THE BE&K 1165(e) RETIREMENT PLAN - PUERTO RICO
Notes to Financial Statements

(1) Description of the Plan

(a) General

The BE&K 1165(e) Retirement Plan - Puerto Rico (the Plan) is a defined contribution plan maintained on the Caribbean Pension Consultants, Inc., Prototype Defined Contribution Retirement Plan (the Prototype) as amended and restated effective as of January 1, 2011 in compliance with the new Puerto Rico Tax Code. BE&K, Inc. (the Company) is the plan sponsor. The Company adopted the Plan through the execution of an Adoption Agreement in accordance with Section 1165(e) (commonly known as a 1081.01 Plan) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan document or summary plan description for a more complete description of the Plan's provisions.

(b) Administration

The KBR Benefits Committee (Benefits Committee) maintains all control, management, and administration of the Plan. The KBR Investment Committee maintains all powers and duties related to the Plan's investment fund or funds.

Oriental Bank & Trust (OBT) serves as the Plan's trustee and record keeper. Mid Atlantic Trust Company is the custodian of the Plan assets. Oriental Pension Consultants, Inc. (OPC) is the third party administrator.

(c) Eligibility and Vesting

Employees may participate in the Plan if they are considered eligible employees of participating divisions and subsidiaries located in Puerto Rico of the Company who had attained the age of 21 and completed 90 days of credited service as defined in the Plan document. The entry date is the day the requirements are satisfied.

Each participant is fully vested in their elective deferral account and will have a 100% vested interest in all other accounts maintained on their behalf upon reaching normal retirement age prior to termination of employment, and also upon death or disability prior to termination of employment. The vested interest in the matching contribution or profit sharing contributions account at any time prior to normal retirement age, death or disability is based on a vesting schedule based on the number of years of service – 20% vested interest for each year of service becoming 100% vested after five years. Any portion of the account that is not vested at the time of termination will be forfeited.

Forfeitures can be used to reduce Company matching contributions or to pay administrative expenses. Forfeitures available as of December 31, 2015 and 2014 (unaudited) were $56,775 and $47,985, respectively. During 2015, $10,176 of forfeitures were used to offset Company contributions.

(d) Rollovers

Any eligible employee's (whether a participant or not) distributions from another Puerto Rico qualified plan may be transferred into the Plan, as described under the Plan's provisions.

(e) Contributions

Participants may elect to contribute to the tax deferred savings feature of the Plan through periodic payroll deductions. Participants may contribute from 1% of their compensation up to 100% of their compensation. However, the total amount of a participant's pre-tax deferred savings contributions was limited to $18,000 for 2015 and the 2015 limit for eligible earnings was $265,000. Additional limitations are in place for highly compensated employees under the provisions of the Plan. Participants may change contribution rates at any time.

Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution, ($6,000 per participant in 2015). Catch-up contributions are treated as pre-tax deferred savings contributions for all purposes of the Plan.

The Company may elect to match contributions up to 100% of the first 4% contributed by the participant. The Company may elect to make qualified matching contributions which may not be made for all participants. Contributions made to the participant's qualified matching contribution account will be 100% vested at all times. The company may also make profit sharing contributions which are totally discretionary.

(f) Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 to a maximum of the lesser of $50,000 reduced by the highest outstanding note balance in the preceding twelve-month period or 50% of their vested account balance. Note terms range from one to five years unless the note relates to the purchase of a principal residence. The notes are secured by the vested balance in the participant's account and bear interest at a rate of one percentage point higher than the prime lending rate as posted in the Wall Street Journal (or similar financial publication) when the loan is made.

(g) Payment of Benefits

A participant who terminates his/her employment with the Company is entitled to a benefit equal in value to the vested balance in such participant's account. Such benefits are to be paid within an administratively reasonable time after termination in (a) one lump-sum distribution or (b) installment payments at the election of the participant. If the vested value of a participant's account balance is $5,000 or less at the date of termination, the participant will receive his/her entire account balance in one lump-sum amount when administratively feasible.

Participants may make in-service withdrawals in accordance with the Plan document. A participant who receives a withdrawal on account of proven financial hardship shall be prohibited from making elective deferrals for twelve months after receipt of the distribution.

(h) Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect Company contributions, the participant's contributions and any rollover contributions, as well as the participant's related share of the Plan's income and losses and certain related administrative expenses. Allocations of income and losses are made within each separate investment fund in proportion to each participant's investment in those funds. Allocations of certain related administrative expenses are made based on the proportion each participant's account balance had to the total of all participants' account balances maintained by the Plan. The Plan is participant directed and participants may change investments at any time.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Administrative Expenses

Expenses related to the administration of the Plan are paid from Plan assets.

(c) Valuation of Investments and Investment Income

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Realized gains (losses) on the sale of investments during the year and unrealized appreciation (depreciation) of investments held at the end of the year are reflected as net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities, and the changes therein and disclosures of contingent assets and liabilities at the date of the Plan's financial statements. Actual results could differ from those estimates.

(e) Payment of Benefits

Benefit payments are recorded when distributed.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. At December 31, 2015 and 2014 (unaudited), no allowance was considered necessary by management.

(g) Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)* (ASU 2015-12). ASU 2015-12 was issued to reduce the complexity of employee benefit plan accounting. Part I requires that fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. Part II eliminates the disclosure of: investments that represent 5 percent or more of net assets; the net appreciation or depreciation by general type; and the disaggregation of investment classifications. Part III permits plans to measure investments and related accounts as of a month-end date closest to the plan's fiscal year-end when it does not coincide with a month-end. The new guidance will be applied retrospectively and is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and III are not applicable to the Plan. Management has elected to adopt Part II early. Part II was applied retrospectively.

(3) Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the type of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or

liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used for valuing securities at December 31, 2015 or 2014 (unaudited).

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014 (unaudited):

2015	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 963,038			$ 963,038
Total investment at fair value	$ 963,038			$ 963,038

2014 (unaudited)	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 809,034			$ 809,034
Total investment at fair value	$ 809,034			$ 809,034

(4) Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mid Atlantic Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2015, and the schedule H, Line 4i – schedule of assets (held at end of year) as of December 31, 2015, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company may amend, modify, or terminate the Plan at any time. Upon termination, Plan assets are distributed according to the Plan document.

(6) Tax Status

The Puerto Rico Internal Revenue Code of 1994 (PRIRC-94) was replaced January 31, 2011 by the Puerto Rico Code and the retirement plan rules are now enacted as Puerto Rico Code Section 1081.01. Subsequent to this determination by the Government of Puerto Rico Treasury Department (Treasury), the Plan was amended, restated and submitted to the Treasury for a determination letter under the Puerto Rico Code. The Plan has received a favorable determination letter from the Treasury dated October 2, 2012. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of December 31, 2015 and 2014 (unaudited).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014 (unaudited), there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan provides for investment in mutual funds. Investment securities, in general, are exposed to various risks such as, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair value of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

(8) Party-in-Interest Transactions

Certain Plan cash accounts are managed by entities related to Mid Atlantic Trust Company; therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.
