INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of the
Peterson Brothers Construction, Inc. Employee Stock Ownership Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of the Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of January 31, 2016 and 2015, the related statement of changes in net assets available for benefits for the year ended January 31, 2016 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of January 31, 2016 and 2015, and the changes in net assets available for benefits for the year ended January 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, line 4i - Schedule of Assets (Held At End of Year) as of January 31, 2016, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2016 AND 2015

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

General

Peterson Brothers Construction, Inc. (the Company) established the Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan), effective February 1, 2005. The Plan is intended to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan has purchased shares of Company common stock using borrowed proceeds secured by the purchased shares, and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulation under the IRC.

The borrowing is collateralized by the unallocated shares of Company common stock. The lender has no rights against shares of Company common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated Company common stock (allocated) and (b) Company common stock not yet allocated to employees (unallocated).

Eligibility

All employees employed on October 13, 2005, entered the Plan as of the later of February 1, 2005 or the employee's date of hire, and received an allocation regardless of completion of 1,000 hours of service; provided that the employee was employed on January 31, 2006. Thereafter, employees of the Company who are not covered under a collective bargaining agreement and who have attained at least 18 years of age are eligible to participate in the Plan on the first day of the plan year following the completion of 1 year of service, defined as a minimum of 1,000 hours.

Company Contributions

The Company is obligated to make contributions in cash or dividends to the Plan in the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. The Company may also make additional discretionary cash contributions to the Plan in an amount determined by the Company's Board of Directors.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Plan Administration

The Plan is administered by an Administrative Committee comprised of one or more persons appointed by the Board of Directors of the Company. Currently, the Administrative Committee consists of three employees of the Company and the independent trustee of the Plan.

Participant Accounts

Each participant's individual account is credited with the allocations of (a) the Company's contributions, (b) forfeitures, (c) dividends, and (d) investment earnings, net of plan expenses.

The Company's contributions generally consist of acquisition indebtedness contributions. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on the percentage that their eligible compensation is representative to total eligible compensation.

Forfeitures of terminated participant's nonvested account balances are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation.

Dividend income received by the Plan on previously allocated shares is allocated based on the number of shares held by the participants at year-end. Dividend income received by the Plan on unallocated shares is allocated based on the percentage that their eligible compensation is representative to total eligible compensation.

Investment earnings or losses on Company common stock consists of the change in value from year to year on the Company's common stock as determined by an independent appraisal and are allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Other Plan investment earnings and plan expenses are allocated to each participant's account based on the ratio of the participant's beginning of the year other investment account balance less any distributions from such accounts since the preceding allocation date to all participants' beginning of the year other investment account balances less any distributions from such accounts since the preceding allocation date.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Voting Rights

Participants may direct the voting of shares of the Company common stock allocated to their accounts on any matter on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. Each participant will be provided with notification of the shareholders meeting and the proxy voting instruction form, which will need to be returned to the trustee prior to said meeting. The trustee will vote all shares according to those instructions. The trustee will vote all shares for which no instruction was received as the trustee determines is appropriate and in the best interest of Plan participants.

Payment of Benefits

Distribution of Plan benefits due to termination, retirement, disability or death will be made in lump sum payments of cash or equal annual installments over a period not exceeding five years after a waiting period that ranges from 1 to 6 years. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. Effective November 1, 2015, the Plan was amended to permit participants who had terminated employment on or before January 31, 2015 and whose vested account balance did not exceed $1,600 to take a lump sum distribution of their vested account balance. As of January 31, 2016, 172 participants who terminated employment have 35,479 vested shares valued at $494,181. These amounts are scheduled to be paid commencing January 31, 2017 through January 31, 2026.

Vesting

Vesting in the Company's contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 3	0%
3	100%

Put Option

Under federal income tax regulations, the Company common stock held by the Plan and its participants, and that are not readily tradable on an established market, or that are subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company or the Plan buy shares of its common stock held by the participant for which there is no market. The put price is representative of the fair market value of the common stock as of the most recent preceding valuation date. The Company or the Plan may pay for the purchase with interest not exceeding a period of five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. In addition, if the Company or the Plan elects to pay the purchase price of the common stock option under the installment method then the Company or the Plan shall give the participant who is exercising the put option the Company's or the Plan's promissory note for the full unpaid balance of the purchase price.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Right of First Refusal

The right of first refusal shall provide that prior to any subsequent transfer, the shares must first be offered for purchase in writing to the Company, then to the trustee, on behalf of the Plan, at the fair market value. The fair market value for these shares of Company common stock shall be the greater of the price offered to the participant by the prospective purchaser or the most recent preceding valuation date of the Plan. The Company and the trustee have 14 days to exercise this right of first refusal.

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of his or her account balance, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. As of January 31, 2016, 2,814 shares of Company common stock were eligible for diversification.

Plan Termination

The Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

In July 2015, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU 2015-12), which includes guidance related to plan investment disclosures. This guidance revises disclosure requirements related to plan investments. This guidance is effective for plan years beginning after December 15, 2015, with early application permitted. The Plan has elected to early adopt the provisions of this ASU including the retroactive application of its provisions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net appreciation includes the change in value of the Company's common stock.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Plan expenses paid by the Company are not included in these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in Company common stock that is generally exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with the common stock, it is reasonably possible that changes in the values of the common stock will occur in the near future and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2016 and 2015.

Peterson Brothers Construction, Inc. common stock: The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flow and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

3. FAIR VALUE MEASUREMENTS – (Continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's asset at fair value as of:

Description	Total	Level 1	Level 2	Level 3
January 31, 2016				
Peterson Brothers Construction, Inc. common stock	$ 1,323,257	$ -	$ -	$ 1,323,257
January 31, 2015				
Peterson Brothers Construction, Inc. common stock	$ 1,041,251	$ -	$ -	$ 1,041,251

In regards to the classification of common stock, there were no reclassifications between levels 1, 2 and 3 during the year ended January 31, 2016.

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment asset:

	Peterson Construction, Inc. Common Stock
Balance, beginning of year	$ 1,041,251
Net appreciation	282,006
Balance, end of year	$ 1,323,257

4. INVESTMENT IN PETERSON BROTHERS CONSTRUCTION, INC.

The following summarizes investments of the Plan at January 31, 2016 and 2015:

	2016		2015	
	Allocated	Unallocated	Allocated	Unallocated
Peterson Brothers Construction, Inc, common shares:				
Number of shares	94,408	592	93,815	1,185
Cost	$ 19,025,444	$ 119,302	$ 15,947,724	$ 201,440
Fair market value	$ 1,315,005	$ 8,252	$ 1,028,265	$ 12,986

The cost basis of the common shares includes the pass-through income from the Company as the Company is an S corporation.

5. LOAN PAYABLE

In August 2012, the Plan entered into a $51,095 term loan agreement with Peterson Brothers Construction, Inc. The proceeds of the loan were used to purchase Company common stock. The loan bears interest at a fixed rate of 4%. Beginning on August 31, 2013, the Plan must make minimum principal and interest payments of at least $11,479 annually through 2016. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 593 shares being released and allocated for the plan year ended January 31, 2016. The Plan may prepay the loan with the consent of the Company. Prepayments of principal may reduce the future years' minimum required payments. The fair value of the loan payable as of January 31, 2016 approximates the remaining principal amount of $11,037.

6. TAX STATUS

The Company received a favorable opinion letter from the Internal Revenue Service (IRS), on August 27, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. Plan invests in Company common stock and has indebtedness to the Company. The Plan paid $3,395 in administrative expenses during the year ended January 31, 2016. The Company paid certain administrative expenses of the Plan, including audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.
