of service as follows:

Years of Service	Percentage Vested
Less than 2	- %
2	25
3	50
4	75
Greater than 5	100

Notes Receivable from Participants — Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of either $50,000 or 50% of their account balance. Notes receivable transactions are treated as a transfer between the investment fund and notes receivable fund. Notes receivable are secured by the participants' vested account balance and bear interest at the prevailing prime rate plus market rate adjustment determined at the time the loans are made in accordance with the terms in the Plan document. Participants are not permitted to borrow from their profit-sharing contribution account. Payments of notes receivable principal, plus interest are paid ratably through payroll deductions.

Payment of Benefits — Account balances are payable in a lump-sum amount upon retirement, disability, death, resignation, or dismissal.

Forfeited Accounts — Forfeited allocations may be used both to reduce the Corporation's profit-sharing contributions and to allocate to participants. Current year's forfeitures from participants' profit-sharing accounts reduce the Corporation's profit-sharing contribution for that year. Forfeitures from participant's profit-sharing accounts reduced the Corporation's 2015 profit-sharing contributions (Note 1, *Profit Sharing*) by $106,794. Forfeitures from participant matching accounts may be reallocated to participants in the year subsequent to forfeiture. Unused forfeitures as of December 31, 2015 of $120,794 and unused forfeitures as of December 21, 2014 of $27,177 were not reallocated to participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Although these estimates and assumptions are based on the best available information, actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in various investment instruments, including mutual funds and common collective trusts. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the value of the participants' accounts and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices.

The Wells Fargo Stable Return Fund C ("Fund") is the collective trust stable value fund held by the Plan at December 31, 2015 and 2014, that is managed by Wells Fargo Bank for employee benefit plans. The Fund has invested all of its assets in the Wells Fargo Stable Return Fund G ("Fund G"). Fund G primarily invests in investments issued by insurance companies and financial institutions, including guaranteed investment contracts, bank investment contracts, and security-backed contracts. The strategy of Fund G is to provide investors with a moderate level of stable income without principal volatility. The fair value of Fund G is the net asset value ("NAV") of its holdings at year-end. Units are redeemed and issued daily at Fund G's NAV. Distribution to the Fund's unitholders will be made at the NAV determined following receipt of written redemption instructions. The recorded appreciation in the Fund's fair value reflects the interest income earned by the Fund based on the returns provided by Fund G. There is no guarantee that the Fund will be able to maintain the NAV.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value is principal plus accrued interest. Certain events may limit these withdrawals or transfers at contract value, such as premature termination of the investment contract by the Plan, a termination of the Plan, establishment of a defined contribution plan that competes with the Plan for contributions, failure of the Plan to qualify under the applicable sections of the IRC, or substantive modifications to the Fund or the Fund's administration. The Plan believes that any events that would limit the ability of the stable value fund to transact at contract value with the participants in the Plan are not probable of occurring.

The Fund's crediting rates, and hence the return, may be affected by many factors, including purchases and redemptions by unitholders. The impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets at the time of those transactions. Crediting rates are reset quarterly.

The statements of net assets available for benefits presents the stable value fund at fair value as well as additional line item showing an adjustment of the fully benefit-responsive stable value fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for investments.

Administrative Expenses — Substantially all administrative expenses of the Plan are paid by the Corporation. Certain transaction fees are charged directly to participants.

Other Income — In the current year, the Plan received revenue credits back from the Plan's fund managers that are in excess of what was required to administer the Plan. The revenue credits were allocated to participant accounts.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2015 and 2014.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

New Accounting Standards — On May 1, 2015, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* ("ASU 2015-07"), which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, a Plan would be required to include those investments as a reconciling item so the total fair value of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. ASU No. 2015-07 is effective for the Plan year ending on January 31, 2017. The Plan has not yet determined the impact on its financial statements.

On July 31, 2015, the FASB issued ASU No. 2015-12, (Part 1) *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). The amendments in this ASU (1) require an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of plan investment disclosure requirements for employee benefit plans, and (3) provide employee benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer´s Defined Benefit Obligation and Plan Assets. ASU No. 2015-12 is effective for the Plan year ending on January 31, 2016. The Plan has not yet determined the impact on its financial statements.

3. FAIR VALUE MEASUREMENTS

Fair value represents the amount expected to be received to sell an asset or paid to transfer a liability in its principal or most advantageous market in an orderly transaction between market participants at the measurement date. In accordance with fair value accounting guidance, the Plan measures, records, and reports various types of assets at fair value in the Statements of Net Assets Available for Benefits.

Depending on the nature of the asset, the Corporation uses various valuation methodologies and assumptions to estimate fair value. GAAP provides a three-tiered fair value hierarchy based on the inputs used to measure fair value. The hierarchy is defined as follows:

- Level 1 - Quoted prices in active markets for identical assets.

- Level 2 - Observable inputs other than level 1 prices, such as quoted prices for similar instruments, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets. These inputs require significant management judgment or estimation.

Assets are assigned to a level within the fair value hierarchy based on the lowest level of significant input used to measure fair value. Assets may change levels within the fair value hierarchy due to market conditions or other circumstances. Those transfers are recognized at the end of the reporting period. There were no transfers of assets between levels of the fair value hierarchy during the periods presented.

The following describes the valuation techniques and inputs used for each major class of asset measured at fair value, including the level in the fair value hierarchy.

- Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price and are classified as level 1 in the fair value hierarchy.

- Common collective trust funds are valued at NAV on the last business day of the Plan's year end provided by the Trustee of the fund and are classified as level 2 in the fair value hierarchy. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding. The investment objective of the fund is to provide participants with a stable crediting rate, safety of principal plus accrued interest and minimize volatility.

The following tables show the Plan's assets carried at fair value by level in the fair value hierarchy:

	As of December 31, 2015

For the year ended December 31, 2015, there were no significant transfers in or out of Levels 1, 2, or 3.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination or partial termination of the Plan or discontinuance of contributions to the Plan, the affected participants become fully vested in their accounts.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Corporation by a letter, dated May 16, 2011, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Corporation and Plan administrator believe the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and other related affiliates, which are managed by Fidelity Management Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund.

7. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by the Trustee and furnished to the Plan administrator (Corporation). The Plan administrator has obtained certifications from the Trustee that the information is complete and accurate.

The contract value of the stable value fund was certified, however, as complete and accurate by the trustee.

All investment balances and investment information in the supplemental schedule are certified by the Trustee.
