Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Pension Plan of Arch Chemicals (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2014, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2015, and December 31 2014, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description is intended to give a general summary of the significant provisions of The Pension Plan of Arch Chemicals ("the Plan"). Interested plan participants should refer to the full Plan Document for more detailed explanations and information regarding the Plan's provisions.

General - The Plan is a noncontributory defined benefit pension plan covering both union and nonunion employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is sponsored by Arch Chemicals Inc. (the "Company"), a wholly owned subsidiary of Lonza America Inc. ("LAI").

Pension Benefits - Participants are eligible to receive their vested benefits under the Traditional Plan upon retirement, or for Cash Balance participants, upon termination of employment provided the participant has attained age 55 or one year following termination if the participant has not yet attained age 55. Employees become fully vested in the Plan: (a) after five years of employment for employees hired prior to April 1, 2008 and participate in the grandfathered plan (the "Traditional Plan"); (b) three years, for employees hired on or after April 1, 2008, who participate in the new Personal Pension Account (the "Cash Balance Plan"); or (c) attainment of age 65. The Traditional Plan permits early retirement at age 55 with 10 credited years of service. For participants with a present value of vested benefits of \$5,000 or less at the time of termination, benefits are distributed to them in the form of a lump sum cash out, or placed in a Rollover IRA (if between \$1,000 and \$5,000 and no election for distribution is made within the required timeframe). For participants in the Traditional Plan, who have more than \$5,000 of vested benefits at the time of termination, benefits are paid in the form of an annuity upon attainment of a retirement age. For participants in the Cash Balance Plan, who have more than \$5,000 of vested benefits at the time of termination, benefits are either paid in the form of an annuity or in the form of a lump sum upon attainment of age 55, or one year after termination of employment if not yet age 55. Effective November 15, 2011 the plan was frozen to all non-union new hires. Accordingly, no non-union employees that are hired on or after November 15, 2011 are eligible to participate in the Plan. Effective November 9, 2012 all benefit accruals were frozen for non-union participants. Participants became fully vested in their accrued benefits. Effective May 23, 2014 the Plan was amended to close plan entry, to freeze benefit accruals and vest active participants for collectively bargained employees of Local 703 of the United Steel, Paper and Forestry, Rubber Manufacturing, Energy, Allied Industrial and Service Workers International Union (USW), AFL-CIO at Conley, Georgia.

Death and Disability Benefits - The Plan provides for death benefits to a spouse of a deceased participant who has met the vesting requirement but died prior to his or her benefit commencement date. A pre-retirement survivor benefit will be paid to the surviving spouse, provided the participant and spouse had been married throughout the one year period ending on the date of death.

If the participant in the Traditional Plan dies after attaining the age and years of service necessary to qualify for early retirement, the spouse shall receive an amount equal to that which the participant would have received had the participant retired before the day of his or her death, in the form of a 50% qualified joint and survivor annuity payment. For surviving spouses of participants in the Cash Balance Plan, their benefits can be paid in the form of a lifetime-only annuity or a lump sum. For non-spouse beneficiaries of participants in the Cash Balance Plan, the benefits will be paid in the form of a lump sum only.

In the event a participant becomes disabled before attaining his or her normal retirement age, the participant will become eligible for a disability retirement allowance as provided by the participant's respective Plan provisions.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Trust Managed by the Trustees - The assets of the Lonza America Inc Master Retirement Trust are held and managed by State Street Bank and Trust Company (the "Trustee") for the years ended December 31, 2015 and 2014. Under the terms of the agreement between LAI and the Trustee, the Trustee manages Lonza America Inc. Master Retirement Trust on behalf of the Plan. The Trustee has been granted discretionary authority concerning purchases and sales of investments in the Lonza America Inc. Master Retirement Trust in accordance with the general guidelines established by the Plan Administrator. Additionally, the Plan's Retirement Committee (the "Committee") regularly reviews the investment performance with an independent investment advisor and the Committee may direct the acquisition and disposition of the assets of the Plan.

