REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees of the
Amalgamated Transit Union, Local #1548
401(k) Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Amalgamated Transit Union, Local #1548 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Amalgamated Transit Union, Local #1548 401(k) Retirement Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, in 2015 and 2014 the Plan adopted new accounting guidance FASB ASU 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient and FASB ASU 2015-7 Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent). Our opinion is not modified with respect to this matter.

Note 1 – Description of Plan

The following description of the Amalgamated Transit Union, Local #1548 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan. Selected Plan provisions are described below.

- A. **General** – The Plan, which became effective June 1, 2001, is a defined contribution plan covering all eligible employees of the Plymouth & Brockton Street Railway Company, Brush Hill Transportation Company, Cape Area Transportation Systems and Amalgamated Transit Union Local #1548 (the Employers). The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

The purpose of the Plan is to provide retirement benefits to eligible participants and their beneficiaries.

On December 31, 2015 the Plan's assets were transferred and all of the participants became fully vested. The employees of Plymouth & Brockton Street Railway Company voted to move their accounts to a company sponsored plan, while the employees of the other companies voted to join the Amalgamated Transit Union National 401(k) Pension Plan and the Amalgamated Transit Union Local Union Officers and Employees 401(k) Retirement Plan. On January 6, 2016, the transfer of all assets was completed.

- B. **Plan Administration** – Beginning January 1, 2013 MassMutual Financial Group (MassMutual) became the record keeper of the Plan. Amalgamated Transit Union Local 1548 is the Plan Administrator and the trustees include Charles Ryan III, Janet A. Tetreault, and Robert Kent.
- C. **Plan Termination** – Although they have not expressed any intent to do so, each employer has the right to terminate its participation in the Plan at any time, subject to the provisions of ERISA. In the event of a termination of the Plan, participants become 100% vested and the assets shall be liquidated and distributed by Plan management in accordance with the provisions of the Plan, and as prescribed by ERISA and the regulations pursuant thereto. As discussed above the Plan's assets and participants have been transferred to other plans.
- D. **Contributions** – A participant may elect in writing to defer up to 100% of their compensation, subject to the limitations of the Internal Revenue Code (the Code). Participants, who have attained age 50 before the end of the Plan year, are eligible to make "catch up" contributions.

Local #1548 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2015**

Note 1 – Description of Plan, continued

For each Plan year, employers contribute to the Plan an amount required to be made to the Plan pursuant to the collective bargaining agreement between the employer and the union. The current employer matching contributions are three percent (3%) of eligible compensation for Cape Area Transportation Systems and two percent (2%) of eligible compensation for Plymouth & Brockton Street Railway Company and Brush Hill Transportation Company employees. The employer contribution for a participant will not exceed that participant's elective deferral. Subject to the approval of the administrator, participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

- E. **Vesting** – A participant shall at all times have a fully vested right to their account derived from elective deferrals and rollovers from other plans, adjusted for investment experience. For employer contributions and earnings allocated to these contributions, except as otherwise provided with respect to early or normal retirement, disability, or death, a participant shall have a vested right to a percentage of these amounts as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year but less than 2	10%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years and thereafter	100

Note 1 – Description of Plan, continued

- F. **Benefits** - On termination of service due to death, disability, or retirement, a participant may elect to receive a single lump sum equal to the value of the participant's vested interest in their account or purchase a non-transferable annuity providing payments over the life of the participant.

Unless a participant elects otherwise, distribution of their vested account shall begin no later than sixty (60) days after termination of employment.

- G. **Participant Accounts** – Individual accounts are maintained for each participant of the Plan and are participant directed for investment purposes. Under this strategy, each participant directs the investment of his/her account into various investment options offered by the Plan. Each participant's account is credited with contributions made on his/her behalf and an allocation of the interest, dividends and net appreciation/depreciation of the participant's investments. The investment fee, if not covered by forfeitures, is allocated to each participant's account equally. Administrative fees due to actions of a participant are charged directly to that participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

- H. **Notes Receivable, Participants** – Participants may borrow from their fund accounts upon application to the Plan up to a maximum of 50% of their vested benefit. The loans are secured by the balance in the participant's account and at December 31, 2015 and 2014 bear interest rates of 3.25% which is commensurate with local prevailing rates determined by the Plan administrator at the time the loan is taken.

The loans must be repaid within five (5) years except for loans for primary residences which may be repaid in ten (10) years. The loans must be repaid in at least quarterly installments of principal and interest with level periodic payments. Notes receivable are currently paid through weekly payroll deductions.

