Premier Family Medical, LLC 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2015 (Audited) and 2014 (Compiled)

Note 1 – Description of Plan

The following brief description of the Premier Family Medical, LLC 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering qualified employees of Premier Family Medical, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Employees are eligible to participate in the Plan if they have completed one year of service and are 21 years of age. Employees are credited with a year of service at the end of the twelve month period beginning on the date of hire if they have been credited with at least 1,000 hours of service during such period.

Entry Date – Employees may enter the Plan on the first day of the Plan year quarter coinciding with or next following the date you satisfy the eligibility requirements.

Contributions – Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company contributes 100% of the first 3% of employees' deferred amounts and 50% of the next 2% of employees' deferred amounts. Additional amounts may be contributed at the discretion of the Company's board of directors. No such discretionary contributions were made for the year ended December 31, 2015.

Participant Accounts – Each participant's account is credited with the participant's contributions and the Company's discretionary contribution, as well as an allocation of the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Upon enrollment in the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. A self-directed brokerage account option is offered whereby participants can choose to invest a portion of their accounts in investments outside the Plan's fund lineup. Special contribution, loan, distribution, withdrawal, and fee allocation rules apply to self-directed brokerage accounts. Participants may change their investment options daily.

Notes to Financial Statements (Continued)

December 31, 2015 (Audited) and 2014 (Compiled)

Note 1 – Description of Plan (Continued)

Vesting – Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting is based on years of credited services as set forth in the following table:

<u>Participant's Years of Service</u>	<u>Vested Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures – At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$2,410 and \$24,269, respectively. The Employer may use forfeitures to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2015, employer contributions were reduced by \$24,273 from forfeited non-vested accounts.

Notes Receivable from Participants – Participants may borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time funds are borrowed, as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years, unless the proceeds of the loan were used to acquire the participant's residence. A participant may have no more than two outstanding loans at any one time.

Payment of Benefits – Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than \$1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between \$1,000 and \$5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination, upon attainment of age 59 ½, or hardship as defined in the Plan document.

Death Benefits – The designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Notes to Financial Statements (Continued)

December 31, 2015 (Audited) and 2014 (Compiled)

Note 1 – Description of Plan (Continued)

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Recent Accounting Guidance – Due to a clarification in application of Topic 946 to employee benefit plan accounting, contract value of indirect investments in fully benefit-responsive contracts is understood to be the fair value. As of December 31, 2014, contract value was deemed to approximate fair value, therefore, no changes were required to the previous statement of net assets available for benefits.

The Plan adopted the provisions of Accounting Standards Update (ASU) 2015-12 (Part II), “Plan Accounting (Topics 960, 962, and 965): Plan Investment Disclosures”. This ASU eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits, eliminates the net appreciation or depreciation for investments by general type, and requires that investments be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. The Plan has adopted this standard as Plan management believes this presentation is more relevant to the users of the financial statements. Accordingly, the accounting change has been retrospectively applied to the prior period presented, as required.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan’s investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Premier Family Medical, LLC 401(k) Retirement Plan

Notes to Financial Statements (Continued)

December 31, 2015 (Audited) and 2014 (Compiled)

Note 2 – Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivables are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Payments of Benefits – Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but had not yet been paid as of December 31, 2015 and 2014.

Administrative Expenses – The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net depreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events – The Plan sponsor has evaluated subsequent events through October 17, 2016, the date which the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3 – Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- * Quoted prices for similar assets or liabilities in active markets;
- * Quoted prices for identical or similar assets or liabilities in inactive markets;
- * Inputs other than quoted prices that are observable for the asset or liability;
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Certain types of financial instruments are classified as Level 3 within the valuation hierarchy because these financial instruments trade infrequently and, therefore, have little or no price transparency.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2015 and 2014.

Mutual funds – Valued at fair value based on quoted market prices.

Self-directed investment accounts – Self-directed brokerage accounts consist of mutual funds that are valued at quoted market prices, life insurance contracts that are valued at cash surrender value, and real estate investment trusts, that are valued at estimated market value of all the assets, including cash and indirect property assets, net of liabilities and deliberated dividends or distributions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	2015			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 6,322,300	\$ 6,322,300	\$ -	\$ -
Self-directed accounts	4,269,954	1,904,973	-	2,364,981
Total investments at fair value	<u>\$ 10,592,254</u>	<u>\$ 8,227,273</u>	<u>\$ -</u>	<u>\$ 2,364,981</u>

	2014			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 6,530,507	\$ 6,530,507	\$ -	\$ -
Self-directed accounts	4,171,997	2,901,971	-	1,268,837
Total investments at fair value	<u>\$ 10,702,504</u>	<u>\$ 9,432,478</u>	<u>\$ -</u>	<u>\$ 1,268,837</u>

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of levels 1, 2, or 3.

The following table sets forth the disclosure for the fair value measurement of investments in certain entities that calculate NAV per share as of December 31, 2015 and 2014:

	Fair Value December 31, 2015	Fair Value December 31, 2014	Unfunded Commitment	Redemption Frequency	Redemption Notice
Self-directed accounts	\$ 111,698	\$ 102,794	\$ -	Limited	Various

Note 4 – Information Certified by the Plan Trustees

The Plan Administrator has elected the method of compliance permitted by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified as complete and accurate by MG Trust Company and Ascensus Trust Company.

The Plan trustee has certified the statement of accounts as of December 31, 2015 and 2014, and for the year ended December 31, 2015. The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified by MG Trust Company and Ascensus Trust Company:

	2015	2014
Investments at fair value	\$ 6,322,300	\$ 6,530,457
Notes receivable from participants	127,943	115,688
Investment income (loss)	(192,462)	N/A

Note 5 – Tax Status

The Plan uses a prototype plan document sponsored by CCH Incorporated, which received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS; however, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Related Party and Party-in-Interest Transactions

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
