OnX 401(k) PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(1) Description of Plan

The following description of the OnX 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of OnX USA LLC (the Company). There are no service or age requirements of employees to participate in the Plan. Participation in the Plan for newly enrolled employees begins the first day of the month coinciding with or next following the date of hire. The Plan is subject to the provisions of Employee Retirement Income Security Act (ERISA).

In July 2015, the Company changed investment platforms for the Plan to Transamerica Life Insurance Company (TLIC). The new investments offered in the changed platform have lower expense ratios. In changing the platform, the Plan did a like-kind exchange, transferring assets in investments from the old platform to investments in the new platform.

(b) Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC). In addition to pretax deferrals, participants may make Roth contributions that are subject to federal income taxes in the year of deferral. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may make a discretionary matching contribution equal to a uniform percentage of each tier of employees' salary deferrals. Starting September 14, 2012, the Company contributed 50% of deferrals up to the first 2% and 25% of deferrals up to the next 4% of annual compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. During the year ended December 31, 2015, the Company did not make a profit sharing contribution to the Plan. Contributions are subject to certain IRC limitations.

(c) Participant accounts

Each participant's account is credited with the participant's contributions and Company's matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion is based on years of continuous service. A participant is 100% vested gradually over four years of credited service.

(e) Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through semimonthly payroll deductions.

(f) Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not exceeding participant's and participant's beneficiary assumed life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

(g) Forfeited accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$50,962 and \$18,060, respectively. These accounts will be used to reduce future employer contributions and offset administrative costs.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

(b) Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

OnX 401(k) PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(c) *Investment Valuation and Income Recognition*

Investments are reported at fair value, except for fully benefit responsive investment contracts, which were liquidated in 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) *Payment of Benefits*

Benefits are recorded when paid.

(f) *Expenses*

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

(3) *Information Certified by the Plan's Trustees*

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, TLIC as agent for Reliance Trust Company, the Trustee of the Plan have certified as being complete and accurate the investments on the statements of net assets available for benefits and the investment activity reflected in the statement of changes in net assets available for benefits as of December 31, 2015 and 2014 and for the year ended December 31, 2015, and the investment information included in the supplemental schedule of the financial statements as of December 31, 2015. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the Plan's Trustees for their respective periods.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820: *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Pooled separate accounts offered are proprietary to the Trustee of the Plan and invest in underlying investment vehicles – mutual funds traded on an established market, or common/collective trusts, or are portfolios of investments managed by investment managers. All of pooled separate accounts are valued daily using publicly available quoted market prices for the underlying investment vehicles.

Mutual Funds: Mutual funds traded on an established market and are valued daily using publicly available quoted market prices for the underlying investment vehicles.

Collective trust fund: The collective trust fund is a stable value fund and is valued daily at the net asset value of the units. The net asset value is used as a practical expedient to estimate fair value. This practical value would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. There are no unfunded commitments or redemption restrictions. This investment was liquidated in 2015.

There were no other significant transfers between levels in 2015 and 2014.

(5) Transamerica Group Annuity Contract

The Plan's investment in Transamerica Stable Value Advantage fund was liquidated in 2015. The Stable Value Option investment choices of Transamerica Group Annuity Contract are available as an investment option to the participants. The investment choices are fully benefit responsive and are reported at contract value.

The Stable Value Option investment choices are backed by the general account of TLIC or Transamerica Financial Life Insurance Company (TFLIC). While TLIC or TFLIC declare rates periodically and back the principal and interest of these investment choices, any guarantees are subject to the claims paying ability of the insurance company. This investment choice is not guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although plan participants generally may withdraw assets from the Stable Value Option investment choice without restrictions, TLIC or TFLIC may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

Assets in the Stable Value Option investment choices are commingled with assets in the general account, and there is no specific portfolio of assets in which the Stable Value Option investment choices invest. The credited interest rate is backed by the income received from assets held in the general account.

Prior to January 1 and July 1, the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate for the Stable Value Option investment choices. The Stable Value Option investment choices are not considered a guaranteed interest contract.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include:

1. Full or partial contract discontinuance
2. Plan termination
3. Bankruptcy of the Plan Sponsor or other plan sponsor events (e.g. divestitures or spinoffs) that significantly affect the Plan's normal operations
4. Significant decline in creditworthiness of Transamerica

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

The Plan's contract value in the Transamerica Stable Value Advantage fund totaled \$1,437,757 as of December 31, 2014.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax-exempt. In accordance with the Revenue Procedures 2011-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan advisory letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) Subsequent Events

There were no additional material subsequent events that required recognition or additional disclosure in these financial statements through October 17, 2016 the date these financial statements were available to be issued.