- I. **Forfeited Accounts** – The non-vested portion of a participant's account shall be forfeited as of the earlier of the distribution of the entire vested portion of a terminated participant's account, or the last day of the plan year in which the participant incurs five (5) consecutive breaks in service. The amount forfeited shall be first used to pay any administrative expenses of the Plan with any remaining forfeitures used to reduce employer contributions. During 2015, forfeitures used to pay for administrative expenses totaled \$13,600. At December 31, 2015 and 2014, forfeited nonvested accounts totaled zero and \$578, respectively.
- J. **Investments** – Plan participants are able to direct the investment of their Plan assets into various options offered under the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting in conformity with U.S. generally accepted accounting principles.

Valuation of Investments and Income Recognition – Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Fees charged by the funds in which the Plan invests are netted against investment income. The Plan's administrator determines the Plan's valuation policies utilizing information provided by MassMutual.

Investment contracts held by a defined-contribution plan are required to be reported at contract value which is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through the MassMutual Guaranteed Interest Account.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Administrative Expenses– Certain costs of Plan administration, including accounting, investment expenses, and auditing fees, are allocated between the participants equally. Participant accounts may also be charged individually for administrative expenses incurred by the participant such as distribution requests, loan requests, and loan maintenance.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable, Participants - Notes receivable, participants are reported at their unpaid principal balance, plus any accrued but unpaid interest, with no allowance for credit losses. Repayments of principal and interest are received through payroll deductions and the loans are collateralized by the participants' account balances.

Adoption of New Accounting Standards

In May and July 2015, the Financial Accounting Standards Board (FASB) amended various disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in the removal of investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board *Accounting Standards Codification* (ASC) 820, *Fair Value Measurement and Disclosure*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**Amalgamated Transit Union,
Local #1548 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2015**

Note 3 - Fair Value Measurements, continued

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered Investment Companies – These investments are public investment vehicles valued using the daily quoted net asset value (NAV) of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. Registered investment companies held by the Plan are registered with the Securities and Exchange Commission. These companies are required to publish their daily NAV and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Guaranteed Interest Account – The guaranteed interest account (GIA) is a stable value investment with a guaranteed rate of return and a guarantee of principal and are reported at contract value. The GIA is provided through a group annuity contract that has a six-month contracted crediting rate and is considered fully benefit responsive.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value, except for the GIA which is at contract value on a recurring basis as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	\$ 3,466,936	\$ -	\$ -	\$ 3,466,936
Guaranteed Interest Account	-	-	267,411	267,411

Notes to Financial Statements

Note 3 - Fair Value Measurements, continued

The summary of changes in the fair value of the Plan's level 3 investments is not presented due to early adoption of ASU 2015-12, which excludes Fully Benefit Responsive Contracts from the summary of changes.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs for the year ended December 31, 2015:

Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Interest Account	\$ -	Liquidation value	Liquidation value based on actuarial formula as defined under the terms of the contract.	Contract interest rate 1.50%

Transfers Between Fair Value Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions of model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of levels 1, 2, or 3.

Note 4 – Guaranteed Interest Account

MassMutual Retirement Services Guaranteed Interest Account

The Plan invests the GIA which is a stable value investment with a guaranteed rate of return and guarantee of principal that is backed by MassMutual. The GIA is provided through a group annuity contract (GAC) issued by MassMutual, under the contract, a crediting rate is established for a six month period of time and all assets invested in the GIA are credited with that rate. MassMutual assumes market, credit and interest rate risks for the assets supporting the GIA.

As discussed in note 2, because the guaranteed annuity contracts are considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed annuity contracts. Contract value, as reported to the Plan by the GIA, represents contributions made under the contract, plus interest, less participant withdrawals and fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed, typically, on a quarterly basis for resetting.

Certain events may limit the ability of the GIA to transact at Contract Value. Such events include but may not be limited to the following: temporary absence, change in position or other occurrence qualifying as a temporary break in service, transfer or other change of position resulting in employment by an entity controlling, controlled by, or under common control with the employer, cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business, removal from the Plan of one or more groups or classifications of participant, partial or complete Plan termination, and Plan disqualification.

The following is information regarding average yields for the years ended December 31, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Based on actual earnings	1.50%	1.74%
Based on interest rate credited to participants	1.50%	1.74%

Note 5 – Tax Status

The Plan qualifies under Section 401(a) and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as a defined contribution profit sharing plan. In a determination letter dated May 9, 2012, the Internal Revenue Service (IRS) recognized the continued qualification of the Plan based on amendments through April 4, 2012. The Trustees believe that the Plan, including amendments subsequent to the IRS determination letter, is currently designed and operated in compliance with the requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benef
