Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts distributed from other qualified plans. The Company contributes 50% of the first 10% of the base compensation that a participant contributes to the Plan. The Company also contributes an additional contribution ("Basic") of 2% of the participant's compensation as a profit-sharing contribution. Contributions are subject to certain limitations.

Investment options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and common collective trust funds as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings (losses) and is charged with benefit payments and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2015, outstanding loans bore an interest rate between 4.25% and 10%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, or due to other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or annual installments over a term certain not to exceed the life expectancy of the participant and the designated beneficiary as provided by the Plan.

Forfeitures

At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$4,155 and \$6,160, respectively. These accounts will be used to reduce Company contributions. During 2015, \$4,090 of forfeitures were used to offset Company contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Those relating to specific elections of participants are paid from the individual's account. Certain administrative functions are performed by the employees of the Company. No such employee receives compensation from the Plan.

New accounting standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU removes certain disclosures and the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value ("NAV") per share practical expedient provided by Topic 820, *Fair Value Measurement*. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU should be applied retrospectively to all periods presented. Management has elected to adopt this guidance for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I is not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively to all periods presented. Management has elected to adopt Part II for the year ended December 31, 2015.

There was no effect to total net assets available for benefits as previously reported.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2016, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities, and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2015 and 2014. The following is a description of the valuation methodologies used for assets measured at fair value.

Notes to Financial Statements

Mutual funds and money market fund

Mutual funds and the money market fund are publicly traded investments that are valued daily at the closing price reported on the active market on which the funds are traded.

Common collective trust funds

These funds are valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

- (a) *In accordance with Topic 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.*

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2015 and 2014. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no gross transfers between the levels for the year ended December 31, 2015.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Investment Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	<u>2015</u>	<u>2014</u>
Investments, at fair value	<u>\$ 5,275,700</u>	<u>\$ 5,493,757</u>

Interest and dividends	<u>\$ 88,813</u>	
Net depreciation in fair value of investments	<u>\$ (114,326)</u>	
Interest income from notes receivable from participants	<u>\$ 32,889</u>	

5. Exempt Party-in-Interest Transactions

Certain Plan investments are managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and trustee services amounted to \$34,966 for the year ended December 31, 2015.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated December 26, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not been amended since receiving the determination letter. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	<u>2015</u>	<u>2014</u>
Net assets available for benefits per the financial statements	\$ 6,306,620	\$ 6,393,607
Participant loans in default for active employees	<u>(48,435)</u>	<u>(65,977)</u>
Net assets available for benefits per Schedule H of Form 5500	<u>\$ 6,258,185</u>	<u>\$ 6,327,630</u>

The following is a reconciliation of the net decrease per the financial statements to net loss per the Form 5500 at December 31, 2015:

Net decrease per the financial statements	\$ (86,987)
Change in participant loans in default for active employees	<u>17,542</u>
Net loss per the Form 5500	<u>\$ (69,445)</u>

The items above are due to differences in the requirements for handling defaulted loans for the Form 5500 and the financial statements.
