ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements

1. Description of the Plan:

The following description of the Essentra USA Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan covering those employees of Essentra Holdings Corporation (the "Company") who meet the eligibility requirements as stated in the Plan. Employees who were members of the Bunzl USA, Inc. Retirement Plan (the "Bunzl Plan") on the day before June 6, 2005 (the "Effective Date") became members of the Plan only if he or she completed an Hour of Service for the Company on and after the Effective Date. An Hour of Service is each hour for which an employee is directly or indirectly paid or entitled to payment by the Company. The Bunzl Plan was closed to new entrants hired before March 1, 2003 and the Plan has remained closed to new entrants since that date.

Certain employees made an election to stop accruing a benefit under the Bunzl Plan on May 31, 2003. Other employees elected to continue accruing benefits under the Bunzl Plan, referred to as "Grandfathered Employees", and their benefit will reflect benefit service under the Plan in addition to the accrued benefit that was transferred from the Bunzl Plan. Assets associated with the Bunzl Plan were (and continue to be) transferred to the trust maintained for this plan. Effective December 31, 2015, the Plan was closed to new entrants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits: A Plan member whose employment terminates on or after attaining normal retirement age shall be eligible to receive normal retirement benefits under the Plan payable in the form of a single life annuity or automatic joint and surviving spouse annuity for married members. Normal retirement age is the later of age 65 or the fifth anniversary of the date on which the member commenced participation in the Plan. The monthly normal retirement benefit shall be determined as of normal retirement age and shall be equal to an amount which, when added to 50% of their social security benefit, equals 50% of their average final compensation; provided, however, that if such member has less than 30 years of service at that time, the amount determined above shall be reduced by multiplying it by the ratio of such member's benefit service to 30. Average final compensation means the monthly average of compensation received for the period of the five such consecutive complete calendar years during the last ten consecutive calendar years immediately preceding the individual's termination for which the individual's compensation was highest. The monthly benefit payments shall begin as of the normal retirement date. Members are also eligible to receive early retirement and death benefits under the Plan.

1. Description of the Plan, Continued:

Death Benefits: A participant's beneficiary monthly benefit shall be payable to the beneficiary for life, beginning as of the first day of the calendar month in which the participant would have attained normal retirement age or, if later, the first day of the calendar month following the participant's death. If a participant dies after the date on which such participant has attained the earliest retirement age (55), the participant's beneficiary will receive 50% of the amount of the monthly retirement benefit that the member would have been entitled to receive.

Disability Benefits: If a participant becomes disabled prior to the normal retirement date, the participant will be fully vested in all benefits and shall be entitled to their normal retirement benefit accrued as of that date.

2. Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits: Benefits are recorded when paid.

Prepaid Distributions: Prepaid distributions represent disbursements from the Plan related to the subsequent year.

Use of Estimates: The preparation of financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. Changes in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

2. Summary of Significant Accounting Policies, Continued:

Method of Funding: For 2015 and 2014, the actuarial cost method used in the valuation by the Plan's actuary is the Standard Unit Credit method of funding.

Changes in Accounting Principles: In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, which eliminates the requirement to categorize investments in the fair value hierarchy if their fair value is measured using net asset value ("NAV") per share as a practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management has elected to early adopt this ASU and the adoption of this ASU is reflected in the fair value hierarchy table where investments valued using NAV per share as a practical expedient are excluded from categorization in the fair value hierarchy.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, Health and Welfare Benefit Plans: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to early adopt Part II and the adoption of this ASU is reflected retrospectively in these financial statements.

Subsequent Events: Management has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued, and has determined there are no subsequent events to be reported in the accompanying financial statements.

3. Contributions:

The Company's funding policy is designed to fund the Plan's normal costs on a current basis and to fund, over a period not in excess of 30 years, the unfunded past service liability, such that all participants' benefits will be fully provided for by the time they retire. The Company's contributions of \$59,000 for 2015 and \$1,510,000 for 2014 meet the minimum funding requirements of ERISA.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

4. Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits for former participants or their beneficiaries who have been receiving for at least three years, or those participants eligible to retire for that three-year period who would have been receiving benefits if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is further limited to the lowest benefit that would payable under the provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC"), a U.S. governmental agency, up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan would be guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2015 that ceiling was \$5,011 per month and for 2014 that ceiling was \$4,943 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

5. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits for participants are based on demographic assumptions and an assumed interest rate. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, disability, termination, or retirement) between the valuation date and the expected date of payment. Projected years of service are used only to determine eligibility for a benefit in the future.

In accordance with ASC 960, the Company has chosen to present the actuarial present value of accumulated plan benefits and assumptions as of the beginning of the Plan years, January 1.

Significant actuarial assumptions used in the valuations as of January 1, 2015 and 2014 were:

Assumed rate of return on investments: 6.72% compounded annually for 2015 and 2014.

