NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE A - DESCRIPTION OF THE PLAN AND TRUST

The following description of the JBT Corporation Employees' Retirement Program (the Plan) provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan sponsored by John Bean Technologies Corporation (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers substantially all employees of the Company, its retirees and terminated vested employees. The plan also provides benefits to eligible retirees of certain predecessor companies, including former employees of the FoodTech and AeroTech businesses of FMC Corporation and FMC Technologies, Inc.

Effective January 1, 2010, the Plan was amended, with respect to non-union employees, to freeze any future participation and future benefit accruals.

Effective January 1, 2015, the Plan was amended to freeze any future participation in the Plan by union employees. Effective January 1, 2018, the Plan will be frozen with respect to all future benefit accruals.

The Plan's assets are held in a trust with The Northern Trust Company (Northern Trust or the Trustee). All of the assets of the Plan are available to pay benefits to participants of the Plan.

Eligibility

The Plan is a defined benefit pension plan covering substantially all employees of the Company, its retirees and terminated vested employees.

Effective January 1, 2010, the Plan was amended to freeze any future participation in the Plan by non-union employees.

Effective January 1, 2015, the Plan was amended to freeze any future participation in the Plan by union employees, as well as any future benefit accruals.

Pension Benefits

Effective January 1, 2010, the Plan was amended to discontinue future benefit accruals for active non-union employees who were participants under the Plan as of December 31, 2009.

The following provisions of the Plan apply to the salaried and non-union hourly employees of the Company:

The normal retirement age is 65. A participant who terminates employment prior to completing five years of service is not eligible to receive a pension under the Plan. However, an active employee becomes vested at age 65 regardless of the years of service.

JBT Corporation
Employees' Retirement Program
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

The normal annual benefit amount is equal to the sum of [(1) + (2)] times (3) where:

- (1) 1% of final average annual earnings up to allowable Social Security covered compensation
Plus
1.5% of final average annual earnings in excess of allowable Social Security covered compensation
Times
Years of credited service projected to age 65 (maximum of 35 years)
- (2) 1.5% of final average annual earnings times years of credited service projected to age 65 in excess of 35 years
- (3) Ratio of years of credited service as of termination to years of credited service projected to age 65

Plan participants hired before January 1, 1984, are eligible for early retirement on or after age 55. Plan participants hired after December 31, 1983, are eligible for early retirement following attainment of age 55 and 10 years of credited service.

The following provisions of the Plan apply to employees covered by the Jetway Systems Union and former employees covered by the Jetway Systems Union, Green Bay Union, Hoopeston Union and Smith Meter Unit Hourly benefit structures:

- The normal retirement age ranges between 62 and 65. A participant who terminates employment prior to completing vesting service of five years is not eligible to receive a pension under the Plan. The normal monthly benefit amount ranges between \$21.50 and \$33.00 times the years of service.
- Participants are entitled to early retirement following attainment of a specified age and a specified number of years of vesting service. For early retirement, the benefit is the monthly accrued benefit, reduced by early retirement reduction factors outlined in the Plan.

Death and Disability Benefits

Certain union participants are eligible for disability benefits upon becoming permanently and totally disabled and, in some cases, after completing 10 to 15 years of service. The Plan also has provisions for benefits for the surviving spouse or beneficiary of a participant (including a pre-retirement survivor benefit if the employee's death occurs while still an active employee).

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Adoption of New Accounting Rules

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for non-public entities for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions for this new standard. Accordingly, the amendment was retrospectively applied, resulting in the removal of the Plan's investment for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that the total investments in the fair value hierarchy can be reconciled to total investments measured at fair value on the statement of net assets available for benefits. The adoption of this ASU did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts (FBRICs) and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. The adoption of parts of this ASU did not have a material impact on the financial statements.

Parts I and III are not applicable to the Plan, but management has elected to early adopt Part II. In accordance with the early adoption of Part II, the disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type and the investment strategy for the Plan's investment measured at NAV have been removed, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks. The removal of these items have no material impact of the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates, but the Plan administrator does not believe such differences will materially affect the Plan's financial position or results of operations.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements date. See note H for discussion on fair value measurements.

JBT Corporation
Employees' Retirement Program
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses of investments bought and sold, as well as, held during the year.

Payment of Benefits

Benefits paid to participants and beneficiaries are recorded when paid.

In 2015 the Company offered a voluntary lump sum payment opportunity to certain qualifying terminated vested participants. Final payout to participants electing to receive the lump sum payment occurred in December, 2015. The Plan paid a total of approximately \$12.7 million in lump sum payments resulting from the offering.

Administrative Expenses

Administrative expenses are primarily paid by the Plan.

NOTE C - FUNDING POLICY

The Company's funding policy is to contribute at least the minimum required by law, and to make additional discretionary contributions where advantageous to provide for favorable tax treatment, reduce long-term costs and/or improve short-term results. The determination of required contributions to be made by the Company during 2015 and 2014 was based on actuarial valuations as of January 1 of each year and in accordance with Internal Revenue Service (IRS) regulations. The Company has met the minimum funding requirements as set forth by ERISA for the 2015 and 2014 Plan years.

NOTE D - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. The net assets of the Plan would be allocated to the benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The amount is limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. The net assets of the Plan would be allocated to other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

JBT Corporation
Employees' Retirement Program
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

3. The net assets of the Plan would be allocated to all other benefits (that is, vested and non-vested benefits not insured by the PBGC).

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and survivor benefits. However, the amount of benefit protection from the PBGC is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years of age at the time of retirement or Plan termination (whichever comes later). For some annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of the Company or the level of benefits guaranteed by the PBGC.