Participant Accounts - Under the Cash Balance Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of each year. The compensation credits are allocated based on a percentage of the participants' certified compensation as defined in the plan document for that year. Participants' hypothetical accounts also receive investment credits at the end of each year.

Funding Policy - The Company's policy is to make contributions to provide the benefits under the Plan and is subject to the provisions of ERISA. Contributions by the Company are based upon actuarial computations of the present value of future benefits to be paid to participants as of the beginning of the Plan year. The actuarial cost method used to determine employer contributions to the Plan is the projected unit credit method. In accordance with the Company's funding policy, contributions for 2015 and 2014 were within the minimum and maximum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by its investments advisors, trustees, and insurance company. See Note 6 for a discussion of fair value measurements.

Investment income in Lonza America, Inc. Master Retirement Trust consists of interest income, dividend income and net appreciation of investments. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Eligible expenses to the extent not reimbursed by the Company, include, but are not limited to, investment managers' fees, actuarial fees, legal fees, and audit fees. In addition, certain investment related expenses are included in net depreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits. The Company provides internal accounting and administrative services to the Plan.

Risk and Uncertainties - The assets of the Lonza America Inc. Master Retirement Trust and common collective trusts are primarily investment securities, which are monetary in nature. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan may have investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies and defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Concentration of Investment Risk - The Master Trust's investment in two funds comprises approximately 31% of total investments at December 31, 2015. The Master Trust's investment in two funds comprises approximately 27% of total investments at December 31, 2014.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Change in Accounting Principles - In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early adoption is permitted. The Plan has elected to early adopt ASU 2015-07 for the year ended December 31, 2015.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans and Health and Welfare Benefit Plans; (Part I), Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient. ASU 2015-12 was issued to simplify certain aspects of employee benefit plan reporting. Part II and III of this ASU applies to Defined Benefit Plans. Part II of this ASU eliminates the requirements to disclose (1) individual investments that represent 5 percent of more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. In addition, Part II of this ASU also requires that investments (both participant directed and non-participant directed) of employee benefit plans be grouped by general type and eliminates the need to disaggregate investments by class or other ways. The amendments in Part III of this ASU provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for entities for fiscal years beginning after December 15, 2015, with retrospective application to all periods presented for Part II. Part III may only be applied prospectively. Early adoption is permitted. The Plan has elected to early adopt ASU 2015-12 for the year ended December 31, 2015.

The effect of applying these changes in accounting principles to the Plan in 2015 and 2014 had no impact on the Plan's net assets available for benefits and no change to the net increase or decrease to its net assets in either year.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Plan Termination:

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, in the following order:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years prior to the termination date of the Plan, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).
- c) All other vested benefits (that is vested benefits not insured by the PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the PBGC level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefits that the PBGC guarantees, which is adjusted periodically.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Whether all the participants receive their benefits should the Plan terminate at some future date will depend on the adequacy, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 4 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated September 5, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter to adopt qualifying amendments. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements under the IRC.

Note 5 - Investment in the Lonza America Inc. Master Retirement Trust:

The Plan's investments are in a Master Trust, which was established for the investment of assets of the Plan and several other sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by State Street Bank and Trust Company. The value of the Plan's interest in the Lonza America, Inc. Master Retirement Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

At December 31, 2015 and 2014, the Plan's interest in the net assets of the Lonza America Inc. Master Retirement Trust was approximately 69% each year. Investment income and administrative expenses relating to the Lonza America Inc. Master Retirement Trust are allocated to the individual participating plans based upon average monthly balances invested by each plan. Those expenses which are specifically identifiable to the Plan are charged in full to the Plan. The Plan's specific interest in the net assets of the Lonza America Inc. Master Retirement Trust is neither senior nor subordinate to the specific interest of the other plans participating in the Lonza America Inc. Master Retirement Trust.

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest, dividends, and investment expenses for the years ended December 31, 2015 and 2014, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

See Note 6 for all relevant fair value disclosures related to investment in the Master Trust including valuation methodologies used and leveling within the fair value hierarchy.

