The financial statements of the plan as of December 31, 2014, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated October 14, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the 2015 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SCRIPPS NETWORKS INTERACTIVE 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2015 AND 2014, AND FOR THE YEAR ENDED DECEMBER 31, 2015

1. DESCRIPTION OF PLAN

The following description of the Scripps Networks Interactive 401(k) Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General—The Plan is a defined contribution plan maintained by Scripps Networks Interactive, Inc. (the “Company” or “Scripps”) and subsidiaries. The Plan became effective on January 1, 2009.

The Plan includes a 401(k) savings option which allows participants to defer a portion of their eligible compensation (principally base salary and commissions) for income tax reporting purposes, subject to a maximum set by federal law. Vanguard Fiduciary Trust Company (“Vanguard”) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation—Effective January 1, 2010, Participation in the Plan was open to all employees upon employment.

Contributions—Participants may contribute to the Plan, through payroll deductions, a minimum of 1% and up to 16% of eligible compensation, subject to certain Internal Revenue Code (IRC) limitations. For most participants, Scripps contributes amounts equal to one-half of the participants’ contributions up to 6% of eligible compensation.

Beginning January 1, 2010, the Plan included an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Beginning January 1, 2010, upon meeting a one year service requirement, participants also receive an additional Company contribution based on a point system which combines age and years of service as of the first day of the year, ranging from a minimum of 2% to a maximum of 8% of eligible compensation.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution, the Scripps matching contribution, allocations of Scripps’ discretionary contributions, and Plan earnings, and charged with withdrawals and an allocation of Plan investment income and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments—Participants direct the investment of their contributions and/or existing account balances into various investment options offered by the Plan. The Plan currently offers 26 mutual funds and a common collective trust (CCT) fund as investment options for participants.

Vesting—All participants are immediately fully vested in employee contributions, plus earnings thereon. Participants hired before January 1, 2010 are immediately fully vested in employer matching contributions. Participants hired after January 1, 2010 become fully vested in employer matching contributions after three years of service based on a three year cliff vesting of 33% per year. All participants become fully vested in any age and service based employer contributions after three years of service.

Withdrawals—Contributions to the Plan and corresponding earnings are accessible to participants upon retirement or after employment with Scripps ends. However, the Plan grants participants access to contributions and the corresponding earnings for withdrawal during employment subject to various limitations and restrictions. In addition, participants who have made contributions to the Plan for greater than 60 months or participants who are at least age 65 may withdraw Scripps' matching contributions and the corresponding earnings. Participants are also permitted to withdraw contributions and corresponding earnings under financial hardship provisions. Participants who elect to withdraw funds under the financial hardship provisions are not allowed to contribute to the Plan for six months following such a withdrawal. Withdrawals are recorded when paid.

Notes Receivable from Participants—Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their account balances. Loans are treated as transfers from an investment fund to the Participant Loan Fund. Principal and interest are paid ratably through payroll deductions or as a lump sum for the outstanding balance over a period not to exceed five years; however, loans become due and payable upon termination of employment. The loans are secured by the balance in the participants' accounts and bear interest at a rate equal to prime (as of the date the loan is issued) plus 1%. The prime rate was 3.50% at December 31, 2015. As of December 31, 2015, participant loans have maturities through 2021 at an interest rate of 4.25% - 4.50%.

Payment of Benefits—Benefit payments to participants are recorded upon distribution. There were no participants, who elected to withdraw from the Plan, but had not yet been paid at December 31, 2015.

Forfeited Accounts—At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$394,794 and \$308,966, respectively. These accounts will be used to reduce future employer contributions or pay Plan administrative expenses. During the year ended December 31, 2015, employer contributions were reduced by \$211,296 from forfeited nonvested accounts.

Administration—Scripps is responsible for the administration of the Plan. Scripps provides the Plan with certain accounting and administrative services for which no fees are charged.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, *Fair Value Measurements*, for discussion on fair value measurements.

The Vanguard Retirement Savings Trust III (the “Fund”) is a CCT fund which invests in fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits that is attributable to fully benefit-responsive investment contracts. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Use of Estimates—The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment options to its participants, including mutual funds and a CCT fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants’ account balances and the amounts reported in the financial statements.

Subsequent Events—The Plan has evaluated subsequent events from December 31, 2015 through October 17, 2016, the date these financial statements were available to be issued.

