NOTE 1 – DESCRIPTION OF PLAN

The following description of Foley Family Wines 401(k) Plan provides only general information. Participants should refer to the plan document, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) defined contribution plan covering all eligible employees of Foley Family Wines, Inc. (the Company), and is subject to provisions of ERISA. Foley Family Wines, Inc is the Plan's sponsor and serves as plan administrator.

Eligibility – Employees who are at least age 21, completed 6 months of service, and who are not members of a collective bargaining unit or a nonresident alien, are eligible to participate in the Plan.

Contributions

Participant contributions – Each year, participants may contribute between 1-100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The match is allocated as a percentage of a participant's compensation to total compensation of all eligible participants. Participants are eligible for the discretionary matching contribution if employed at December 31, are not considered highly compensated employees, and have completed 6 months of service. Contributions are subject to regulatory limitations. There were no profit sharing contributions for the year ended December 31, 2012.

Participant accounts – Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, and investment earnings. Participants may direct the investment of their account balances into investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in Company contributions and their contributions plus actual earnings thereon.

Notes receivable to participants – A participant may borrow from their account a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes receivable are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the plan administrator. The maximum note receivable term is five years unless the note receivable term qualifies as a home loan. Principal and interest are paid ratably through payroll deductions. A participant may have two outstanding notes receivable at a time. As of December 31, 2012, the rates of interest on outstanding notes receivable ranged from 4.25% to 5.35%, with various maturities through January 2017.

Payment of benefits – On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance, or a direct rollover into an IRA or other eligible retirement plan. The Plan permits hardship distributions if a participant meets certain criteria, as defined in the plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent accounting pronouncements

ASU No. 2011-04 – In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The Plan adopted the new disclosure requirements effective January 1, 2012.

Investment valuation – Investments are reported at fair value. The Plan's trustee, Fidelity Management Trust Company (Fidelity), certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of participant-directed investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Expenses – Administrative expenses are paid by the Company. Certain transaction fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through October 10, 2013, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consisted of the following as of December 31:

	2012	2011
Fidelity Advisor Freedom 2020 Class A	$ 2,222,882	$ 2,138,431
Fidelity Advisor Freedom 2025 Class A	1,276,389	1,109,420
Fidelity Advisor Freedom 2030 Class A	Less than 5%	670,372
Goldman Sachs High Yield Fund Class A	505,649	Less than 5%
Alger Spectra A	498,277	Less than 5%

During 2012, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value by $798,745.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies (mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

The following sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value at December 31:

NOTE 5 – TAX STATUS

The Plan is a volume submitter profit sharing plan that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset), if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Participant directed investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011;

- Net appreciation in fair value of investments, interest and dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2012; and

- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of registered investment companies managed by Fidelity Management Trust Company, the trustee of the Plan. Therefore, transactions with this entity qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time.

NOTE 10 – RECONCILIATION TO FORM 5500

The following is a reconciliation of change in net assets per the financial statements for the year ended December 31, 2012, to the Form 5500:

	2012	2011
Net assets available for benefits, per the financial statements	$ -	$ 8,887,972
Less receivable from other plan	-	(28,200)
Less participant contributions receivable	-	(20,065)
Net assets available for benefits, per the Form 5500	$ -	$ 8,839,707
Participant contributions, per the financial statements	$ 1,623,338	
Plus participant contributions receivable, prior year	48,265	
Less participant contributions receivable, current year	-	
Participant contributions, per the Form 5500	$ 1,671,603	

NOTE 11 – PLAN MERGER AND RECEIVABLE FROM OTHER PLAN

On February 1, 2010, the Plan merged with three other plans that were all administered by the Company. All assets of Firestone Vineyard, LP 401(k) Profit Sharing Plan and Kuleto Estate 401(k) Plan were transferred to the Plan, and those plans subsequently terminated. Assets related to non-union employees in Sebastiani Vineyards, Inc. Tax Sheltered Retirement Savings 401(k) Plan, were transferred to the Plan, and that plan remains in effect for union employees of the Company. As of December 31, 2011, a receivable in the amount of $ 28,200 related to the Sebastiatini Plan was outstanding. This amount, plus lost earnings was remitted to the Plan in June 2012.
