NOTE 1 DESCRIPTION OF PLAN

The following description of South Denver Cardiology, P.C. 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of South Denver Cardiology Associates, P.C. (the Company) who have completed one year and 1,000 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Annually, participants may contribute up to 100% of pretax annual compensation as defined in the Plan agreement, up to the maximum annual contribution permitted by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows for Roth deferral contributions subject to the same contributions limitations as stated above.

Newly hired, eligible employees are enrolled automatically with a 3% tax-deferred contribution rate, invested in the Plan's default investment option. Employees may opt out of the automatic enrollment, stop contributions, modify their contribution rate or change investment elections at any time.

The Company contributes 3% each year as a safe harbor non-elective contribution. A 3% top-heavy contribution is also required for certain newly eligible participants who entered the Plan during the year and did not receive the safe harbor contribution based on full-year compensation. For 2015 and 2014, the Company funded an additional discretionary contribution based upon a cross-tested formula as defined in the Plan agreement. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a participant-directed brokerage account option as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, earnings on the investments in their account and charged with an allocation of administrative fees. The benefit to which a participant is entitled is the vested balance in the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their employee contributions and the employer safe harbor contribution plus actual earnings thereon. Vesting in any Company discretionary contribution portion of their accounts is based on years of continuous service with vesting at a rate of 20% per year beginning with completion of the second year of employment. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon a participant's retirement, disability, death or termination of employment, a participant may receive a lump-sum payment equal to the value of the participant's vested interest in his or her account. Under certain circumstances, an employee may withdraw his or her vested account balance prior to the occurrence of these events.

Forfeitures

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $2,931 and $3,333, respectively. These amounts were used to reduce the 2015 and 2014 employer discretionary contribution paid in the following year.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may only have one outstanding loan at a time. A participant must pay a loan fee at the time he or she applies for a loan and must pay annual loan maintenance fees until the loan is repaid. The loans are secured by the balance in the participant's account and bear interest at 2% over prime. During 2015, loans had fixed rates of 5.25% for the term of the loan, not to exceed 5 years or 15 years if used for the purchase of a residence. Principal and interest are paid ratably through payroll deductions.

NOTE 2 SUMMARY OF ACCOUNTING PRINCIPLES AND POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTE 2 SUMMARY OF ACCOUNTING PRINCIPLES AND POLICIES (CONTINUED)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Assets Value per Share (or its Equivalent)," ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investment in certain entities that calculate net assets value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning December 15, 2015, with early adoption permitted.

In July 2015, the FASB issued Accounting Standards Update ASU 2015-12 "Plan Accounting Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans. (Topic 965)" ("ASU 2015-12"). The amendments in Part 1 of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The amendments in Part II of ASU 2015-12 will require plans to disaggregate their investments measured using fair value only by general type, either on the financial statement or in the notes. Part II also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provide a practical expedient to permit plans to measure its investments and investments related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of the calendar month. These amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted.

Plan management has reviewed both ASU 215-07 and ASU 2015-12, and decided to early adopt both standards as they believe it will simplify Plan accounting and it's presentation in the financial statements. As such, the accounting and disclosures in these financial statements and notes follow ASU 2015-07 and ASU 2015-12, Part I and Part II. Part III of ASU 2015-12 is not applicable to the Plan. These changes were applied retrospectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF ACCOUNTING PRINCIPLES AND POLICIES (CONTINUED)

Reclassifications

Certain reclassifications have been made to the prior years' reported amounts in order to conform to the current year presentation. These reclassifications include the adjustment for the guaranteed interest fund to the contract value from fair value that was made as a result of our adoption of ASU 2015-12 as described above. This reclassification was made on the Statement of Net Assets Available for Benefits and did not impact the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan payments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants, investment management, recordkeeping, administrative and purchase and redemption fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2016, the date the financial statements were available to be issued.

NOTE 3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: These funds are valued using amortized cost which approximates fair value.

Common stocks, exchange traded funds and fixed income: Valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts: Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Quoted market prices of the underlying assets have been used to determine the fair value of investments in pooled separate accounts.

Life insurance: Valued at the net cash surrender value, which approximates fair value.

NOTE 4 PARTY-IN-INTEREST TRANSACTIONS

John Hancock is the issuer of the Plan's group funding agreement and record keeper to the Plan. Transactions with John Hancock qualify as party-in-interest transactions. Fees paid to John Hancock by the Plan for these services totaled $2,010 and $2,710 for the years ended December 31, 2015 and 2014, respectively. John Hancock also deducts an asset fee which reduces the participant's investment return.

Certain Plan investments included in the participant-directed brokerage accounts are managed by various investment firms other than John Hancock. Transactions with these firms qualify as party-in-interest transactions. Fees paid for their investment management services totaled $41,927 and $35,241 for the years ended December 31, 2015 and 2014, respectively. These firms may also deduct an asset fee which reduces the participant's investment return.

NOTE 5 INFORMATION PREPARED AND CERTIFIED

The following information included in the accompanying financial statements for the years ended December 31, 2015 and 2014 and supplemental schedule has been certified as complete and accurate by John Hancock:

	2015	2014
Investments, at fair value:		
Pooled separate accounts	$ 13,031,665	$ 12,234,334
Notes receivable from participants	$ 211,692	$ 220,857
Investment income (loss)	$ (281,665)	$ 516,600

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7 TAX STATUS

On March 31, 2008, the Internal Revenue Service issued an opinion letter indicating that the prototype plan document adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself and has since been amended. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS. However, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 8 RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
