Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Beverage Distributors Company, LLC Employees Savings 401(k) & Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan that was established on April 1, 1981 and most recently amended on March 1, 2013. The Plan was available to employees age 21 years or older who had completed three months of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was available to both union and non-union employees and not available to leased employees.

The Plan sponsor was acquired by Breakthru Beverage Colorado on January 1, 2016. The Board of Directors of Breakthru Beverage Colorado (the "Company") administered the Plan. Fidelity Management Trust Company ("Fidelity") served as custodian, managed Plan assets, and maintained the Plan's records. Fidelity offered Plan participants a variety of investment options through various mutual funds and a money market fund. On March 1, 2016, the Plan was merged and all Plan assets were transferred into the Sunbelt Beverage Company, LLC Profit Sharing Plan.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants were able to make before-tax contributions up to 60% of their annual eligible compensation, as limited by the IRS, which was adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage was able to be reduced by the Plan administrator in certain circumstances. The Plan also permitted rollover contributions from other qualified retirement plans. Additional catch-up contributions were available to any participant who was age 50 or older and had made the maximum contribution for the year.

All previously eligible non-participating employees were auto enrolled on March 31, 2013. Also, participants who did not affirmatively elect to have a specified amount contributed to the Plan or opted out of deferring into the Plan automatically had 3% of their eligible compensation deferred upon meeting eligibility requirements. In conjunction with auto enrollment, the Plan had auto deferral escalation of 1% of eligible compensation each year, to a maximum of 6%, for participants who did not change their deferral election. Employee contributions to the Plan were made through regular payroll deductions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

On an annual basis, the Company matched 50% of pre-tax contributions by participants who were union members, up to a maximum of \$500 per participant per Plan year. No such contribution was made for the period ended March 1, 2016. The Company had the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions were so designated, they were non-forfeitable and were not allowed to be withdrawn from the Plan prior to separation from service or attainment of age 59½. The Company also made an annual contribution of \$300 for each participant and may have contributed additional amounts at the discretion of the Board of Directors. As of March 1, 2013, all non-union employees hired after this date would not receive the annual \$300 contribution by the Company. No such contribution was made for the period ended March 1, 2016. In addition to the \$300 per-participant contribution, the Company's Board of Directors could have authorized a discretionary annual profit sharing contribution to the Plan. No such contribution was made for the period ended March 1, 2016. This contribution would have been allocated to participants' accounts based on a formula that considered participants' eligible compensation. Union members were not eligible for the Company's discretionary annual profit sharing contribution. Effective March 1, 2013, at the Plan's year-end, the Company could have made additional discretionary matching contributions. Discretionary matching contributions to the Plan totaled \$204,424 for the period ended March 1, 2016. Total employer contributions for the period ended March 1, 2016 were \$204,424.

Participants' Accounts

Each participant's account was credited or charged with the participant's contribution and an allocation of the Company's contributions, Plan earnings or losses thereon, administrative expenses, and forfeitures. The investment earnings or losses were allocated daily to each participant's account in the proportion that each participant's balance bore to the total of all participants' accounts in each investment. The benefit to which a participant was entitled was the vested portion of the participant's account.

Vesting

Participants were immediately 100% vested in their voluntary contributions, Company annual and matching contributions, and allocated earnings or losses thereon.

Any Company discretionary annual profit sharing and discretionary matching contributions (including forfeitures) and the earnings or losses thereon were vested as follows:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 or more	100%

**BEVERAGE DISTRIBUTORS COMPANY, LLC
EMPLOYEES SAVINGS 401(K) & PROFIT SHARING PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Employees terminated prior to January 1, 2005 were still subject to a prior vesting schedule.

A participant's account became 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan was terminated.

Payment of Benefits

Upon termination of service due to death, disability, or attaining normal retirement age, a participant was able to elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a selected period. For termination of service for other reasons, a participant was able to receive the value of the vested account balance as a lump-sum distribution. Accounts with balances less than \$1,000 were subject to immediate distribution upon a distribution event. For accounts for which no alternative election was made with vested balances more than \$1,000 but less than \$5,000, the account would be rolled into an individual retirement account designated by the Company. Participants were able to make hardship withdrawals subject to approval by the Plan administrator. In-service withdrawals at age 59½ were permitted by the Plan. The Plan required a minimum distribution be made by April 1 following the calendar year a participant turned age 70½. Benefits were recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment a participant was not 100% vested, the non-vested portion ("forfeitures") of the participant's account would be placed in a separate account and would be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. Forfeitures may have first been used to reduce Plan expenses or non-elective employer contributions and then may have been allocated to participants in the same manner as the Company's contribution. No forfeitures were used to reduce Plan expenses or employer contributions during the period ended March 1, 2016. The balance of this account at March 1, 2016 and December 31, 2015 was \$0 and \$205,546, respectively. Any unused forfeitures were transferred into the Sunbelt Beverage Company, LLC Profit Sharing Plan.

Valuation of Investments and Income Recognition

The Plan's investments were stated at fair value as reported to the Plan by Fidelity. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Shares of mutual funds and the money market fund are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. There were no unfunded commitments, and they are valued daily.

**BEVERAGE DISTRIBUTORS COMPANY, LLC
EMPLOYEES SAVINGS 401(K) & PROFIT SHARING PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds were deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment returns for such investments.

Risks and Uncertainties

The Plan provided for various investments that, in general, were exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it was reasonably possible that changes in the value of investments would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan invested in various mutual funds that may in turn have invested in securities with contractual cash flows, such as asset-backed securities; collateralized mortgage obligations; and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of those securities were sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may have been adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Additionally, some investments held by Fidelity were invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the NAV per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 31, 2015. This standard will not affect the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and, under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendment in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt parts I and II of this standard update for the period ended March 1, 2016 and adjusted the financial statement disclosures for all periods presented.

Recent Accounting Pronouncements (continued)

The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Note 2 - Fair Value Accounting

FASB ASC Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following assets are measured at fair value on a recurring basis.

Assets at fair value as of December 31, 2015 are as follows:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds (a)	\$ 17,778,308	\$ 9,830,108	\$ -	\$ 27,608,416
Money market fund	<u>1,072,344</u>	<u>-</u>	<u>-</u>	<u>1,072,344</u>
Total	<u>\$ 18,850,652</u>	<u>\$ 9,830,108</u>	<u>\$ -</u>	<u>\$ 28,680,760</u>

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

There were no changes to the valuation techniques used during the period ended March 1, 2016.

- (a) Level 2 mutual funds seek to provide long-term growth of capital. They seek to provide investment results that approximate the performance of the Standard & Poor's Composite 500 Index.

Note 3 - Assets Certified by Custodian

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of March 1, 2016 and December 31, 2015 and the income earned or losses incurred on the investments for the period ended March 1, 2016, as reflected in the accompanying financial statements, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Fidelity, except for comparing the information contained therein to information included in the financial statements.

Note 4 - Income Tax Status

The Plan had adopted a prototype plan sponsored by Fidelity, which received a favorable opinion letter from the IRS dated March 31, 2014. Accordingly, no provisions for federal or state income taxes have been included in the accompanying financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of March 1, 2016 and December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provided, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also paid the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary. The Plan was merged into the Sunbelt Beverage Company, LLC Profit Sharing Plan on March 1, 2016.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments were shares of mutual funds and a money market fund managed by Fidelity or Qualified Plan Advisors. Fidelity was the custodian and Qualified Plan Advisors was the investment advisor, as defined by the Plan; therefore, these transactions qualified as party-in-interest transactions. These transactions were exempt from the prohibited transaction rules.

Note 8 - Subsequent Events

The Plan administrator has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.