New Accounting Standards Not Yet Effective—

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investment for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for fiscal periods beginning after December 15, 2016. The Company is currently evaluating the impact of this guidance.

In July 2015, the FASB issued ASU 2015-12 in an attempt to reduce complexity in employee benefit plan accounting consistent with its simplification initiative. There are three parts under this new standard to take into consideration. They are as follows:

Part I amends the accounting guidance to allow fully benefit-responsive investment contracts measured, presented and disclosed only at contract value, which will eliminate the fair value adjustments presented on the face of plan benefit financial statements and modify the reconciliation disclosure in the footnotes.

Part II amends the accounting guidance to remove the requirement to disclose individual investments that are 5% or more of net assets and net appreciation or depreciation for investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value.

Part III provides a practical expedient to permit plans to measure investment and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month end.

The new accounting guidance is effective for fiscal periods beginning after December 15, 2016. Early adoption is permitted. The Plan is currently evaluating the impact of this guidance.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds—Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Fund—Valued at the net asset value of units of a bank collective trust. The net asset value as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level within the fair value hierarchy the Plan's investments measured at fair value on a recurring basis at December 31, 2015, held at Vanguard.

Transfers Between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no transfers between levels.

5. STABLE VALUE FUND

The Fund is a stable value CCT fund sponsored and trusted by Vanguard. The Fund invests in benefit-responsive investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by Vanguard. The primary investment contracts consist of the following:

- Traditional investment contracts issued by insurance companies and banks are nontransferable, but provide for benefit-responsive withdrawals by plan participants at contract value. For traditional

investment contracts, fair value comprises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment.

- Alternative investment contracts (also called “synthetic investment contracts”) consist of investments together with contracts under which a bank or other institution provides for benefit-responsive withdrawals by plan participants at contract value. For alternative investment contracts, the fair value comprises the aggregate market values of the underlying investments in bond trusts, and the value of the wrap contracts, if any. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formula provided for in the Fund’s synthetic contracts. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio. To the extent that the Fund has unrealized gains and losses (that are accounted for, under contract value accounting, through the value of the synthetic contract), the interest crediting rate may differ from then-current market rates. An investor currently redeeming Fund units may forgo a benefit, or avoid a loss, related to a future crediting rate different from then-current market rates.

The beneficial interest of each participant is represented by units of participation. Units are issued and redeemed daily at the Fund’s constant net asset value (NAV) of \$1 per unit. Distributions of net investment income to unit holders are declared daily and reinvested on the first business day of the following month. It is the expectation of the Fund to maintain a stable net asset value of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct either the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses as applicable. There are no unfunded commitments or restrictions on redemption frequency for the Fund.

Limitations on the Ability of the Fund to Transact at Contract Value—The Fund’s investment contracts are designed to allow a stable value portfolio to maintain a constant NAV, provide a stable crediting rate, and protect a portfolio in extreme circumstances. The issuers’ ability to meet these obligations may be affected by economic developments in their respective companies and industries.

Further, the existence of certain conditions can limit the Fund’s ability to transact at contract value with issuers of its investment contracts. In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines. Any event outside the normal operation of the Fund that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the Fund or a unit holder, tax disqualification of the Fund or unit holder, and certain Trust amendments if issuers’ consent is not obtained.

As of December 31, 2015, the occurrence of an event outside the normal operation of the Fund that would cause a withdrawal from an investment contract is not considered to be probable.

6. NAV PER SHARE

In accordance with ASU No. 2009-12, *Fair Value Measurements and Disclosures (Topic 820)*: *Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, the Plan

should include disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share. The estimated fair value of the Fund is NAV. The use of NAV as a fair value is deemed appropriate as the Fund does not have a finite life, unfunded commitments, or restrictions on redemptions.

7. INVESTMENTS

The Plan's investments, which represented 5% or more of net assets available for benefits as of December 31, 2015 and 2014, are as follows:

	2015	2014
Vanguard Mutual Funds:		
Vanguard Extended Market Index Fund*	\$ 14,576,941	\$ 15,297,394

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual Funds:	<u>\$ (10,905,912)</u>
---------------	------------------------

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a CCT fund managed by Vanguard. Vanguard is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Scripps by a letter dated April 28, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken

that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, Scripps has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.
