SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
for the year ended December 31, 2015

1. Description of Plan:

The following description of the DiPasqua Enterprises, Inc. (Company) Savings Plan (Plan), provides only general information. Effective August 20, 2009, the Plan was restated from the original Plan established October 1, 1991. On November 15, 2010, the Plan was amended to allow ROTH contributions and on May 16, 2014, to limit ability to take loans. Effective March 14, 2014, the Plan was amended to allow separate accounts. The Plan, as restated, is a trusteed profit sharing 401(k) salary deferred thrift plan. Participants should refer to the Plan agreement, as amended, and annuity contract for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have one year of service, attained age eighteen, and have at least 1,000 hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employees may elect to contribute to the Plan through salary deferrals subject to Plan limitations. The Company may contribute a discretionary matching percentage of such salary deferral on deferrals up to 5% of employee compensation. Additionally, the Company may elect to contribute to the Plan such portion of its current net profit or accumulated profit for its fiscal year as the Board of Directors may determine.

Participant Accounts - Each participant's account is credited with an allocation of (a) his/her elective deferral contributions, (b) the Company's matching and profit sharing contributions, (c) Plan earnings (losses) and, (d) forfeitures of terminated participants' nonvested accounts. Profit sharing contributions are allocated based on the fiscal year compensation of the participants.

Vesting - Employee contributions are always 100% vested. Participants are vested in the employer's contributions and plan earnings (losses) according to the following table:

Vesting Years of Service	Vested Percent
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Notes Receivable - Effective January 1, 2007, participants may borrow from their investment accounts with loan terms ranging from 1-5 years. Effective May 16, 2014, participants may no longer borrow from employer contributions. The loans are secured by the balance in the participant's account and bear interest at 8.0%. Principal and interest is paid ratably through weekly payroll deductions. Delinquent participant loans, if any, are reclassified as distributions based on terms of the Plan document.

Investment Options - The Plan's investments are held in trust by the Principal Life Insurance Company, Principal Trust Company and Union Bond & Trust Company. Upon enrollment in the Plan, a participant may direct employee contributions in any of approximately thirty-five investment options as follows:

1. Description of Plan - Continued
Investment Options - Continued

Large Cap Value III Separate Account - The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in companies with large market capitalizations at the time of purchase.

Equity Income Separate Account - The investment seeks to provide current income and long-term growth of income and capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in dividend-paying equity securities at the time of purchase. The fund usually invests in equity securities of companies with large market capitalizations. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

Large Cap S&P 500 Index Separate Account - The investment option normally invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 500 Index.

The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations at the time of each purchase. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

Mid Cap Value III Separate Account - The investment seeks long-term growth of capital and normally invests the majority of assets in companies with market capitalizations similar to those of companies in the Russell MidCap Value Index. Management selects investments primarily on the basis of fundamental security analysis, focusing on the company's financial stability, sales, earnings, dividend trends, return on equity and industry trends. It may invest up to 25% of assets in foreign securities.

Mid Cap S&P 400 Index Separate Account - The investment option normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P MidCap 400 Index.

Mid Cap Separate Account - The investment option invests primarily in common stocks and other equity securities of medium capitalization companies. It normally invests the majority of assets in companies with market capitalizations similar to those companies in the Russell MidCap Index. Management's securities selection is based on stocks with value and/or growth characteristics, and management constructs an investment portfolio that has a blend of stocks with these characteristics. It may invest up to 25% of assets in foreign securities.

SAM Balanced Separate Account - The investment seeks to provide as high a level of total return (consisting of reinvested income and capital appreciation) as is consistent with reasonable risk. The fund operates as a fund of funds.

SAM Conservative Growth Separate Account - The investment seeks to provide long-term capital appreciation. The fund operates as fund of funds. It generally invests: between 0% and 40% of its assets in fixed-income funds, and less than 30% in any one fixed-income fund; between 60% and 100% of its assets in equity funds that invest in small, medium, and large market capitalization companies, and less than 40% in any one equity fund; and less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund.

SAM Strategic Growth Separate Account - The investment seeks to provide long-term capital appreciation. The fund operates as a fund of funds. Principal Trust Income Fund - The investment option seeks current income and, as a secondary objective, capital appreciation. To pursue its goal, this Target Date Fund generally invests in affiliated and may invest in nonaffiliated open-ended mutual funds, insurance company separate accounts, and collective trust funds that Principal Trust considers appropriate based on investors who have reached their investment time horizon.

Principal Trust Target 2010 – 2060 - The investment option seeks a total return consisting of long-term growth of capital and current income. To pursue its goal, this Target Date Fund generally invests in affiliated open-ended mutual funds, insurance company separate accounts, unaffiliated mutual funds, and unaffiliated collective trust funds that Principal Trust considers appropriate based on the remaining time horizon of a particular Target Date Fund.

Principal Stable Value Fund - The Fund primarily consists of a diversified portfolio of Stable Value Investment Contracts (Investment Contracts) issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The principal value of these assets is designed to remain stable regardless of stock and bond market fluctuations.

BlackRock High Yield Bond Investor A Fund - The investment seeks to maximize total return, consistent with income generation and prudent investment management. The fund invests primarily in non-investment grade bonds with maturities of ten years or less. It normally invests at least 80% of its assets in high yield bonds. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Expenses - The Company assumes responsibility for the audit fees, third-party administration fees and provides administrative services for the Plan at no charge.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become 100% vested.

2. Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with auditing principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements – The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Continued

2. Summary of Significant Accounting Policies - Continued
Fair Value Measurements - Continued

Level 1 Inputs - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date (e.g. prices derived from NYSE, NASDAQ or Chicago Board of Trade).

Level 2 Inputs - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable prices.

Level 3 Inputs - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

5. Amounts in Accounts of Terminated Participants:

At December 31, 2015 and 2014, the Plan's net assets available for benefits included fully and partially vested amounts in accounts of terminated participants. As of December 31, 2015, the balances were $731,951.

6. Forfeited Accounts:

For the year ended December 31, 2015, forfeited nonvested accounts of withdrawing participants was $44,090. This amount was used to offset employer discretionary contributions during 2015.

7. Tax Status:

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. Subsequent Event:

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through July 20, 2016, the date the financial statements were available to be issued.

10. Reissuance of Financial Statements and Independent Auditors' Report:

The Independent Auditors' Report to these financial statements, which includes the notes to the financial statements, was issued on July 20, 2016. Subsequent to that date, the independent auditors reissued the financial statements and their report on the financial statements to include Footnote 9 – Form 5500 Reconciliation and Footnote 10 – Reissuance of Financial Statements and Independent Auditors' Report. In addition, the independent auditors' report to these financial statements was modified to make reference to the fact that the Statements of Net Assets for Benefits included as part of the financial statements, as of December 31, 2015 and December 31, 2014, were both audited by the independent firm. The prior report made reference to the December 31, 2015, statement only. No subsequent events review was performed by the independent auditors from the original report date July 20, 2016, through the reissuance date October 26, 2016.
