Greybull Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Greybull Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan of Smith International, Inc. (“Smith”) for the sole benefit of the union employees of Smith’s U.S. operations and its beneficiaries and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. On August 27, 2010, Schlumberger Limited (“Schlumberger” or the “Company”) acquired all of the outstanding shares of Smith and assumed sponsorship of all plans sponsored by Smith and its subsidiaries.

The Plan Sponsor uses a prototype profit sharing plan maintained by Vanguard Fiduciary Trust Company (“Vanguard Trust” or the “Trustee”).

Eligibility

Participation in the Plan may commence on the first day of the month following a 60 day waiting period from the date of hire. There is no minimum age requirement under the Plan.

Administration and Trustee

The Company is the Plan administrator as defined under ERISA. The Plan's operations are monitored by an administrative committee (the “Administrative Committee”) which is comprised of officers and employees of the Company. Vanguard Trust is the Trustee of all investments held by the Plan.

Contributions

Each year, participants may contribute up to 15 percent of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts from other eligible retirement plans, as defined in the Plan. The Company makes annual matching and profit-sharing contributions. The Company made a matching contribution of 50 percent of the first 3 percent of compensation that a participant contributes to the Plan. In addition, participants are eligible to receive a profit-sharing contribution equal to 3 percent of compensation. Contributions are subject to certain annual limitations as imposed by the Internal Revenue Service (“IRS”).

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contributions, the Company’s matching and profit-sharing contributions, and Plan earnings, and charged with withdrawals, allocation of Plan losses and administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Greybull Retirement Plan

Notes to Financial Statements

Vesting

Participants are fully vested in their contributions and related earnings. Vesting in Company matching and profit-sharing contributions and related earnings at the rate of 20 percent for each year of service after joining the Plan. Upon death, termination of employment by reason of total or permanent disability or retirement from the Company upon reaching the normal retirement age of 65, participants become fully vested in Company contributions and related earnings.

Investment Options

Participants have the option of investing their contributions and the Company's matching and profit-sharing contributions among one or all of the available investments, including a variety of mutual funds and a common/collective trust ("CCT") offered by the Vanguard Group of Investment Companies (the "Vanguard Group").

Notes Receivable from Participants

Participants may borrow from their accounts no more than once annually, subject to terms specified by the Plan document. The Plan permits participants to borrow the lesser of \$50,000 or 50 percent of their vested account balances in the Plan. The loans are secured by the balance in the participant's account. The loans bear an interest rate equal to the prime rate at the date of the loan request. Principal and interest is paid ratably through payroll deductions. As a result, the footnote disclosing investments at or greater than 5% as of December 31, 2014 was removed. Additionally, the disaggregation of investments at December 31, 2014 in Note 3 was removed.

Distributions, Withdrawals and Forfeitures

A participant may elect to receive benefit payments through any one of the several methods provided by the Plan upon termination or retirement. The Plan also provides for hardship distributions to participants with immediate and significant financial needs, subject to authorization by Plan management and limited to the participant's vested account balance.

In the event that a participant terminates employment with the Company, the participant's vested balances will be distributed in accordance with the Plan's distribution provisions including, when applicable, the participant's distribution election. Forfeitures of terminated participants' nonvested accounts are first made available to reinstate previously forfeited amounts. Any remaining forfeitures are used to reduce employer contributions and pay Plan expenses. During 2015, forfeitures of \$6 were used to reduce the Company's contributions and pay Plan expenses. Forfeitures available at December 31, 2015 and 2014 totaled \$7,816 and \$10,657, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Greybull Retirement Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments in mutual funds and a CCT. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values and concentrations of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

The Plan follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are as described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the

Greybull Retirement Plan

Notes to Financial Statements

assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. See Note 4 for the disclosures required by ASC 820 with regard to Plan investments.

In determining the fair value of investments, the Plan uses various inputs and valuation methodologies. There have been no significant changes in the inputs or valuation methodologies used at December 31, 2015 and 2014.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses on investments sold and unrealized gains or losses on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and CCT are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are recorded as distributions based on the terms of the Plan document. Fees charged by the Trustee relating to notes receivable from participants are paid from the participants' accounts and are included in administrative expenses and expenses when incurred. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the Statements of Change in Net Assets Available for Benefits. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Administrative Expenses

The Plan is responsible for its administrative expenses. The Company may elect to pay administrative expenses, including recordkeeping and trust fees, from the forfeitures of the Plan or pay expenses on behalf of the Plan. Investment-related expenses are included in the net appreciation in fair value of investments.

Benefits Paid to Participants

Benefits paid to participants are recorded upon distribution. There were no benefits payable to participants as of December 31, 2015 and 2014.

