1. DESCRIPTION OF PLAN

The following description of the Orlando Bathing Suit, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all employees of Orlando Bathing Suit, LLC (the "Company" or "Plan Sponsor"), except for union employees and nonresident aliens, who have completed three consecutive months of service or, if earlier, one year of service, as defined, and are age 21 or older. Participants are able to enter the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year. Additionally, the Plan excludes employees who are bonafide residents of Puerto Rico from Plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation and Roth 401(k) contributions, as defined in the Plan, not to exceed the limits under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catchup contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants.

A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which an employee participated prior to their employment by the Company.

Employer Contributions

The Company may make matching contributions and profit sharing contributions to the Plan, subject to certain IRC limitations, as follows:

> *Matching Contributions* - The Company may, at its discretion, contribute a matching contribution on behalf of each participant who makes an elective deferral for that Plan year. There were no matching contributions made for the Plan year ended December 31, 2015.
>
> *Profit Sharing Contributions* - The Company may, at its discretion, contribute to the Plan based upon the achievement of its financial objectives. There were no profit sharing contributions made for the Plan year ended December 31, 2015.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

The Plan provides that loans can be made to participants in amounts up to 50% of an employee's vested account balance, limited to $50,000, with the remaining 50% securing the loan. Interest on the loan is charged at a rate commensurate with local prevailing rates. The maximum term for loans is generally five years.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants (Continued)
When a loan is made, the employee's account is charged, thereby reducing the balance in the employee's account, which earns income.

A participant may replace an existing plan loan, however, the participant may not initiate more than two loans in one calendar year. On the date of the replacement loan transaction, both the original loan and the replacement loan are treated as outstanding and together they must satisfy the maximum loan limitations stated previously.

The repayment of the loan, including interest, is credited to the specific employee account as received (i.e., the interest paid on the loan is all credited to the account of the individual borrower).

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled from the Plan.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service according to the following schedule:

Years of Vesting Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participant Distributions
Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship withdrawals may be authorized by the Company for the following reasons: a) to assist in purchasing a primary residence; b) to assist in paying post-secondary school tuition expenses for the participant and dependents for the next 12-month period; c) to assist in paying medical expenses for the participant and dependents that are not covered by insurance; d) to prevent eviction or foreclosure on the participant's principal residence; e) to assist in paying funeral expenses of a parent, spouse, or dependents; f) to assist in paying for repairs of the participant's principal residence that would qualify for a casualty loss deduction. Participants taking a hardship withdrawal may not make voluntary contributions to the Plan for six months.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

Forfeitures are first used to offset administrative expenses of the Plan and any residual amounts will be used to reduce employer contributions. There were no forfeited amounts for the Plan year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting.

Recently Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate New Asset Value per Share*. The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. The update also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan elected to early-adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. The Plan has removed the fair value hierarchy presentation of its pooled separate accounts for 2015 and 2014. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*, which simplifies the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciations of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of the information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The adoption of ASU 2015-12 has resulted in the Plan eliminating its historical disclosure of individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Additionally, the Plan removed the fair value hierarchy presentation of its guaranteed investment contract for 2015 and 2014. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The investments in pooled separate accounts are valued at the net asset value (the "NAV") per unit, as determined by the custodian at year end. The NAV is used as the practical expedient to estimate fair value and is based on the fair value of the underlying investment held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts

While Plan investments are presented at fair value in the accompanying statements of net assets available for benefits, the Plan's direct and indirect interests in fully benefit-responsive investment contracts are presented at their contract value because contract value is the relevant measure attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract through its investment in a guaranteed investment contract at December 31, 2015 and 2014.

Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)
The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan did not have any investments subject to categorization under the fair value hierarchy as of December 31, 2015 and 2014.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. During the year ended December 31, 2015, a participant defaulted on a loan amounting to $1,015. The Sponsor has issued 1099s to report the income generated from the defaulted loan balances to the participant.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Administrative expenses are paid by the Company or are passed through to the participants in the Plan, as provided for in the Plan document.

Subsequent Events
In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 11, 2016, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by Standard Retirement Services, Inc. ("Standard"). Standard received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2012.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 744,534	$ 674,325
Add: excess contributions payable	27,667	30,340
Net assets available for benefits per Form 5500	$ 772,201	$ 704,665

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2015:

Increase in net assets available for benefits per the financial statements	$ 70,209
Add: current-year excess participant contributions payable	27,667
Less: prior-year excess participant contributions payable	(30,340)
Increase in net assets available for benefits per Form 5500	$ 67,536

7. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by the custodian, Standard Insurance Company, and furnished to the Plan administrator. The Plan administrator has obtained a certification from the custodian that such information is complete and accurate.

7. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (CONTINUED)

	2015	2014
Pooled separate accounts	$ 756,581	$ 694,350
Guaranteed investment contract	10,894	3,717
Total certified assets	$ 767,475	$ 698,067

Investment income (loss) consisted of the following for the year ended December 31, 2015:	
Net depreciation in fair value of investments	$ (18,426)

8. PARTY-IN-INTEREST TRANSACTIONS

Substantially all of the Plan's investments consist of pooled separate accounts and a guaranteed investment contract managed by the custodian. Accordingly, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets.

9. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported net asset value ("NAV") per share at December 31, 2015 and 2014:

	Fair Value Estimated Using Net Asset Value per Share December 31, 2015				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 756,581	$ -	Daily	None	None

	Fair Value Estimated Using Net Asset Value per Share December 31, 2014				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 694,350	$ -	Daily	None	None

10. EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

At December 31, 2015 and 2014, substantially all of the excess participant contributions payable consist of payments due to certain participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. At December 31, 2015 and 2014, excess contributions amounting to $27,667 and $30,340, respectively, are recorded as liabilities in the accompanying statements of net assets available for benefits, and $24,375 are recorded as deductions of net assets in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015. The Plan reimbursed excess contributions to its participants during March of 2016 and 2015.

11. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with Standard called the Stable Asset Fund II (the "Fund"). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments, which include fixed income securities and commercial mortgage loan portfolio, and charges for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2015 and 2014, the contract value was estimated to be $10,894 and $3,717, respectively, which approximates fair value. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
