MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Makino MOTE 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all full-time employees (as defined) of Makino Inc. (the “Company”) not covered under a bargaining unit agreement. The Plan is administered by the Company through its Retirement Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

2. Contributions

Participants may contribute up to 100% of annual compensation to the Plan either in pre-tax or Roth deferrals, subject to Internal Revenue Code (“IRC”) limitations. The Company contributes 100 percent of each participant's elective deferrals not exceeding three percent of the participant's compensation, plus 50 percent of each participant's elective deferrals in excess of three percent but not in excess of five percent of the participant's compensation.

3. Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contribution and Plan earnings. Allocations of Plan earnings are based on the investment options selected by the participant and their related account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions, employer contributions, and the earnings thereon. Prior to Plan year 2009, participants vested in their contributions immediately, however, employer contributions were subject to a three-year cliff vesting term.

5. Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%, which is commensurate with local prevailing rates as determined by the Plan administrator. A participant may only have one outstanding loan at any one time and loan terms may not exceed five years.

6. Payment of Benefits

Participants become eligible for benefit payments upon separation of service due to death, disability, retirement, or termination. Benefit payments are made as a lump-sum amount equal to the value of the participant's account. The Plan allows withdrawals prior to termination of employment after a participant has attained the age of 59 ½. This distribution is limited to the balance of the participant's salary deferral accounts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF THE PLAN (continued)

6. Payment of Benefits (continued)

Participants may not withdraw any amounts in the employer profit sharing or matching contribution accounts. The Plan also allows for a “financial hardship” withdrawal of before-tax contributions for participants under age 59½ years in case of demonstrated “financial hardship”, as defined by the Plan document.

7. Expenses of the Plan

All administrative expenses are paid by the Plan unless the Company elects to pay such expenses. Certain Plan expenses are paid by the Company. Investment-related expenses are included in net depreciation of fair value of investments on the accompanying statement of changes in net assets available for benefits.

8. Forfeitures

At December 31, 2015 and 2014, forfeited, non-vested accounts totaled \$502 and \$1,191, respectively. These accounts will be used to reduce future employer contributions. Also, in 2015, employer contributions were reduced by \$684 from forfeited, non-vested accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As such, the guaranteed fund contract is stated at contract value on the accompanying Statements of Net Assets Available for Benefits.

2. New Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. In 2015, the Plan elected to adopt the provisions of this new standard. Disclosures as of December 31, 2014, have been conformed to the amendments contained within the ASU for comparability.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Part I of ASU 2015-12 eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of ASU 2015-12 eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12 is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II in 2015. The 2014 Statement of Net Assets Available for Benefits and related disclosures have been conformed to ASU 2015-12 for comparability.

3. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the fully benefit-responsive investment contract, which is valued at contract value (Note C). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

5. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due, the Plan administrator deems the participant loan to be in default. Defaulted participant loans are reclassified as distributions based upon the terms of the Plan document.

6. Payments of Benefits

Benefit payments to participants are recorded upon distribution.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (continued)

7. Fully Benefit-Responsive Investment Contract

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed fund contract, which is a fully benefit-responsive investment contract, through Principal Life Insurance Company. The accompanying financial statements present the contract value of the investments in the fully benefit-responsive investment contract.

8. Subsequent Events

The Plan administrator evaluated its December 31, 2015 financial statements for subsequent events through October 17, 2016, the date the financial statements were available to be issued. The Plan administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE C – GUARANTEED FUND CONTRACT

The Plan maintains a guaranteed fund contract with Principal Life Insurance Company. The account is credited with a stated rate of return and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal Trust Company.

As described in Note B, because the guaranteed fund contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed fund contract. Contract value, as reported to the Plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents or change in administrative practices which could adversely affect issuer's financial experience, (2) operation of competing investment options, or (3) the creation of another savings program, pension or profit sharing plan which Plan participants are eligible to contribute by payroll deduction. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2015 and 2014

NOTE D – TAX STATUS

The Internal Revenue Service issued a letter dated July 6, 2010, stating that the Plan was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants who are not already fully vested will become fully vested in the employer contributions portion of their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and restricted in such a manner as the Company may determine.

NOTE F – CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as of December 31, 2015 and 2014
- Interest and dividend income for the year ended December 31, 2015

NOTE G – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds and exchange-traded funds – Valued at quoted market prices of shares held by the Plan at year-end. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled Separate Account (PSA) – Valued based on the NAV of the account's underlying investments using information reported by the investment advisor.

Investments valued at NAV, as a practical expedient, as of December 31, 2015 and 2014 consisted of a pooled separate account. The NAV of this investment is determined using the market value or fair value if market data is unavailable, of the underlying securities.

The PSA is invested in a broad mix of underlying mutual funds. In order to prevent excessive or abusive trading, the Company may prescribe rules that limit the number of transfers that participants can make between funds. There are no other restrictions on redemptions, and no unfunded commitments.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
