SKB 401(K) PLAN

Notes to Financial Statements
December 31, 2015 and 2014

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of SKB 401(k) Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of SKB who have completed 1 year of service or 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants' contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer up 15% of the participants' eligible earnings. The Company may also make nonelective contributions in an amount set annually by the Company. For the years ended December 31, 2015 and 2014, no nonelective contributions were made.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's nonelective contribution and Plan earnings. Allocations are based upon participant wages, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Investments - Each participant directs the allocation of his or her contribution and employer nonelective contributions to one or more of 18 investment options.

Notes Receivable from Participants - The Plan allows participants to borrow from their fund accounts a minimum of $500 up to a maximum of 50% of their vested account balances up to $50,000. The loans are secured by the vested balance in the participant's account, and bear interest at rates that are commensurate with local prevailing rates, as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Forfeitures - Forfeitures of terminated participants' non-vested accounts stay within the plan and are used to offset the Plan's administrative expenses or to reduce employer contributions. Total forfeited non-vested accounts available to reduce future administrative expenses or employer contributions at December 31, 2015 and 2014 were $806 and $946, respectively. There were no forfeitures used to pay administrative expenses or employer contributions during the year ended December 31, 2015 and 2014.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts held in a common/collective trust (Note 3).

Investment Valuation and Income Recognition - Investments are measured at quoted prices in an active market and have been certified complete and accurate by State Street Bank and Trust Company, the Plan's trustee (Note 4). Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid both by the Plan and the Company.

December 31, 2015 and 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Plan management does not expect the provision of ASU 2015-07 to have a material impact on the financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*.

- Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts.

December 31, 2015 and 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements - (Continued)

- Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

- Part III of the ASU is not applicable to the Plan.

The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early and, accordingly, the presentation of the financial statements and notes herein have been changed to reflect such adoption.

Subsequent Events - The Plan evaluated subsequent events through October 6, 2016, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Note 3 continued on the following page)

SKB 401(K) PLAN

Notes to Financial Statements
(Continued)
December 31, 2015 and 2014

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Interest bearing cash: Valued at market value of corresponding currency at year end.

(Note 3 continued on the following page)

SKB 401(K) PLAN

Notes to Financial Statements
(Continued)
December 31, 2015 and 2014

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

Common/collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	*Level 2*	*Level 3*	*Total*

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

Common/collective trusts are valued at NAV which is based on the fair value of the underlying investments of the common/collective trust, less any liabilities. The underlying investments of the common/collective trusts are mainly equity and fixed income securities and short-term investments. The investment strategies of the Plan's common/collective trusts vary generally based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and investments in equity securities in domestic and international markets for growth and value objectives as well as to replicate market indexes and to invest in emerging markets. The Plan had no unfunded commitments related to common/collective trusts. The redemption of common/collective trusts are subject to the preference of individual Plan participants and contain no restrictions on the timing of redemption.

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.

- Net appreciation (depreciation) in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2015 and 2014.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of the termination.

SKB 401(K) PLAN

Notes to Financial Statements
(Continued)
December 31, 2015 and 2014

NOTE 6 - TAX STATUS

The Plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on July 8, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by State Street Global Advisors. State Street Global Advisors is an affiliate of State Street Bank and Trust Company, the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan Sponsor is also a party-in-interest with respect to the Plan. Notes receivable from participants and the related interest income are also considered related party transactions.