NOTE E - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2014 and 2013 (the most recent valuation dates), were:

- (1) Life expectancy of participants - the aggregate 2006 base rates from the RP 2014 Combined Mortality Table with improvements projected generationally using Scale MP-2015 was used for year December 31, 2014, and the RP 2014 Mortality Table was used for the year ended December 31, 2013
- (2) Retirement age assumptions - the assumed average retirement age varies between 55 and 70 for active participants and 62 for terminated vested participants for the year ended December 31, 2014 and December 31, 2013, and
- (3) An assumed rate of return on assets of 7.25% and 8.00% for the years December 31, 2014 and 2013.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

JBT Corporation
Employees' Retirement Program
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

The total actuarial present value of accumulated Plan benefits consisted of the following as of December 31, 2014:

Vested benefits	
Participants currently receiving payments	\$100,138,322
Other participants	<u>105,581,583</u>
Total vested benefits	205,719,905
Non-vested participants	<u>1,712,218</u>
Total actuarial present value of accumulated Plan benefits	<u>\$207,432,123</u>

Changes in the total actuarial present value of accumulated Plan benefits were as follows:

Total actuarial present value of accumulated Plan benefits on December 31, 2013	\$188,120,163
Increase (decrease) during the period attributable to	
Benefits accumulated and other experience items	653,897
Interest accumulation	14,653,071
Benefits paid	(10,108,000)
Change in actuarial assumptions	<u>14,112,992</u>
Net increase	<u>19,311,960</u>
Total actuarial present value of accumulated Plan benefits on December 31, 2014	<u>\$207,432,123</u>

NOTE F - TAX STATUS

On May 31, 2012, the Company submitted an application to the IRS for a favorable determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable sections in the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. On August 8, 2016, the Company received a favorable determination letter from the IRS. The determination letter applies the Plan adopted on June 8, 2008, and amendments dated: September 15, 2009, December 23, 2009, October 25, 2011, and May 22, 2012.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - FAIR VALUE MEASUREMENTS

The fair value framework requires the categorization of assets and liabilities into three levels based on the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value; whereas, Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 - Observable inputs other than those included in Level 1; for example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Common stock - Valued at the closing price reported in the active market in which the individual security is traded or bid and obtained from independent pricing services and brokers if the closing price is not available.

Collective funds - Valued using the NAV provided by the fund's trustee based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding held by the Plan at year-end as practical expedient fair value. The Plan's fair value is based on the Plan's proportionate ownership of the underlying investments. The NAV is calculated, at a minimum, on a daily basis. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Partnership fund - Valued using the NAV provided by the fund's trustee based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding held by the Plan at year-end as practical expedient fair value. The NAV is calculated, at a minimum, on a monthly basis.

Registered investment companies - Valued at the closing price reported in the active market in which the individual security is traded.

U.S. government securities and corporate bonds - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following instruments as of December 31, 2015 and 2014, respectively:

- (1) The Plan is required to provide a redemption notice to withdraw its shares in the collective fund investment, after which time the investment will no longer be available as an investment option. These funds may be redeemed daily without restrictions other than the Plan liquidating its investments. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.
- (2) The primary objective of the partnership fund is to provide an enhancement to an investor's portfolio of financial investments and to provide a partial inflation hedge, with an attractive risk/return profile as compared to other products using a commodity index or a pool of commodities. Funds may be redeemed monthly without restrictions. Were the Plan to initiate a full redemption, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.
- (3) The prior year number has been updated as a result of the adoption of ASU No. 2015-12. See note B.

NOTE I - PARTY-IN-INTEREST TRANSACTIONS

All transactions with the Company, Northern Trust, the Plan's record keeper, service providers or participants are considered party-in-interest transactions. Certain Plan assets are invested in funds managed by Northern Trust and GMO. Northern Trust is the trustee of the Plan and GMO is an investment advisor of the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE J - RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term

and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE K - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2015, financial statements for subsequent events through October 11, 2016, the date the financial statements were available to be issued. Effective as of August 1, 2016, the Plan was amended to offer a limited-time lump-sum election to qualifying participants during a window period of September 19, 2016 through October 31, 2016, with payments expected to be paid out during December of 2016. The Plan has no other subsequent events of a material nature to report.

Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year.
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.

Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

Early Retirement

The benefit is computed in the same manner as the normal retirement benefit except for the following:

- (1) The amount determined in [(1) + (2)] times (3) above will be reduced by $\frac{1}{3}$ of 1% for each month in excess of 36 that retirement precedes age 65.
- (2) For each year that retirement precedes age 65, the amount of employee contributions and interest required to provide \$1.00 of benefits under part (4) above is increased by \$3.00.

Deferred Vested

The accrued normal retirement benefit payable for life commencing at age 65. The benefit is payable as early as age 55, with reductions of 0.5% applied for each month between benefit commencement and age 65.

Participants who were terminated under a reduction in force and who attained 65 points (age plus service) at termination will receive the early retirement benefit reductions.

Preretirement Death Benefits

Survivor's Benefit

For employees eligible for early retirement, a benefit is payable to a beneficiary for life equal to 50% of what the participant would have received had the participant retired on the day of his death with the 50% joint and survivor option in effect.

The employee's past contributions with interest serve as a minimum benefit upon death.

Spouse's Benefit

For employees who are vested but not yet eligible for early retirement, a benefit is payable to a surviving spouse equal to 50% of the amount the participant would have received if the participant terminated on the date of his death, survived until his earliest retirement date and retired with the 50% joint and survivor option in effect.

The employee's past contributions with interest serve as a minimum benefit upon death.

Normal Form of Annuity

Life annuity. Benefits are paid to married participants on a reduced basis as a qualified joint and survivor annuity, unless elected otherwise.
