Note 1 - Description of Plan:

The following description of the Fullmer Companies 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan establish on February 1, 2006 covering all full-time employees of the Company who are age eighteen or older, unless specifically excluded by the plan agreement. The employees can enter the plan on the first day of any quarter after their hire date. Fullmer Construction (Fullmer) is responsible for the over sight of the plan and determines the appropriateness of the Plan’s investment offerings and monitors investment performance. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and section 401(a)(27) of the Internal Revenue Code of 1986 (IRC), as amended. Principal Financial Group, Inc. (Principal) is the trustee and holds the assets of the plan.

Contributions: Contributions to the plan include (i) salary reduction contributions authorized by the participants, (ii) matching contributions made by Fullmer, (iii) nonelective contributions made by Fullmer, and (iv) participant rollovers from another qualified plan. Each participant may authorize Fullmer to contribute into the plan, on a pretax basis or Roth basis, up to 100 percent of his or her annual salary. The Company has a discretionary matching percentage of the compensation you elect to defer; which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate at 2.5% of eligible compensation. Upon enrollment in the Plan, a participant may direct employee contributions in any of various investment funds. Participants may change their investment options at anytime. Participants direct the investments of their contributions into various investment options offered by the Plan. The annual contributions are subject IRC limitations.

Participant Accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings (losses), and charged an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1 - Description of Plan (continued):

Vesting: Participant's are always 100% vested in their contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contribution to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of 50% of your vested account balance or $50,000. Loan terms range from one to five years, unless for purchase of participant's primary residence. The notes are secured by the balance in the participant's account and bear a reasonable rate of interest. Loans may be made for reason of hardship or financial necessity. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution if vested amount is $5,000 or less within 60 days of the latest of these events to occur. If your vested account is more than $5,000, you may choose from the forms of benefit. The participant is allowed to withdraw employee account balances prior to termination of their employment under certain conditions specified in the Plan.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $0 and $217, respectively. These accounts will be used to reduce the Employer's required matching contribution and administrative expenses for the following Plan year. Employer contributions and administrative expenses were reduced at December 31, 2015 and 2014 by $4,618 and $13,531, respectively from forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued):

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participant note receivable is valued at cost that approximates fair value. No allowance for credit losses has been recorded at December 31, 2015. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Related fees are charged directly to the borrowing participant’s account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014, respectively. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expense that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expense. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Information Prepared and Certified by Trustee:

The following is a summary of investment information regarding the Plan as of December 31, 2015 and 2014, and for the years then ended, included in the Plan's financial statement that was prepared by or derived from information prepared by Principal Financial Group, Inc. (Principal), the trustee of the plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investments, at fair value:	2015	2014
Mutual Funds	$4,048,842	$4,121,698
Separate Pool Accounts	5,845,865	5,900,586
Common Collective Trust Accounts	434,023	289,691
Participants loan	36,873	32,927
Contributions received	1,324,439	948,868

During 2015 and 2014, the Plans investments (including gains and losses on investments bought and sold, as well as held during the year) in mutual funds, pooled separate accounts and collectible investment trusts increased (decreased) in value by $(392,227) and $205,196, respectively.

Note 4 – Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 – Fair Value Measurements (continued):

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds: Valued at daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV). The mutual funds held by the plan are deemed actively traded. This is considered a Level 1 valuation.

Pooled Separate Accounts (PSA): Invest in a single mutual fund. The fair value of the fund is a publicly quoted pricing input (level 1) and is used to determine the net asset value of PSA, which is not publicly quoted. Accounting Standards Codification ("ASC") 820 allows NAV per share to serve as a practical expedient to estimate the fair value of a PSA as long as certain requirements are met. It's the trustee assessment that all the PSA meet those requirements. ASC 820 goes on to state that where NAV is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem its investment at NAV as of the measurement date, that investment shall be categorized as a Level 2 fair value measurement.

Collectible Investment Trust (CIT): For the CIT the net asset value ("NAV") is based on the contract value. Investments held by a CIT are required to be reported at fair value; however, contract value is the relevant measurement characteristic for that portion of the net assets of a CIT attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. The fair value of conventional contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the Trustee, which determines valuations using methodology generally recognized by institutional traders. The assets held at fair value in the fund are categorized as a Level 2 fair value measurement.

Note 4 – Fair Value Measurements (continued):

The following tables set forth, by level the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value at December 31, 2015		
	Level 1	Level 2	Fair Value
Mutual Funds:			
International Equity	$ 1,206,390	$ -	$ 1,206,390
Large U S Equity	718,635	-	718,635
Small/Mid U S Equity	582,039	-	582,039
Fixed income funds	1,263,946	-	1,263,946
Other funds	277,832	-	277,832
Collective trust funds	-	434,023	434,023
Pool separate accounts	-	5,845,865	5,845,865
Total assets at fair value	$ 4,048,842	$6,279,888	$10,328,730

	Assets at Fair Value at December 31, 2014		
	Level 1	Level 2	Fair Value
Mutual Funds:			
International Equity	$ 1,192,164	$ -	$ 1,192,164
Large U S Equity	749,964	-	749,964
Small/Mid U S Equity	568,934	-	568,934
Fixed income funds	1,294,086	-	1,294,086
Other funds	298,550	-	298,550
Collective trust funds	-	289,691	289,691
Pool separate accounts	-	5,900,586	5,900,586
Total assets at fair value	$ 4,121,698	$6,190,277	$10,311,975

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The board of trustees determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 14, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the plan is qualified, and the related trust is exempt.

Accounting principles generally accepted in the United States of America require plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely then not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The administrator believes it is no longer subject to tax examinations for years prior to December 31, 2011.

Note 7 – Excess Contributions Refundable:

At December 31, 2015 and 2014, net assets available for plan benefits included $0 and $0, respectively for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. There were no required excess contribution refunds distributed on or about March 13, 2016 or March 13, 2015.

Note 8 – Related-Party and Party in Interest Transactions:

Certain plan investments are shares of mutual funds managed by Principal. Principal is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for administrative fees amounted to $6,600 and $8,177 for the years ended December 31, 2015 and 2014, respectively. Fees paid for investment advisory services amounted to $20,986 and $33,004 for the years ended December 31, 2015 and 2014, respectively. All of these party-in-interest transactions are exempt from prohibited transaction rules of ERISA.

Note 9 – Risks and Uncertainties:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Subsequent Events:

The plan has evaluated subsequent events through September 30, 2016, the date the financial statements were available to be issued.

Note 11 - Delinquent Employee Deferral Transmittals:

Participant contributions of $30 were withheld from the participant's pay during the month of January 2015, but were erroneously not remitted to the plan's trust within the time frame required by the Department of Labor under plan asset rules. The plan administrator determined the affected participant and deposited the participant contribution and the employer match totaling $45 into the plan on March 27, 2015 to make the affected participant whole. The Company has filed Internal Revenue Service form 5330 as required.
