1. Description of Plan

The following description of the San Jose Country Club ("Company") Pension Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed at least one year of service with a minimum of 1,000 hours and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their gross annual compensation, subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants can also receive annual discretionary employer matching contributions of 50% of the first 4% of eligible compensation.

Participant Account

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged with withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may choose to invest their accounts in one or more funds established by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on a 5-year cliff vesting schedule. A participant is 100% vested in employer contributions upon disability or death.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the present value of vested portion of the participantôs vested aggregate account. The loans are secured by the balance in the participantôs account and bear interest at the New York prime rate reported in the Wall Street Journal, plus 2%. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $560 and $5,891 respectively and employer contributions were reduced by $5,891 and $0 from forfeited nonvested accounts. These forfeitures are used to reduce employer contributions and administrative expenses.

Investment Options
Upon enrollment in the Plan, a participant may choose for several investment options, which are offered through John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan. Those investment options consist of guaranteed interest accounts and pooled separate accounts. Pooled separate accounts are investment funds shared by several owners that are separate from the other assets owned by John Hancock.

2. Summary of Significant Accounting Policies

Date of Management's Review
Subsequent events were evaluated through October 14, 2016, which is the date the financial statements were available to be issued.

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan. Interest income on notes receivable from participants is recorded when it is earned. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Operating Expenses
All expenses of maintaining the Plan are paid by the Plan or the Company as provided in the Plan document.

Risks and Uncertainties
The Plan provides for various investment options in any combination of pooled separate accounts and a guaranteed interest fund. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the financial instruments carried at fair value as of December 31, 2015 and 2014:

		Fair Value at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

	$ 1,936,089	$ 1,921,554	$ -	$ 14,535

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2015 and 2014:

	Guaranteed Interest Accounts	
	2015	2014

Purchases, issuances and settlements	(100)	(1,155)
Ending balance	$ 20,624	$ 14,535

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of common stocks, certain corporate bonds, and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 2 Fair Value Measurements

The fair value of certain corporate bonds for which quoted market price are not available are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of the certificates of deposit is based on amortized cost or original cost plus accrued interest.

Level 3 Fair Value Measurements

The investments not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

4. Investments

The Plan's investments are held in a bank-administered trust fund. The following table presents fair value of investments measured on a recurring basis at December 31, 2015 and 2014. Investments that represent 5% or more of the Plan's net assets are separately identified.

The following presents investments that represent 5% or more of the Plan's net assets:

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $5,973 as follows:

Pooled separate accounts	$ 5,973

5. Guaranteed Interest Account with Insurance Company

The Plan provides an investment option to invest in investment contracts held in the guaranteed interest account with John Hancock. John Hancock maintains the contributions in a general account that is credited with a guaranteed and fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan by John Hancock. Access to funds is substantially restricted by contract provisions; therefore, the investment contracts held by the Plan are not considered to be fully benefit-responsive. The guaranteed interest accounts are included in the financial statements at fair value. The guaranteed interest account does not permit John Hancock to terminate the agreements prior to the scheduled maturity date.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. Information Certified by the Plan's Custodian

The investments included in the statement of net assets available for benefits as of December 31, 2015 and 2014, and the net appreciation in fair value of investments, interest and dividends included in the statement of changes in net assets available for benefits for the year ended December 31, 2015 have been derived from information certified as complete and accurate by John Hancock, Trustee of the Plan, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

8. Related Party Transactions

Certain Plan investments are managed by John Hancock. John Hancock is the custodian for the Plan and, therefore, these transactions qualify as party-in-interest transactions. The fair value of investments managed by John Hancock at December 31, 2015 and 2014 totaled $1,901,796 and $1,936,089, respectively.

9. Income Tax Status

The Plan uses a volume submitter plan document sponsored by the Planôs third party administrator. The volume submitter document received an opinion letter from the IRS, dated March 31, 2008, which states that it satisfies the applicable provisions of the Internal Revenue Code (ñIRCò). The Plan itself has not received a determination letter from the IRS. The Plan document has been amended since receiving the opinion letter. However, the Planôs management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Planôs financial statements. With few exceptions, the Plan is no longer subject to examination by tax authorities for years before 2012.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participantsô account balances and the amounts reported in the statement of net assets available for benefits.
