INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
Madison/Standard Electric 401(k) Plan
Warren, Michigan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Madison/Standard Electric 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Prudential Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Other Matter**

The supplemental schedule of Schedule H Line 4i – Schedule of Assets (Held At End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Madison/Standard Electric 401(k) Plan

Notes to the Financial Statements

For the Years Ended December 31, 2015 and 2014

NOTE:

1. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of Madison/Standard Electric 401(k) Plan (the “Plan”) are prepared under the accrual method of accounting.

Investments – The Plan’s investments are stated at fair value. Quoted market prices are used to value investments. Shares held in mutual funds at year-end are valued at the net asset value of the shares of the underlying investments by the custodian. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participants’ accounts are self-directed within a limited number of mutual funds. Each active participant’s account is credited with the participant’s elective wage deferral, an allocation of the Employer’s contribution and plan earnings.

Net investment earnings include unrealized appreciation (depreciation), realized gains and losses, and dividend and interest income.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risk and Uncertainties – The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and amounts reported in the statement of net assets available for benefits.

Change in Accounting Principle – In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be retrospectively applied. The Plan has elected to early adopt Part II.

Subsequent Events – The Plan has evaluated events and transactions that occurred through September 8, 2016, which is the date the financial statements were available for issue.

2. Plan Description

The following description of the Madison/Standard Electric 401(k) Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan established by Madison Electric Company, Standard Electric Company and M & S Data Service Corporation (collectively, the “Employer”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Notes to the Financial Statements (Continued)
For the Years Ended December 31, 2015 and 2014

NOTE:**2. Plan Description (Continued)**

Eligibility – Employees of the Employer who have completed one year of service and are 21 years of age or older are eligible to participate in the Plan.

Contribution – Contributions to participants' accounts may be made through voluntary reductions in their compensation, rollover contributions from other qualified plans, as well as discretionary employer matching contributions. Employees participating in the Plan may contribute up to 20% of their before-tax compensation up to the limit in effect for the year (\$18,000 in 2015). During 2015, the Employer matched 20% of the participant's contribution up to 20% of eligible participant wages for employees of Standard Electric Company and matched 5% of the participant's contribution up to 20% of eligible participant wages for employees of Madison Electrical Company and M & S Data Service Corporation. Participants aged 50 or older may make an additional "catch-up" contribution (\$6,000 for 2015). All employer and employee contributions are invested in the investment options as directed by the participants.

Investment Options – Participants' accounts are self-directed within a limited number of mutual funds. Each active participant's account is credited with the participant's elective wage deferral, an allocation of the employer's contributions and plan earnings.

Forfeitures – As of December 31, 2015 and 2014 forfeited non-vested amounts totaled \$3,258 and \$3,371, respectively. These amounts will be used to offset future administrative expenses or Employer contributions.

Vesting – Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the portion of their accounts funded by employer's matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' Withdrawals – Participants or their beneficiaries may receive distributions of their account balances in a lump sum upon the earlier of reaching age 59 1/2, disability, death or termination of service, as defined in the Plan. Further, the Trustee may permit a participant who experiences a qualified financial hardship, as defined by the Plan, to receive a distribution of all or a portion of the participant's elective account balance.

Included in the net assets available for benefits at December 31, 2015 and 2014 are balances due to participants who had terminated employment with the employer, as such they are no longer participating. These accounts are payable on request.

Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE:

2. Plan Description (Continued)

Administrative Expenses – Administrative expenses in the amount of \$49,592 are shown on the statement of changes in net assets available for benefits. This amount represents administrative costs paid to Prudential Retirement Services. The employer absorbs all other costs of the Plan

3. Trust Agreements

The Plan's assets, together with the income thereon, are held in trust with and administered by Prudential Trust Company as participation units in shares of registered investment companies. Investment fees attributable to the Plan's investment transactions and all other costs are paid by the Plan.

4. Tax Status

The Plan is a prototype plan. The Plan obtained its latest determination letter, dated April 29, 2014, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service.

5. Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Related Party Transactions

Certain Plan investments are held in shares of funds managed by Prudential Retirement Services. Prudential Trust Company is the Trustee as defined by the Plan and, therefore, these transactions are considered to be party-in-interest transactions. Participant notes receivable are also classified as party-in-interest transactions. The Plan uses the staff, resources, and facilities of the Plan Sponsor to perform certain administrative activities related to the Plan. These transactions qualify as party-in-interest transactions.

7. Department of Labor Limited Scope Audit

The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2015. This certification provides that the information regarding the investment assets, transactions, income, and the schedules of investments and reportable transactions are complete and accurate.

NOTE:**8. Information Prepared and Certified By Custodian**

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as to being complete and accurate by the trustee, Prudential Trust Company at December 31, 2015.