Note 6 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Interest bearing cash*: Valued at the closing price in a similar market in which the fund is traded.
- *Mutual funds*: Valued at the closing price reported on the active market in which the fund is traded.
- *Common stock*: Valued at the closing price reported on the active market in which the security is traded.
- *Preferred stock*: Valued at the closing price reported on the active market in which the security is traded.
- *Common collective trust*: Valued at net asset value as reported in the audited financial statements by the investment manager based on the fund's underlying assets.
- *US government securities*: Valued at the closing price reported in the active market in which the individual investment is traded. Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2015 and 2014 the Master Trust had assets and liabilities consisting of a receivable for investments sold, accrued income, another receivable, and a payable for investments purchased. These assets and liabilities equal or approximate fair value due to the underlying assets being common stocks, U.S. government securities, and interest bearing cash.

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets available for Benefits.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015 and 2014, there were no significant transfers in or out of levels 1, 2, or 3.

THE PENSION PLAN OF ARCH CHEMICALS

NOTES TO FINANCIAL STATEMENTS

Fair Value of Investments in Entities that Use Net Asset Value:

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2015 and 2014.

	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2015	2014			
State Street S&P 500 Flagship Non Lending Fund	\$ 80,270,944	\$ 72,211,571	None	Daily	None

Note 7 - Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Except for employees hired on or After 1, 2008, whose benefits are based on the amount accrued in their personal pension accounts, benefits under the Plan are based on employees' highest three years compensation of the last 10 years (whether or not consecutive) of credited service. The accumulated Plan benefits for active employees are based on their average compensation during the three years ending on the date as of which the benefit information is presented (the valuation date). For participants hired on or after April 1, 2008, benefits are based upon 6% of participants' eligible earnings during each quarter that the participants are employed with the Company, adjusted to accrue interest at the prevailing 10-year U.S. Treasury Note rate. Benefits payable under all circumstances, retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered up to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the actuarial valuation date and the expected date of payment.

The actuarial valuation was performed as of January 1, 2015; however, there are no material differences between the values determined as of that date and those presented as of December 31, 2014. The significant actuarial assumptions used in the valuation as of January 1, 2015 were: (a) assumed interest rate of 5.75%; (b) weighted average retirement age of 63; (c) separate rates for non-annuitants and annuitants, based on RP-2014 mortality tables projected generationally with Scale MP-2015. The projected unit credit method was used to determine contributions to the Plan. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 8 - Party-in-Interest:

The assets of the Master Trust invested in funds of the Trustee are considered party-in-interest transactions. The Trustee is a party-in-interest as a provider of investment management and custodial services to the trust funds.

Retirement

Active employees are expected to retire as shown below:

Age	Proportion Electing to retire during the year
55-61	4.00%
62	25.00%
63-66	20.00%
67	100%

The weighted average retirement age is 63.

Benefit Commencement Date

- Retirement Benefit Upon termination of employment.
- Deferred Vested Benefit At age 65.
- Disability Benefit Upon disablement.
- Preretirement Death Benefit The later of the death of the active participant or the date the participant would have attained age 55.

Form of payment

The normal form of payment; except cash balance benefits are paid as a lump sum upon retirement, termination or disability.

Percent married

80% of males and 80% of females are assumed to be married.

Spouse age

Wife three years younger than husband.

Administrative expenses

Normal cost includes a provision for administrative expenses. The amount included for plan related expenses is \$1,961,000 determined by taking previous year's actual administrative expenses adjusted for changes in the PBGC premium.

Covered pay

Assumed plan compensation for the year beginning on the valuation date was determined as the actual pensionable earnings during the prior year, provided by the employer, annualized for participants who did not work for a full year, and increased with a full year's assumed salary increase.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued based on discussions with Lonza regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Lonza and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>No assumption was made for the occurrence of unpredictable contingent event benefits. Based on discussions with Lonza, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a lump sum. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.</p>

Changes in Assumptions and Methods

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2013 to September 2014. The interest rate corridors of HATFA were applied in 2014 and 2015.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The assumed plan-related expenses added to the normal cost were changed from \$1,878,000 for 2014 to \$1,961,000 for 2015.

