AMG National 401(k) Plan

Notes to Financial Statements

December 31, 2015 (Audited) and 2014 (Compiled)

Note 1: Description of the Plan

The following description of AMG National 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by AMG National Corp. AMG National Trust Bank is a participating employer in the Plan. The Plan is sponsored for the benefit of the employees of AMG National Corp. and AMG National Trust Bank (the Companies) who have at least one year of service and are age 18 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). AMG National Corp. is the plan administrator. AMG National Trust Bank is the trustee and custodian of the Plan. Retirement Direct, LLC served as the Plan's record keeper through October 31, 2015 and EPIC Advisors, Inc. serves as the Plan's record keeper effective November 1, 2015.

Contributions

Participation in the Plan is available to any employee of the Companies who are age 21 or older and has completed 500 hours of service within a 12-month consecutive period. Plan provisions allow participants to defer up to 50% of their eligible compensation as contributions to the Plan. Companies' profit-sharing contributions are discretionary as determined by the Companies' Board of Directors. Employee rollover and after-tax (Roth) contributions are also permitted. During any taxable year, participant contributions are subject to a limitation imposed by the Internal Revenue Service.

Participant Investment Account Options

The Plan currently offers a variety of mutual funds as investment options for plan participants. The Plan also offers one money market fund as an investment option. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings or losses thereon. Vesting in the Companies' discretionary contribution portion of their accounts plus earnings or losses thereon is based on years of continuous service. A participant is fully vested after three years of continuous service. The nonvested balance is forfeited upon termination of service.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings with full or partial prepayments allowed. Interest on the loans is based on 2% above the prime interest rate as published from time to time in *USA Today*.

Payment of Benefits

Upon termination of service, an employee will receive a lump-sum amount equal to the value of his account, if it is less than $1,000. If the account balance exceeds $1,000 at the time of termination, the employee may receive the value of the vested interest in his or her account as a lump-sum distribution or defer payment until April 1 following the calendar year during which the participant attains age 70½. For terminations due to death, employee or their beneficiary may receive the balance in his or her account as a lump-sum distribution. Participants are eligible for benefits under the Plan upon death, disability, or retirement.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $12,839 and $385, respectively. Forfeitures are used to reduce Companies' contributions. Also, in 2015, employer contributions were not reduced by funds from forfeited nonvested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

AMG National 401(k) Plan

Notes to Financial Statements

December 31, 2015 (Audited) and 2014 (Compiled)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Common stocks and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. Corporate bonds are valued on the basis of yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less a discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings consistent with multiples of similar companies based on current market prices. Mutual funds and exchange traded funds are valued at the net asset value (NAV) of shares held by the plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Companies or the Plan at the Companies' discretion.

Note 3: Certification of Plan Custodian

The Companies have elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AMG National Trust Bank, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate to the best of their knowledge:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2015
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits and related disclosures for the year ended December 31, 2015
- Investment information and notes receivable included in the accompanying schedule of assets (held at year-end) as of December 31, 2015

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the 2015 financial statements and 2015 supplemental schedule.

Note 4: Change in Accounting Principle

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Participants pay loan fees to the Plan, which are then paid to the Plan Sponsor. In 2015 these fees totaled $2,685. The Companies pay additional administrative fees and also provides certain administrative services at no cost to the Plan.

Certain Plan investments are shares of Company stock, therefore, these transactions qualify as party-in-interest transactions. The custodian of the Plan is an affiliate of the plan sponsor and therefore also a party-in-interest.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2015 and 2014:

	2015			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 12,473,336	$ 12,473,336	$ -	$ -
AMG National Corp. stock	112,346	-	-	112,346
Investments at fair value	$ 12,585,682	$ 12,473,336	$ -	$ 112,346

	2014			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 12,361,704	$ 12,361,704	$ -	$ -
AMG National Corp. stock	93,363	-	-	93,363
Investments at fair value	$ 12,455,067	$ 12,361,704	$ -	$ 93,363

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2015 and 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Level 3 Valuation Process

Fair value determinations for Level 3 measurements of securities are the responsibility of the plan sponsor. The plan sponsor contracts with a pricing specialist to generate fair value estimates on an annual basis. The sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Investments
Balance, January 1, 2014	$ 66,633
Total realized and unrealized gains and losses	26,730
Purchases and issuances	-
Settlements and distributions	-
Transfers out of Level 3	-
Balance, December 31, 2014	93,363
Total realized and unrealized gains and losses	18,983
Purchases and issuances	-
Settlements and distributions	-
Transfers out of Level 3	-
Balance December 31, 2015	$ 112,346
Total net gains (losses) for the period included in change in net assets attributable to the change in unrealized gains and losses related to assets still held at the reporting date	
Year ended December 31, 2015	$ 18,983

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

December 31, 2015 (Audited) and 2014 (Compiled)

Note 8: Plan Termination

Although it has not expressed an intention to do so, the Companies have the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will remain 100% vested in their accounts.

Note 9: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan sponsored by AMG National Trust Bank. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