Discount rate: 6.72% for 2015 and 2014 for the present value of accumulated benefits.

Mortality: The Static Mortality Table for Annuitants and Non-Annuitants for 2015 and 2014.

Disabled mortality: The Static Mortality Table for Annuitants and Non-Annuitants for 2015 and 2014.

Estimated salary increases: 3.00% for 2015 and 2014, increased annually.

Surviving spouse benefit: It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

5. Actuarial Present Value of Accumulated Plan Benefits, Continued:

Retirement: Annual retirement rates are according to the following table:

<u>Age</u>	<u>Annual Retirement Rate</u>
55	15%
56-59	8%
60	15%
61	8%
62	25%
63-64	10%
65	50%
66-69	15%
70+	100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information as of January 1, are as follows:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 21,270,788	\$ 20,721,081
Vested benefits for other participants	<u>17,609,191</u>	<u>24,042,210</u>
	38,879,979	44,763,291
Nonvested benefits	<u>552,086</u>	<u>589,646</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 39,432,065</u>	<u>\$ 45,352,937</u>

5. Actuarial Present Value of Accumulated Plan Benefits, Continued:

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2015 and 2014 consists of the following:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits, January 1, 2014 and 2013	\$ 45,352,937	\$ 44,011,361
Change during the year attributable to:		
Benefits accumulated	2,808,300	662,824
Change in assumptions	73,390	84,583
Interest due to the decrease in the discount period	2,668,554	2,881,944
Benefits paid	<u>(11,471,116)</u>	<u>(2,287,775)</u>
Net change	<u>(5,920,872)</u>	<u>1,341,576</u>
Actuarial present value of accumulated plan benefits, January 1, 2015 and 2014	<u>\$ 39,432,065</u>	<u>\$ 45,352,937</u>

6. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") has issued guidance for measurement and disclosure of fair value and establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology are quoted prices for similar instruments in active and inactive markets; and model driven valuations with significant inputs and drivers derived from observable active markets.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

6. Fair Value Measurements, Continued:

Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments carried or disclosed at fair value:

Money market funds: Valued at cost, which approximates fair value

Mutual funds: Valued at the NAV of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange-traded funds: Exchange-traded funds traded on a national securities exchange are stated at the last reported sales price on the day of valuation.

Common/collective trusts: Valued at the NAV of units of the trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

6. Fair Value Measurements, Continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

	Investments at Fair Value		
	Level 1	Level 2	Total
Investments:			
Money market funds	\$ -	\$ 111,269	\$ 111,269
Mutual funds	13,114,558	-	13,114,558
Exchange-traded funds	26,095,651	-	26,095,651
Total investments at fair value	<u>\$ 39,210,209</u>	<u>\$ 111,269</u>	<u>\$ 39,321,478</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

	Investments at Fair Value		
	Level 1	Level 2	Total
Investments:			
Money market funds	\$ -	\$ 1,820,543	\$ 1,820,543
Mutual funds	5,579,572	-	5,579,572
Total investments in the fair value hierarchy	<u>\$ 5,579,572</u>	<u>\$ 1,820,543</u>	7,400,115
Common/collective trusts, measured at net asset value			<u>34,747,685</u>
Total investments at fair value			<u>\$ 42,147,800</u>

There were no investments measured at fair value based on NAV per share, and not registered with the SEC, as of December 31, 2015. The following table summarizes investments measured at fair value based on NAV per share, and not registered with the SEC, as of December 31, 2014:

December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trusts	\$ 34,747,685	None	Daily	None

ESSENTRA USA RETIREMENT PLAN

Notes to Financial Statements, Continued

7. Related Party Transactions:

At December 31, 2015 and 2014, several Plan investments are in certain common/collective trusts managed by First State Trust Company, the trustee of the Plan, and therefore are considered to be party-in-interest transactions for which statutory exemption exists under the Department of Labor Regulations. Fees paid by the Plan to the trustee amounted to \$69,365 for 2015 and \$65,020 for 2014.

8. Income Tax Status:

The Internal Revenue Service has determined and informed the Company by letter dated August 27, 2012 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the effects of accounting guidance related to uncertain income tax positions and concluded that the Plan had no significant financial statement exposure to uncertain income tax positions at December 31, 2015 and 2014. The Plan is not currently under audit by any tax authority.

9. Risks and Uncertainties:

The Plan invests in various investment securities. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

For ERISA Requirements

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC Section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC Section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2013 Plan Year	6.72%
2014 Plan Year	6.72%
Trust Expenses Included in Target Normal Cost	Prior year administrative expenses rounded to the nearest \$1,000.

For ERISA Requirements

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC Section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC Section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2013 Plan Year	6.72%
2014 Plan Year	6.72%
Trust Expenses Included in Target Normal Cost	Prior year administrative expenses rounded to the nearest \$1,000.
