Contributions

Participants direct investment of their pre-tax elective deferral contributions, Roth elective contributions, discretionary matching Company contributions, and any additional discretionary profit sharing amounts into various investment options offered by the Plan. Contributions to the Plan include: (i) salary reduction contributions authorized by participants between 1% and 100% of their compensation, not to exceed the amount prescribed by the Internal Revenue Code and (ii) a discretionary matching and profit sharing components made by the Company. In addition, participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after four years of credited service at a vesting rate of 25% per year.

Notes from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between the investment fund(s) that the participant invests in and the Participant Loans fund. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates which commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of Plan (Continued)

Hardship Withdrawals

Hardship withdrawals are permitted pursuant to IRS regulations.

Payment of Benefits

On termination of service due to termination, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Involuntary distributions of amounts less than \$5,000 will be made to terminated participants who have not requested a distribution. In service distributions from all vested accounts are permitted when a participant who has not separated from service has attained age 59 ½.

Forfeited Accounts

At July 17, 2015 and December 31, 2014, forfeited non-vested accounts totaled \$13,194 and \$3,647, respectively. Upon the Plan merger, \$13,194 was transferred.

Plan Expenses

Administrative expense of \$24,889 was paid by the Plan. Other administrative expenses of the Plan are paid by the Company.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value (Note 5) determined daily by quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) of the fair value of investments consists of the unrealized appreciation or depreciation of investments held during the year and the realized gain or loss on investments sold during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Payments of Benefits

Benefits are recorded when paid. Notes receivable from participants in default are treated as deemed distributions in the year defaulted.

Notes from Participants

Notes from participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Reclassifications

Certain amounts in the prior year have been reclassified to conform to the current year presentation.

Note 3. Accounting Changes

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820)*. The ASU eliminates the requirement for Plan's to disclose the significant investment strategies for investments in certain entities that calculate net asset value per share (or its equivalent). It also eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. It is to be applied retrospectively. Management has elected to adopt the ASU early.

Note 4. Certified Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The plan administrator instructed the Plan's independent auditors not to perform any procedures with respect to the following information that Great-West Trust Company, LLC, the custodian of the Plan, has certified to the completeness and accuracy of: all investments reflected on the accompanying financial statements of net assets available for benefits as of July 17, 2015 and December 31, 2014, the related activity reflected in the statements of changes in net assets for benefits for the period ended July 17, 2015.

Note 5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Total	<u>\$ 8,744,801</u>	<u>\$ 7,945,472</u>	<u>\$ 799,329</u>	<u>\$ -</u>

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of the guaranteed account is based on inputs that are observable for valuing the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Note 7. Investment Contract

In 2007, the Plan entered into a benefit-responsive investment contract with Great West Life & Annuity Insurance Company (Great West). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Great West. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk if the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Great West. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8. Related Party Transactions

The Plan invests in assets that are managed by Great-West Trust Company, LLC. Great-West Trust Company, LLC is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Plan merged all funds on July 17, 2015.

Note 10. Tax Status

The prototype document obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 11. Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. These officers and employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Note 12. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13. Subsequent Event

Management evaluated all activity of the Plan through October 17, 2016 (the issue date of the Financial Statements) and concluded that no subsequent events have occurred that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements.
