Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Libbey Inc. Hourly Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 5, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2015 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2015 financial statements. Accordingly, we do not express an opinion on the 2015 financial statements.

Other Matter—2014 Financial Statements

The financial statements of the Plan as of December 31, 2014, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated October 2, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2015 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Libbey Inc. Hourly Retirement Plan

Notes to Financial Statements

December 31, 2015

1. Description of the Plan

The following description of the Libbey Inc. Hourly Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description or plan document for more complete information about the Plan, including the vesting and benefit provisions and the benefit guarantee of the Pension Benefit Guarantee Corporation (PBGC). Copies of these documents are available at the corporate office of Libbey Inc. (the Company, Plan Administrator, and Plan Sponsor).

General

The Plan is a defined benefit plan established to provide normal and early retirement, termination, and death benefits to full-time hourly employees. Effective December 16, 2008 for Shreveport and October 1, 2010 for Toledo, the Plan was amended to restrict enrollment to additional new employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1976, as amended (ERISA).

The Employee Benefits Committee (the Committee) is responsible for the general administration of the Plan. The Committee is comprised of several employees of the Company and reports to the Board of Directors of the Company. The trustee of the Plan is State Street Bank and Trust (State Street).

Benefits

The Plan is a traditional defined benefit plan whereby a participant's accrued benefit is determined based on credited service times a per month amount specified in the collective bargaining agreement.

A participant is entitled to pension benefits beginning at normal retirement age (65) based on a benefit formula amount stipulated by labor class in the applicable union contract multiplied by the participant's years of credited service under the Plan. Benefits are paid to the participant in the form of a recurring payment. Accrued benefits became vested after completion of five years of credited service or the attainment of normal retirement age.

Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement. Benefits are also payable upon disability, death, or termination of employment.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2015 and 2014.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, estimates are used in determining the actuarial present value of accumulated plan benefits and in determining the fair value of investments (see Note 3 for further details). Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's assets are stated at fair value and are included in the Libbey Inc. Master Retirement Trust (the Master Trust) along with the assets of the other pension plans of the Company and certain of its subsidiaries. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. The Master Trust holds an investment in the Harbor Capital Group Trust for Defined Benefit Plans (Group Trust). The Group Trust is under a separate trust agreement, along with the assets of other third party pension plans. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 3 for further details.

Earnings of the Group Trust are allocated to each plan based on the relative market values of each plan's net assets. These financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by the trustee and any such other investments and transactions related solely to the Plan. This Group Trust is designed to diversify risk by investing in a variety of asset classes including: cash, domestic and foreign corporate equity and debt issues, government securities and real estate investment trusts.

The Master Trust also holds investments in hedge funds. The funds are multi-strategy hedge funds. The investment objective is to achieve long-term equity-like returns with significantly less volatility than the equity markets. The Master Trust seeks to accomplish this investment objective by investing in a diversified portfolio of hedge funds.

The Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. In addition, the Committee determines guidelines for the long-term asset allocation of the Master Trust while considering diversification and pension plan liability structure. The diversified asset allocation is intended to maintain an appropriate balance of risk and return.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's (losses) and gains on investments bought and sold, as well as held during the year.

New Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which

fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan Sponsor has determined this ASU will only impact disclosures in the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, (ASU 2015-12). The amendments in Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The amendments in Part II of ASU 2015-12 will require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes. Part II also eliminated the requirement to disclose the net appreciation (depreciation) in fair value of investments by general type and the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provide a practical expedient to permit plans to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. The Plan Sponsor has determined this ASU will only impact disclosures in the Plan's financial statements.

Payment of Benefits

Benefits are recorded when paid.

The Company amended the Plan and offered a limited benefit election window from August 11 through September 30, 2014 for qualifying participants. This option was made available to terminated participants who were eligible for, but had not commenced a benefit under the Plan. The limited benefit election window provided terminated vested participants with the option to either elect to receive a lump sum payment, a life annuity, or a joint and survivor annuity.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

- Level 1 - Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

- Level 3 - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

Master Trust investments measured at fair value on a recurring basis consisted of the following types of instruments (Level 1, 2, and 3 inputs are defined above):

December 31, 2015				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Short-term investments	\$ —	\$ 9,558,664	\$ —	\$ 9,558,664

Total investments measured at fair value	\$ —	\$267,326,550	\$ 48,857,931	\$316,184,481

December 31, 2014				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Short-term investments	\$ —	\$ 9,602,645	\$ —	\$ 9,602,645
Hedge funds	—	—	50,862,703	50,862,703
Investment in Group Trust:

Investment in Group Trust subtotal	—	279,616,624	—	279,616,624
Total investments measured at fair value	\$ —	\$289,219,269	\$ 50,862,703	\$340,081,972

Investments are stated at fair value, as calculated by State Street. Underlying equity securities (including large and small cap domestic and international equities), for which market quotations are readily available, are valued at the last reported readily available sales price on their principal exchange on the valuation date or official close for certain markets. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved pricing service, which determines valuations for normal institutional-size trading units of such securities which are generally recognized at fair value as determined in good faith by the trustee. The fair value of investments in real estate funds is based on valuation of the fund as determined by periodic appraisals of the underlying investments owned by the respective fund. Investments in registered investment companies or collective pooled funds, if any, are valued at their respective net asset value (NAV). Short-term investments are valued at their respective NAV and have no redemption restrictions. The hedge fund investments are valued by using estimated month-end NAV and performance numbers provided by the fund manager. The Plan's interests in the funds of the Group Trust are valued at the unit prices established by State Street and are valued using NAV as a practical expedient. The Plan is required to provide a 30-day advance written notice to liquidate its entire share in the Group Trust and a 90-day advance written notice to liquidate certain investments in hedge funds.