	<u>2015</u>	<u>2014</u>
Participant directed investments in trust	<u>\$ 27,161,853</u>	<u>\$ 27,513,835</u>

9. Guaranteed Income Fund

A portion of the Plan's investments are maintained in Prudential Guaranteed Income Fund (GIF). GIF is a group annuity product issued by Prudential Retirement Insurance and Annuity Company (PRIAC). Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract Value is also often referred to as "Book Value". The contract is effected directly between the plan sponsor (or their trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be benefit responsive.

Generally there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or in rare circumstances, Contract Value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting. When establishing interest crediting rates for this product, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

The Average Earnings Yield shown is calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. The Average Crediting Rate Yield shown is calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. As a result of current Stable Value product construction, no adjustment will be required to mediate between the average earnings credited to the plan and the average earnings credited to the participants.

	<u>2015</u>	<u>2014</u>
Average yield earned by Plan	1.70%	1.80%
Average yield credited to participants	1.70%	1.80%

NOTE:**10. Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable input (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds: Valued at the closing price reported in the active market in which the mutual fund is traded.

Pooled separate accounts: Valued at the sum of the net asset value of all the fund's underlying investments.

Guaranteed income fund: The concept of value other than contract value does not apply to this insurance company issued general account; even upon a discontinuance of the contract, contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon a discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The plan owns a promise from to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cashflows that could be discounted. As a result, the Fair Value amount shown is equal to the Contract Value.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
Madison/Standard Electric 401(k) Plan
Warren, Michigan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Madison/Standard Electric 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Prudential Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Other Matter**

The supplemental schedule of Schedule H Line 4i – Schedule of Assets (Held At End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Madison/Standard Electric 401(k) Plan

Notes to the Financial Statements

For the Years Ended December 31, 2015 and 2014

NOTE:

1. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of Madison/Standard Electric 401(k) Plan (the “Plan”) are prepared under the accrual method of accounting.

Investments – The Plan’s investments are stated at fair value. Quoted market prices are used to value investments. Shares held in mutual funds at year-end are valued at the net asset value of the shares of the underlying investments by the custodian. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participants’ accounts are self-directed within a limited number of mutual funds. Each active participant’s account is credited with the participant’s elective wage deferral, an allocation of the Employer’s contribution and plan earnings.

Net investment earnings include unrealized appreciation (depreciation), realized gains and losses, and dividend and interest income.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risk and Uncertainties – The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and amounts reported in the statement of net assets available for benefits.

Change in Accounting Principle – In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be retrospectively applied. The Plan has elected to early adopt Part II.

Subsequent Events – The Plan has evaluated events and transactions that occurred through September 8, 2016, which is the date the financial statements were available for issue.

2. Plan Description

The following description of the Madison/Standard Electric 401(k) Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan established by Madison Electric Company, Standard Electric Company and M & S Data Service Corporation (collectively, the “Employer”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Notes to the Financial Statements (Continued)
For the Years Ended December 31, 2015 and 2014

NOTE:**2. Plan Description (Continued)**

Eligibility – Employees of the Employer who have completed one year of service and are 21 years of age or older are eligible to participate in the Plan.

Contribution – Contributions to participants' accounts may be made through voluntary reductions in their compensation, rollover contributions from other qualified plans, as well as discretionary employer matching contributions. Employees participating in the Plan may contribute up to 20% of their before-tax compensation up to the limit in effect for the year (\$18,000 in 2015). During 2015, the Employer matched 20% of the participant's contribution up to 20% of eligible participant wages for employees of Standard Electric Company and matched 5% of the participant's contribution up to 20% of eligible participant wages for employees of Madison Electrical Company and M & S Data Service Corporation. Participants aged 50 or older may make an additional "catch-up" contribution (\$6,000 for 2015). All employer and employee contributions are invested in the investment options as directed by the participants.

Investment Options – Participants' accounts are self-directed within a limited number of mutual funds. Each active participant's account is credited with the participant's elective wage deferral, an allocation of the employer's contributions and plan earnings.

Forfeitures – As of December 31, 2015 and 2014 forfeited non-vested amounts totaled \$3,258 and \$3,371, respectively. These amounts will be used to offset future administrative expenses or Employer contributions.

Vesting – Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the portion of their accounts funded by employer's matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' Withdrawals – Participants or their beneficiaries may receive distributions of their account balances in a lump sum upon the earlier of reaching age 59 1/2, disability, death or termination of service, as defined in the Plan. Further, the Trustee may permit a participant who experiences a qualified financial hardship, as defined by the Plan, to receive a distribution of all or a portion of the participant's elective account balance.