Relevant Accounting Developments

In May 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-07, "*Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*." ASU No. 2015-07 was issued to address diversity in practice related to how certain investments measured at net asset value with redemption dates in the future (including periodic redemption dates) are

Greybull Retirement Plan

Notes to Financial Statements

categorized within the fair value hierarchy. The amendments eliminate the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. As such, certain fair value levelling disclosures are no longer required; although information must be disclosed so that users can reconcile amounts reported in the fair value hierarchy to the statements of net assets available for benefits. The amendments are effective retrospectively for annual reporting periods beginning after December 15, 2016. Early adoption is permitted. Plan management has elected to early adopt the provisions of ASU No. 2015-07.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient." ASU No. 2015-12 was issued to simplify financial reporting by employee benefit plans. ASU No. 2015-12 was issued to simplify financial reporting by employee benefits plans. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in the fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan assets. Part III provides a measurement date practical expedient for employee benefit plans and when the employer's fiscal period does not coincide with a month-end. ASU No. 2015-12 is effective for annual reporting periods after December 15, 2015, with early adoption permitted. Parts I and II should be applied retrospectively. The Plan has elected to early adopt Parts I and II of the ASU. Part III is not applicable to the Plan. Additionally, the disaggregation of investments at December 31, 2014 in Note 3 was removed.

3. Information Certified by the Plan's Trustee

The following is a summary of the information regarding the Plan as of December 31, 2015 and 2014, and for the years then ended, included in the Plan's financial statements (including footnotes) and supplemental schedules that was prepared by or derived from information prepared by the Trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

<i>December 31,</i>	2015		2014

Notes to Financial Statements

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information with the related information included in the financial statements and supplemental schedules.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2015 and 2014 as discussed in Note 2:

Assets at fair value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,119,900	\$ -	\$ -	\$ 5,119,900
Total assets in the fair value hierarchy	\$ 5,119,900	\$ -	\$ -	\$ 5,119,900
Common/collective trust, measured at NAV				3,386
Total investments, at fair value				\$ 5,123,286

Assets at fair value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,070,410	\$ -	\$ -	\$ 5,070,410
Total assets in the fair value hierarchy	\$ 5,070,410	\$ -	\$ -	\$ 5,070,410
Common/collective trust, measured at NAV				3,942
Total investments, at fair value				\$ 5,074,352

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2015 and 2014:

Mutual funds - Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. The money market mutual fund is stated at amortized cost, which approximates fair value.

Common collective trust - The fair value of the CCT is derived from the ending NAV of the trust as calculated on a daily basis, as a practical expedient. The CCT has not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to and permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Greybull Retirement Plan

Notes to Financial Statements

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes investments measured at fair value and reported NAV per share at December 31, 2015 and 2014:

	Fair Value		Unfunded Commitments at December 31, 2015	Redemption Frequency (if Currently Eligible)
	2015	2014		
Vanguard Retirement Savings Trust	\$ 3,386	\$ 3,942	\$ -	Immediate

5. Federal Income Tax Status

The Plan relies on the opinion letter dated May 28, 2014 for the Vanguard Prototype Non-standardized Profit Sharing Plan with Cash or Deferred Arrangement ("CODA"), in which the Internal Revenue Service ("IRS") stated that the form of the prototype Plan is acceptable under IRC Section 401(a). The Plan has been amended since the date of the opinion letter. The Company and Plan management believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Company and Plan management believe that the Plan is qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

6. Related Party and Party-In-Interest Transactions

The Plan invests in shares of registered investment company funds and a common/collective trust fund managed by the Vanguard Group, an affiliate of Vanguard Trust. As Vanguard Trust is the Trustee of the Plan, these transactions qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions.

7. Late Remittances

During the Plan years ended December 31, 2015 and 2014, certain participant contributions and loan repayments in the amount of \$15,254 and \$69,797, respectively, were not remitted within the appropriate time period by the Company. These transactions constitute prohibited transactions as defined by ERISA. The Company will take the appropriate steps to correct the issue. Lost earnings resulting from the delinquent transmittal of participant contributions will be computed and transmitted by the Company to the trustee of the Plan.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

<i>December 31,</i>		2014
Net assets available for benefits per financial statements	\$	5,414,460
Add: Adjustment from fair value to contract value for fully benefit-responsive investment contracts		121
Net assets available for benefits per Form 5500	\$	5,414,581
<i>Year ended December 31, 2015</i>		
Net increase per financial statement	\$	41,819
Prior year adjustment from fair value to contract value for fully benefit-responsive investment contracts		(121)
Net increase per Form 5500	\$	41,698

9. Subsequent Events

For the purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through October 14, 2016, the date on which the financial statements were available to be issued.

Effective March 31, 2016, the Plan was merged with and into the Schlumberger Technology Corporation Savings and Profit Sharing Plan.