See Note 5 for further information as to the Plan's interest in the Master Trust and the Group Trust.

The following table sets forth a summary of changes in the fair value of the Master Trust's Level 3 investments in hedge funds for the years ended December 31:

	2015	2014
Balance at January 1	\$ 50,862,703	\$ 51,307,616
Net (sales) purchases	(2,500,000)	(2,500,000)
Realized gain	2,497,768	507,260
Unrealized (loss) gain	(2,002,540)	1,547,827
Balance at December 31	<u>\$ 48,857,931</u>	<u>\$ 50,862,703</u>

Realized gain and unrealized (loss) gain, relating to both the investment in the Group Trust and investments in hedge funds, are recorded in net investment (loss) gain from Master Trust in the accompanying statements of changes in net assets available for benefits. There were no transfers between levels during 2015 and 2014.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated vested employees or their beneficiaries and (b) present employees or their beneficiaries.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal, or early retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial valuation (as of and for the years ended December 31, 2014 and 2013) are:

Assumed rate of return	2014 - 7.25% annually 2013 - 7.25% annually
Mortality basis	2014 - RP-2014 Sex Distinct Mortality Table (with generational projection scale MP 2014) 2013 - RP-2014 Mortality Table (with generational projection scale MP 2014)
Retirement age	Based on company experience varying from ages 55 to 70
Actuarial cost method	Projected unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information as of December 31, 2014, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 110,775,814
Other participants	63,342,275

Nonvested benefits	7,637,650
--------------------	-----------

Total	<u>\$ 181,755,739</u>
-------	-----------------------

Changes in the present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2013	\$ 186,418,902
Decrease attributable to:	
Additional benefits accumulated	2,896,994
Actuarial gains	(42,408)
Interest due to decrease in the discount period	12,792,022
Benefits paid	(20,309,771)
Net decrease	(4,663,163)
Actuarial present value of accumulated plan benefits as of December 31, 2014	<u>\$ 181,755,739</u>

5. Investment in Master Trust - Information Certified by Trustee

Information related to investments for the Plan and the Master Trust disclosed in Notes 3 and 5 in the accompanying financial statements (excluding classification and level of investments in Note 3) as of December 31, 2015 and 2014, as well as the Plan's net (loss) gain from the investment in the Master Trust for the years then ended, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by State Street, and is unaudited. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 73.4% and 73.2%, respectively.

The following table presents the fair value of the investments for the Master Trust at December 31:

	<u>2015</u>	<u>2014</u>
Master Trust:		
Short-term investments	\$ 9,558,664	\$ 9,602,645

Plan's share of investment (loss) gain from the Master Trust	<u>\$ (4,008,519)</u>	<u>\$ 24,998,065</u>

Administrative expenses of the Master Trust are as follows for the years ended December 31:

	2015	2014
Administrative expenses of the Master Trust	<u>\$ (657,421)</u>	<u>\$ (745,377)</u>
Plan's share of administrative expenses from the Master Trust	<u>\$ (428,399)</u>	<u>\$ (534,909)</u>

See Note 3 for further information on the fair value measurements of the Plan's investments.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 3, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

7. Transactions With Parties in Interest

Certain of the Plan's assets are invested in funds managed by the primary investment manager of the Plan's assets. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of PBGC fees, actuarial fees, investment consulting, and system administration, including expenses related to the Master Trust. Administrative expenses are allocated to the Plan and are reflected in the net investment (loss) gain from Master Trust. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan. See Note 5 for the administrative expenses incurred by the Master Trust and the Plan's share of these administrative expenses.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 17, 2016, the date the financial statements were available to be issued.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	Benefits for employees who have terminated without vested rights, but may be hired in time to have benefits restored, were not valued. The preretirement survivor annuity for terminated vested participants was not explicitly valued.
Change in assumptions and methods since prior valuation	<p>The funding interest rate basis was changed from the segment interest rates as of September 2013 to the segment interest rates as of September 2014.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p>

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year for the pension plans, adjusted according to expectations.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Disabled Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Termination	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Disability	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Retirement	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Disabled retirement	Totally and permanently disabled with at least ten years of credited service.
Deferred vested retirement	Termination for reasons other than death, disability or retirement after completing five years of vesting service.
Preretirement death	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Pension benefit as of NRD.
Early retirement	Pension benefit as of early retirement date, reduced 6% for each year the payment begins before age 60. A participant with at least 30 years of service will receive an unreduced benefit.
Postponed retirement	Pension benefit as of actual retirement date.
Disabled retirement	Pension benefit calculated using credited service as of the disability date.
Deferred vested retirement	Pension benefit as of termination, reduced 6% for each year the payment begins before the participant's NRD.
Preretirement death	<p>Upon the death of an active participant who is at least 50 years of age and has ten or more years of service, the monthly annuity payable to the surviving spouse will equal 50% of the monthly pension benefit as of the participant's date of death.</p> <p>If an active participant dies before attaining age 50 but has at least five years of service, a monthly benefit will be paid to the surviving spouse. This amount is equal to 50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.</p>
Payment forms	<p>Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. (Single life, 66 2/3%, 75%, or 100% Joint and Survivor or Level Income).</p> <p>All forms of payment include a 72 month guarantee.</p> <p>Payment forms are calculated using conversion factors assuming the 1971 TPFC Forecast Mortality Table using a 6-year setback for the beneficiary and no setback for the participant, and assuming 6.00% interest.</p>