Included in the net assets available for benefits at December 31, 2015 and 2014 are balances due to participants who had terminated employment with the employer, as such they are no longer participating. These accounts are payable on request.

Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE:**2. Plan Description (Continued)**

Administrative Expenses – Administrative expenses in the amount of \$49,592 are shown on the statement of changes in net assets available for benefits. This amount represents administrative costs paid to Prudential Retirement Services. The employer absorbs all other costs of the Plan

3. Trust Agreements

The Plan's assets, together with the income thereon, are held in trust with and administered by Prudential Trust Company as participation units in shares of registered investment companies. Investment fees attributable to the Plan's investment transactions and all other costs are paid by the Plan.

4. Tax Status

The Plan is a prototype plan. The Plan obtained its latest determination letter, dated April 29, 2014, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service.

5. Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Related Party Transactions

Certain Plan investments are held in shares of funds managed by Prudential Retirement Services. Prudential Trust Company is the Trustee as defined by the Plan and, therefore, these transactions are considered to be party-in-interest transactions. Participant notes receivable are also classified as party-in-interest transactions. The Plan uses the staff, resources, and facilities of the Plan Sponsor to perform certain administrative activities related to the Plan. These transactions qualify as party-in-interest transactions.

7. Department of Labor Limited Scope Audit

The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2015. This certification provides that the information regarding the investment assets, transactions, income, and the schedules of investments and reportable transactions are complete and accurate.

NOTE:**8. Information Prepared and Certified By Custodian**

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as to being complete and accurate by the trustee, Prudential Trust Company at December 31, 2015.

	<u>2015</u>	<u>2014</u>
Participant directed investments in trust	<u>\$ 27,161,853</u>	<u>\$ 27,513,835</u>

9. Guaranteed Income Fund

A portion of the Plan's investments are maintained in Prudential Guaranteed Income Fund (GIF). GIF is a group annuity product issued by Prudential Retirement Insurance and Annuity Company (PRIAC). Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract Value is also often referred to as "Book Value". The contract is effected directly between the plan sponsor (or their trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be benefit responsive.

Generally there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or in rare circumstances, Contract Value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting. When establishing interest crediting rates for this product, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

The Average Earnings Yield shown is calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. The Average Crediting Rate Yield shown is calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. As a result of current Stable Value product construction, no adjustment will be required to mediate between the average earnings credited to the plan and the average earnings credited to the participants.

	<u>2015</u>	<u>2014</u>
Average yield earned by Plan	1.70%	1.80%
Average yield credited to participants	1.70%	1.80%

NOTE:**10. Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable input (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds: Valued at the closing price reported in the active market in which the mutual fund is traded.

Pooled separate accounts: Valued at the sum of the net asset value of all the fund's underlying investments.

Guaranteed income fund: The concept of value other than contract value does not apply to this insurance company issued general account; even upon a discontinuance of the contract, contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon a discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The plan owns a promise from to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cashflows that could be discounted. As a result, the Fair Value amount shown is equal to the Contract Value.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
Madison/Standard Electric 401(k) Plan
Warren, Michigan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Madison/Standard Electric 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Prudential Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

**Other Matter**

The supplemental schedule of Schedule H Line 4i – Schedule of Assets (Held At End of Year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Madison/Standard Electric 401(k) Plan

Notes to the Financial Statements

For the Years Ended December 31, 2015 and 2014

NOTE:

1. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of Madison/Standard Electric 401(k) Plan (the “Plan”) are prepared under the accrual method of accounting.

Investments – The Plan’s investments are stated at fair value. Quoted market prices are used to value investments. Shares held in mutual funds at year-end are valued at the net asset value of the shares of the underlying investments by the custodian. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participants’ accounts are self-directed within a limited number of mutual funds. Each active participant’s account is credited with the participant’s elective wage deferral, an allocation of the Employer’s contribution and plan earnings.

Net investment earnings include unrealized appreciation (depreciation), realized gains and losses, and dividend and interest income.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risk and Uncertainties – The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and amounts reported in the statement of net assets available for benefits.

Change in Accounting Principle – In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be retrospectively applied. The Plan has elected to early adopt Part II.

Subsequent Events – The Plan has evaluated events and transactions that occurred through September 8, 2016, which is the date the financial statements were available for issue.

2. Plan Description

The following description of the Madison/Standard Electric 401(k) Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan established by Madison Electric Company, Standard Electric Company and M & S Data Service Corporation (collectively, the “Employer”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

NOTE:**2. Plan Description (Continued)**

Eligibility – Employees of the Employer who have completed one year of service and are 21 years of age or older are eligible to participate in the Plan.