Retirement

Active employees are expected to retire as shown below:

Age	Proportion Electing to retire during the year
55-61	4.00%
62	25.00%
63-66	20.00%
67	100%

The weighted average retirement age is 63.

Benefit Commencement Date

- Retirement Benefit Upon termination of employment.
- Deferred Vested Benefit At age 65.
- Disability Benefit Upon disablement.
- Preretirement Death Benefit The later of the death of the active participant or the date the participant would have attained age 55.

Form of payment

The normal form of payment; except cash balance benefits are paid as a lump sum upon retirement, termination or disability.

Percent married

80% of males and 80% of females are assumed to be married.

Spouse age

Wife three years younger than husband.

Administrative expenses

Normal cost includes a provision for administrative expenses. The amount included for plan related expenses is \$1,961,000 determined by taking previous year's actual administrative expenses adjusted for changes in the PBGC premium.

Covered pay

Assumed plan compensation for the year beginning on the valuation date was determined as the actual pensionable earnings during the prior year, provided by the employer, annualized for participants who did not work for a full year, and increased with a full year's assumed salary increase.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued based on discussions with Lonza regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Lonza and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>No assumption was made for the occurrence of unpredictable contingent event benefits. Based on discussions with Lonza, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a lump sum. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.</p>

Changes in Assumptions and Methods

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2013 to September 2014. The interest rate corridors of HATFA were applied in 2014 and 2015.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The assumed plan-related expenses added to the normal cost were changed from \$1,878,000 for 2014 to \$1,961,000 for 2015.

Schedule SB, Part V Summary of Plan Provisions

Plan Status: Closed to non-union participants effective November 15, 2011. The plan was amended on August 23, 2012 to freeze benefit accruals for, and fully vest, all non-union participants effective November 9, 2012. The most recent plan amendment reflected in this valuation was effective May 23, 2014 when the last accruing group, Conley union, was frozen and all participants were fully vested.

Except as noted, the following definitions apply throughout:

Benefit Service	Each year with 1,000 hours worked, or 1,950 in the first and last year of service. Partial service is granted in a year by dividing actual hours worked by 1,000 (1,950 for the first and last year).
Creditable Service	Elapsed time.
Compensation	W-2 pay, including Section 125, 132(f) and 402(g) deferrals; and excluding contributions to or benefits from any deferred compensation programs or fringe benefits, cost-of-living allowances, and amounts paid under a performance unit plan or other long-term bonus plan. In the last year of employment, compensation is annualized by adding a pro-rata portion of the employee's base pay.
Average Compensation	Highest average of the Participant's Compensation for any three Plan Years out of the last ten Plan Years.
Social Security benefit	The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment, assuming earnings continue at the same base rate as immediately prior to termination, to the age at which he attains Social Security Normal Retirement Age. The benefit is reduced for commencement prior to Social Security Normal Retirement.

Schedule SB, Part V Summary of Plan Provisions

Plan Status: Closed to non-union participants effective November 15, 2011. The plan was amended on August 23, 2012 to freeze benefit accruals for, and fully vest, all non-union participants effective November 9, 2012. The most recent plan amendment reflected in this valuation was effective May 23, 2014 when the last accruing group, Conley union, was frozen and all participants were fully vested.

Except as noted, the following definitions apply throughout:

Benefit Service	Each year with 1,000 hours worked, or 1,950 in the first and last year of service. Partial service is granted in a year by dividing actual hours worked by 1,000 (1,950 for the first and last year).
Creditable Service	Elapsed time.
Compensation	W-2 pay, including Section 125, 132(f) and 402(g) deferrals; and excluding contributions to or benefits from any deferred compensation programs or fringe benefits, cost-of-living allowances, and amounts paid under a performance unit plan or other long-term bonus plan. In the last year of employment, compensation is annualized by adding a pro-rata portion of the employee's base pay.
Average Compensation	Highest average of the Participant's Compensation for any three Plan Years out of the last ten Plan Years.
Social Security benefit	The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment, assuming earnings continue at the same base rate as immediately prior to termination, to the age at which he attains Social Security Normal Retirement Age. The benefit is reduced for commencement prior to Social Security Normal Retirement.
