The following description of FutureGuard (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 100% of the first 7% of compensation that a participant contributes to the Plan ("Matching Contributions"). Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts
Each participant's account is credited with the participant's contribution and applicable Company contributions. These contributions are used to purchase units in the Plan's investment options. Participant accounts reflect daily changes in the market value of the investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company Matching Contributions portion of their accounts is based on years of service. A participant becomes 100% vested in the Company Matching Contribution after two years of credited service.

Notes Receivable From Participants
Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at a time. The loans are collateralized by the balance in the participant's account and bear interest at 1.00% plus the prime rate in effect at the date of withdrawal. Principal and interest are paid ratably through payroll deductions. The notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest.

Benefits
Benefit payments to participants are recorded when paid. Upon termination, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest, installment payments or annuity payments. Amounts allocated to accounts of terminated participants who maintain a plan balance that has not been paid at December 31, 2015 and 2014 totaled $85,720,876 and $96,758,476, respectively. Benefits payable to participants who requested withdrawals but were unpaid as of December 31, 2015 were $0.

Forfeitures
Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts may be used to offset future Company contributions. Forfeitures of $457,533 were used to offset Company contributions during 2015. There were $7,133 of unallocated forfeitures as of December 31, 2015 which can be offset against future company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Accounting Standards
In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") No. 2015-12 "I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient." Under Part I of the update, fully benefit-responsive investment contracts are measured, presented and disclosed at contract value for defined contribution and health and welfare benefit plans. Part II of the update eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investment by general type.

Additionally, Part II requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investment in multiple ways. Part III of the update provides a practical expedient to permit plans to measure investment and investment-related accounting as of a month-end date that is closest to the plan's fiscal yearend, when the fiscal period does not coincide with a month-end.

The update is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan's financial statements reflect the adoption of Part I and Part II, including retrospective application, as allowed by the accounting standard. The adoption of the standard did not result in a material change to the presentation of the financial statements as a whole.

In May 2015, FASB issued ASU No. 2015-07 "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." For all investments for which fair value is measured using the net asset value per share practical expedient, ASU 2015-07 removes the requirement to make certain disclosures and to categorize them within the fair value hierarchy. These disclosure changes are required for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods. The Plan's financial statements reflect the early adoption, including retrospective application, as allowed by the accounting standard. The adoption of the standard did not result in a material change to the presentation of the financial statements as a whole.

Fully Benefit-Responsive Investment Contracts
As described in Financial Accounting Standards Board Codification Topic 946-210 ("ASC 946-210"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Shares in common collective trusts are valued at the net asset value ("NAV") of shares held by the Plan at year end. Shares in mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. All investments of the Plan are participant directed.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation/depreciation on those investments. Interest and dividend income are recorded as earned on an accrual basis.

Purchases and sales of investments are reflected on a trade-date basis. Payables and receivables for outstanding purchases and sales represent trades which have occurred but have not yet settled are recorded on the statements of net assets available for benefits. The basis on which cost is determined in computing realized gains or losses from sales or distributions of investments is average cost.

Administrative Expenses
The Company pays administrative expenses of the Plan, including trust management fees, investment advisory fees, legal fees and audit fees. Certain mutual fund expenses are paid by the Plan. Loan set up fees and Qualified Domestic Relations Order processing fees are paid directly by the participant.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. These significant estimates include the fair value of investments. Actual results could differ from these estimates.

Risks and Uncertainties
The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events
Subsequent events have been evaluated by the Plan through October 17, 2016, the date the financial statements were available to be issued. To the best of management's knowledge and belief, no events have occurred which would require adjustment to or disclosure in the aforementioned financials statements.

3. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total accounts. The Company has not expressed any intent to terminate the Plan or discontinue contributions.

4. Tax Status

The Company adopted a nonstandardized prototype plan and on May 23, 2008, the Internal Revenue Service stated in its Opinion Letter (the "IRS Opinion Letter") that the Plan, as then designed, qualifies under section 401(a) of the Internal Revenue Code (the "IRC") and that an employer that adopts this plan may rely on this letter with respect to the qualification of its plan under IRC section 401(a). The Plan has been amended since the effective date of the determination letter. While the Plan has not received a separate determination letter specific to the Plan itself, the Plan administrator and the Plan's tax counsel believe that the Plan, as required by the IRS Opinion Letter, was designed in accordance with all applicable requirements, and was being operated in compliance with all such applicable requirements of the IRC as well as with the terms of the Plan. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain tax positions that would require disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

5. Fair Value Measurements

Financial Accounting Standards Board Codification Topic 820, *Fair Value Measurements*, ("ASC 820") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan had no transfers of assets between levels within the fair value hierarchy during 2015 or 2014. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2015 and 2014.

Common Collective Trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV based on information reported by the investment advisor using the audited financial statements of the fund at year end. The NAV is used as a practical expedient to estimate fair value. Stable Value Fund contracts may be subject to penalties if they are terminated before their stated maturity if the purpose for termination is other than to obtain funds for ordinary participant benefit payments.

Retirement plans are required to provide 12 months advance notice to Charles Schwab Bank (the "Trustee") prior to redemption of trust units for purposes of investment changes made on a Plan level; the notice period may be shortened or waived by the Trustee. All plan sponsor-directed requests for full or partial withdrawals must be submitted to the Trustee in writing certifying the reason for the withdrawal request. Participants have no redemption restrictions. Unfunded commitments are not applicable. Plan sponsors are prohibited from intentionally and specifically advising participants, or releasing participant communication, that is intended to encourage participants to not contribute to the Stable Value Fund, or to withdraw part or all of their contributions.

Mutual Funds: Valued at fair value using quoted prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