Contribution – Contributions to participants' accounts may be made through voluntary reductions in their compensation, rollover contributions from other qualified plans, as well as discretionary employer matching contributions. Employees participating in the Plan may contribute up to 20% of their before-tax compensation up to the limit in effect for the year (\$18,000 in 2015). During 2015, the Employer matched 20% of the participant's contribution up to 20% of eligible participant wages for employees of Standard Electric Company and matched 5% of the participant's contribution up to 20% of eligible participant wages for employees of Madison Electrical Company and M & S Data Service Corporation. Participants aged 50 or older may make an additional "catch-up" contribution (\$6,000 for 2015). All employer and employee contributions are invested in the investment options as directed by the participants.

Investment Options – Participants' accounts are self-directed within a limited number of mutual funds. Each active participant's account is credited with the participant's elective wage deferral, an allocation of the employer's contributions and plan earnings.

Forfeitures – As of December 31, 2015 and 2014 forfeited non-vested amounts totaled \$3,258 and \$3,371, respectively. These amounts will be used to offset future administrative expenses or Employer contributions.

Vesting – Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the portion of their accounts funded by employer's matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' Withdrawals – Participants or their beneficiaries may receive distributions of their account balances in a lump sum upon the earlier of reaching age 59 1/2, disability, death or termination of service, as defined in the Plan. Further, the Trustee may permit a participant who experiences a qualified financial hardship, as defined by the Plan, to receive a distribution of all or a portion of the participant's elective account balance.

Included in the net assets available for benefits at December 31, 2015 and 2014 are balances due to participants who had terminated employment with the employer, as such they are no longer participating. These accounts are payable on request.

Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE:

2. Plan Description (Continued)

Administrative Expenses – Administrative expenses in the amount of \$49,592 are shown on the statement of changes in net assets available for benefits. This amount represents administrative costs paid to Prudential Retirement Services. The employer absorbs all other costs of the Plan

3. Trust Agreements

The Plan's assets, together with the income thereon, are held in trust with and administered by Prudential Trust Company as participation units in shares of registered investment companies. Investment fees attributable to the Plan's investment transactions and all other costs are paid by the Plan.

4. Tax Status

The Plan is a prototype plan. The Plan obtained its latest determination letter, dated April 29, 2014, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service.

5. Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Related Party Transactions

Certain Plan investments are held in shares of funds managed by Prudential Retirement Services. Prudential Trust Company is the Trustee as defined by the Plan and, therefore, these transactions are considered to be party-in-interest transactions. Participant notes receivable are also classified as party-in-interest transactions. The Plan uses the staff, resources, and facilities of the Plan Sponsor to perform certain administrative activities related to the Plan. These transactions qualify as party-in-interest transactions.

7. Department of Labor Limited Scope Audit

The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2015. This certification provides that the information regarding the investment assets, transactions, income, and the schedules of investments and reportable transactions are complete and accurate.

NOTE:**8. Information Prepared and Certified By Custodian**

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified as to being complete and accurate by the trustee, Prudential Trust Company at December 31, 2015.

	<u>2015</u>	<u>2014</u>
Participant directed investments in trust	<u>\$ 27,161,853</u>	<u>\$ 27,513,835</u>

9. Guaranteed Income Fund

A portion of the Plan's investments are maintained in Prudential Guaranteed Income Fund (GIF). GIF is a group annuity product issued by Prudential Retirement Insurance and Annuity Company (PRIAC). Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract Value is also often referred to as "Book Value". The contract is effected directly between the plan sponsor (or their trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be benefit responsive.

Generally there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or in rare circumstances, Contract Value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting. When establishing interest crediting rates for this product, Prudential considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting rate under the contract is 1.50%.

The Average Earnings Yield shown is calculated by dividing the earnings credited to the plan on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. The Average Crediting Rate Yield shown is calculated by dividing the earnings credited to the participants on the last day of the plan year by the end of plan year Fair Value and then annualizing the result. As a result of current Stable Value product construction, no adjustment will be required to mediate between the average earnings credited to the plan and the average earnings credited to the participants.

	<u>2015</u>	<u>2014</u>
Average yield earned by Plan	1.70%	1.80%
Average yield credited to participants	1.70%	1.80%

NOTE:**10. Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable input (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual Funds: Valued at the closing price reported in the active market in which the mutual fund is traded.

Pooled separate accounts: Valued at the sum of the net asset value of all the fund's underlying investments.

Guaranteed income fund: The concept of value other than contract value does not apply to this insurance company issued general account; even upon a discontinuance of the contract, contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon a discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The plan owns a promise from to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cashflows that could be discounted. As a result, the Fair Value amount shown is equal to the Contract Value.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
