Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

1. DESCRIPTION OF THE PLAN

The following description of the Van Wert County Hospital 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Van Wert County Hospital 401(k) Plan (the Plan), is a defined contribution plan covering eligible employees of The Van Wert County Hospital Association (the Hospital). Employees are eligible to participate in the Plan upon attainment of age 21 and completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2015 and 2014, the Hospital made a discretionary profit sharing contribution of 2% for each participant based on their eligible wages. Participants direct the investment of the contributions into various investment options offered by the Plan.

Participants Accounts

Each participant's account is credited with allocations of (a) the Hospital's contributions, (b) Plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant vesting in their account plus actual earnings thereon is based on years of credited service. A participant is 100 percent vested after three years of credited service, with no vesting prior to three years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is calculated at a rate commensurate with loans from the trustee/record-keeper and at local prevailing rates as determined by the Plan's Administrator. Principal and interest are paid ratably through monthly payroll deductions.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant will elect to receive a lump sum amount or joint and survivor annuity, equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 2015 and 2014, forfeited non-vested accounts totaled \$4,067 and \$998, respectively. These accounts will be used to reduce future employer contributions. Also, in 2015, there were no employer contributions reduced by forfeited non-vested accounts.

Transfers Out

Transfers out represent Plan assets transferred to a separate retirement plan of the Hospital.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan sponsor determines the Plan's valuation policies utilizing information provided by the investment advisor, trustee, and insurance company. See Note 5 for discussion of fair value measurements.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are recorded as distributions on the basis of the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Plan and are excluded from these financial statements. Investment-related expenses are included in net depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

3. CHANGE IN ACCOUNTING PRINCIPLES

During 2015, the Plan early adopted Accounting Standards Update 2015-12, *Plan Accounting, Parts I and II* which simplified accounting for certain investments and eliminated previously required disclosure requirements.

Part I specifies that contract value is the relevant measure for fully benefit-responsive investment contracts to be recorded in the statement of net assets available for benefits. Previously, the contract value approximated fair value for these contracts and the adoption of this standard did not have a significant impact on the statement of net assets available for benefits. The accounting policy has been revised to reflect this change.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

Part II eliminates certain disclosure requirements for plans. Specifically, investments will be disaggregated by general type (mutual funds, common stocks, bonds) whereas previously they were disaggregated in much greater detail such as by investment objective or industry. In addition, the disclosure of individual investments with a value equal to or greater than 5% of net assets available for benefits has been removed. And finally, plans will present the net appreciation (depreciation) in the aggregate whereas previously it was detailed by the general type of the investment. The 2014 notes to the financial statements have been retroactively restated as required by the standard.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, American United Life Insurance Company (AUL), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2015 and 2014, and investment related activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

5. FAIR VALUE MEASUREMENTS

Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2015 and 2014:

Pooled separate accounts: Represents accumulation units and the value is based on the underlying share values adjusted for dividends, distributions and the daily equivalent of any fee charged by the trustee. The value of each accumulation unit is published each day. Each investment account is exclusively invested in shares of a specific mutual fund as directed by the participant (Level 2).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Fair Value of Assets as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:	\$ -	\$ 11,762,770	\$ -	\$ 11,762,770
Total assets at fair value	\$ -	\$ 11,762,770	\$ -	\$ 11,762,770

	Fair Value of Assets as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:	\$ -	\$ 13,249,487	\$ -	\$ 13,249,487
Total assets at fair value	\$ -	\$ 13,249,487	\$ -	\$ 13,249,487

The Plan's policy is to recognize transfers between levels as of the end of the reporting period. There were no significant transfers between levels during 2015 and 2014.

6. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds investment contracts that are traditional investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The traditional investment contracts held by the Plan are a guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contracts cannot be terminated before the scheduled maturity dates.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

VAN WERT COUNTY HOSPITAL 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2015 AND 2014

7. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by AUL. AUL is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred are paid directly by the Plan for the investment management services.

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the plan sponsor and certain others. Investment management fees are paid to AUL, the trustee. AUL is the Plan's third party administrator. Blue & Co., LLC is the independent auditor for the Plan. The aforementioned parties generally receive payment from the Hospital.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

9. TAX STATUS

The Internal Revenue Service has determined and informed the Hospital by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
